Topic Face masks

BCC Agenda Date 6-23-2020

Your Stand on the Issue Support

### Comments

I am a resident of Pinellas county and a parent. I support requiring face masks for all public indoor spaces. I was so happy to see a mom with four young children last week buying a Father's Day present, all wearing the masks. They were proud to show me the patterns they had picked out for Nana to see. If 3-6 year old kids can do it, we all can. We need to work together to reduce the spread of this dangerous disease.

Topic	Emergency Ordinance requiring face coverings.
BCC Agenda Date	6-23-2020
Your Stand on the Issue	Support
Comments	I am in favor of requiring masks to be worn in any indoor establishment. As someone with multiple underlying health conditions, I do not feel safe going to most places of business as it appears that less than 50% of customers and employees are wearing masks or even practicing social distancing. The effectiveness of masks and social distancing will only be effective if the compliance rate is high.

Topic Face Mask

BCC Agenda Date 6-23-2020

Your Stand on the Issue Oppose

Comments I oppose the government mandating any further restrictions on citizens, including imposing a requirement to wear face mask. People will wear facemask that aren't approved to prevent any contagions. Most will reuse mask, defeating the purpose entirely for the individual. Imposing on individual freedoms of citizens is not what our Country does. Caving to pressure seems to be the response we have become accustomed to from our leaders. Mask pose more harm to those with asthma. In addition, we are putting further burden on our Police departments to enforce this ordinance. We don't mandate this during flu season.

Topic	COVID-19 Safety (Mask/shield) requirement
BCC Agenda Date	6-23-2020
Your Stand on the Issue	Support
Comments	I am in BROAD and COMPLETE support of requiring citizens to use "source control" mechanisms to protect other members of the general public. I am concerned that too much emphasis is being placed on MASKS, which can be problematic for citizens with existing respiratory issues. I ask that clear FACE SHIELDS be included in any requirement as an acceptable option to a mask.

Topic	Emergency Ordinance Requiring Face Coverings
BCC Agenda Date	
Your Stand on the Issue	Oppose
Comments	Mandating face coverings is an infringement on our constitutional rights and our freedom to choose what is in the best interest individually and for our family's health. There is significant evidence that masks are harmful, especially those with underlying health and/or psychological diagnoses. Please do what's right by your people and allow them to make their own choice. Do not mandate! Thank you for your time and consideration in regards to this important matter; providing a voice to the people is of the utmost importance.

Topic	Mandatory Wearing of Masks
BCC Agenda Date	6-23-2020
Your Stand on the Issue	Oppose
Comments	Science confirms Healthy People should not wear masks. Masks reduce intake of oxygen, leading to carbon dioxide toxicity. Germs are trapped near your mouth and nose while wearing a mask which increases the risk of infection. Wearing a mask actually causes you to touch your face more often and there is no scientific evidence that support healthy people wearing masks. I am an American with basic freedoms and rights and should not be ordered to wear anything especially if it is harmful to me and my kids. I am a responsible caring citizen and will go out of my way to protect others, especially high risk people but should not have my freedom of choice taken away from me.

Topic	Masks
BCC Agenda Date	6-23-2020
Your Stand on the Issue	Oppose
Comments	I oppose the unconstitutional mandate of face coverings in public/ private establishments. Wearing face coverings weakens the immune system by lowering atmospheric oxygen and increasing breathing of recycled carbon dioxide. Also, it promotes a sense of fear of viruses that is scientifically unfounded. In 99.74% of cases, COVID 19 presents itself akin to a cold/flu and is fully recovered. There is proof from recent federal investigation that the tests have been contaminated and result in 80% false positive results. The mandating of facial coverings infringes on our constitutional right to bodily autonomy.

Topic Mask Mandate Yes

BCC Agenda Date 6-23-2020

Your Stand on the Issue Support

Comments

Dear Commissioners, Please vote to make masks mandatory indoors, when unable to social distance outside, and enforce business occupancy regulations. My family would like to look forward to being able to go into stores, indoor/outdoor restaurants, and more, knowing that we are somewhat protected. Those premature openings that didn't follow the guidelines have only prolonged this crisis and accelerated it because sadly most people only care about themselves. I own a business and I understand the desire to reopen but without any preventative measures employees will only become sick and will not be able to work even longer. Not to mention the danger of asymptomatic people infecting others and this increase in community spread and surges. Masks are not fun but it's not too much to ask to protect our community and shortening this crisis. Thank you, Jana Wiggins

Topic	Mandatory Face Masks
BCC Agenda Date	6-23-2020
Your Stand on the Issue	Support
Comments	Because we are in a public health crises affecting every person, I agree with the mandatory requirement of face masks. It is a simple requirement that all people should be doing anyway for the health of our community. And, people who do not want to wear one can choose to stay home. Thanks!

Topic Face Coverings Emergency Ordinance

BCC Agenda Date 6-23-2020

Your Stand on the Issue Support

Comments I encourage the county board of commissioners to vote in favor of an emergency order requiring face coverings be worn in all indoor public spaces where social distancing is not possible. Please vote to protect your citizens by considering the advise of medical professionals and the scientific community. The potential displeasure of a subset of your constituency should not guide policy decisions aimed at protection of the larger population.

