In re : Muller Petition to Vacate File No. 20-1174A
Michael & Robin Purdy 930 Wisconsin Ave Palm Harbor FL 34683 Wisconsin is a block north of Illinois We share a property line with Lot 11, the vacant lot in the petition. We have lived here since 1998. No objection to vacating the alley. Would ask the commission to deny the petition to vacate the right of ways. Stormwater compels me to appear today. I have a lengthy history talking to Pinellas county about stormwater in the area, and specifically water from Illinois. I'll spare detail of that history this evening other than to say, I'm in complete agreement with the county staff report. Stormwater is an acute present concern for the county to address. It was encouraging to read the area has been prioritized for drainage improvements. I'm in complete agreement. It is needed, and would be to the benefit of residents beyond Illinois. Further, the county could have a future use for these right of ways that is as yet unforeseen. This parcel is adjacent to the Pinellas Trail. This has great value to the county and its citizens for present and future public use. Land like that is difficult and expensive to acquire. The petition has no public purpose It's needed currently for utility improvement Exempting Illinois from needed drainage infrastructure would have deleterious effect on the surrounding area. It undermines the integrity of the historic neighborhood grid. No objection to the alley. Deny the petition to vacate the right of the ways.