Comments  
Hello and thank you for the opportunity to comment. I am a Pinellas County resident and have been since 2005. I have a degree in Health Sciences, with many of my studies revolving around the incredibly wonderful and beautifully complex human immune system. I have many concerns regarding mandatory face masks. As stated, I have done many studies on the human immune system. I do not believe that it is healthy, nor advantageous for individuals to wear face masks. When a mask is worn, instead of breathing in fresh clean air full of oxygen, the mask is diminishing oxygen intake and replacing it with the respiratory waste product carbon dioxide. By subtly decreasing their oxygen levels in this manner they are being deprived of the most powerful healing agent for respiratory diseases — Molecular oxygen (O<sub>2</sub>). Furthermore, even a slight increase of the carbon dioxide levels in their bloodstream can contribute to anxiety and feelings of nervousness as well as cause headaches, dizziness, nausea, and fatigue. For these reasons, I strongly advise against healthy individuals wearing face masks. I am not opposed to symptomatic individuals or individuals with compromised immune systems wearing face masks. I also believe that it is unconstitutional to MANDATE masks. There is no law that suggests that healthy individuals should be required by law to wear face masks.

Topic	Face Masks
BCC Agenda Date	6-23-2020
Your Stand on the Issue	Support
Comments	I 100% support requiring face masks/and OR shields in indoor public areas, to include all stores, shops, restaurants, doctors offices, bars, salons, etc. If we can tell people they have to wear seat belts that protect and save their own lives, why can't we ask them to wear masks that will protect their own lives as well as others. Without sensible requirements like wearing masks, we will hurt businesses and the economy in the long run in addition to endangering the health and lives of all our residents. The virus is not going away on its own and cases are increasing at an alarming rate in Pinellas county. Our residents need sensible rules and guidelines to follow to keep everyone safe before it gets too late.

Topic Mandatory wearing of masks

BCC Agenda Date 6-23-2020

Your Stand on the Issue Oppose

Comments I do not support in any way the mandate of wearing a mask in all places in Pinellas County. The science does not support the best practice of wearing a mask for prevention and no where is it mention that the hospitals/emergency systems are overwhelmed, in fact it is the opposite. Restauranters will not be able to handle this rulling and it will have a great financial impact to the economy. Do not pass this item!!!!

Comments  
It is time to get back to normal. The vast majority of folks that contract this virus recover just fine. Those that are at a high risk of complications are aware of their risks and are taking measures to protect themselves. We are not at risk of overwhelming our hospitals anymore. Mandating masks now makes no sense. Also, how can someone who is healthy, and partaking in physical exercise at a local gym or fitness studio be compelled to wear a mask while exercising? Please think long and hard before voting to implement this mandate. Be free thinkers instead of just following the crowd of panicked sheep.

Topic	Requiring Masks in Pinellas County
BCC Agenda Date	6-23-2020
Your Stand on the Issue	Oppose
Comments	In the Staff report, the Fiscal Impact has not even been considered or addressed. The rise in cases is because of the rise in testing. This is common sense, which is now mis-named as it is no longer common. The hospitals are NOT overwhelmed because of the rise in cases, and treatments are now available for those afflicted. Therefore, the REQUIREMENT for masks is unnecessary, and a burden on policing, citizens, and businesses.

Topic	Face Masks
BCC Agenda Date	6-23-2020
Your Stand on the Issue	Oppose
Comments	Liberty is the state of being free within society from oppressive restrictions imposed by authority on one's way of life, behavior, or political views. The mandatory requirement of face masks and coverings has been used by governments for years as a way to oppress its citizens. This is the same. Additionally, it goes against Florida Statute 876.12, which makes it ILLEGAL to wear any mask in public.

Comments	The proposed orders are overly vague and do not define "person." There are references to CDC guidelines, but no mention of children or of the CDC guidelines AGAINST children wearing masks. There are also many published articles against children wearing masks. Not all parents are able to go to the grocery or drug store without their child

Topic Required masks

BCC Agenda Date 6-23-2020

Your Stand on the Issue Oppose

Comments

Mandatory masks are not feasible, nor enforceable. Opens up the county to lawsuits and litigation. "Copied from an OSHA certified gentleman: So Masks? I am OSHA 10&30 certified. I know some of you are too. I don't really know WHY OSHA hasn't come forward and stopped the nonsense BUT • N95 masks and masks with exhale ports • surgical masks • filter or cloth masks . • N95 masks: are designed for CONTAMINATED environments. That means when you exhale through N95 the design is that you are exhaling into contamination. The exhale from N95 masks are vented to breath straight out without filtration. They don't filter the air on the way out. They don't need to. Conclusion: if you're in Stewart's and the guy with Covid has N95 mask his covid breath is unfiltered being exhaled into Stewart's (because it was designed for already contaminated environments, it's not filtering your air on the way out) . • Surgical Mask: these masks were designed and approved for STERILE environments. The amount of particles and contaminants in the outside and indoor environments where people are CLOGG these masks very Very quickly. The moisture from your breath combined with the clogged mask with render it "useless" IF you come in contact with Covid and your mask traps it You become a walking virus dispenser. Everytime you put your mask on you are breathing the germs from EVERYWHERE you went. They should be changed or thrown out every "20-30 minutes in a non sterile environment" . Cloth masks: today three people pointed to their masks as the walked by me entering Lowe's. They said "ya gotta wear your mask BRO" I said very clearly "those masks don't work bro, in fact they MAKE you sicker" the "pshh'd" me. . By now hopefully you all know CLOTH masks do not filter anything. . You mean the American flag one my aunt made? Yes. The one with sunflowers that looks so cute? Yes. The bandanna, the cut up t-shirt, the scarf . ALL of them offer NO FILTERING whatsoever. As you exhale you are ridding

your lungs of contaminants and carbon dioxide. . Cloth masks trap this carbon dioxide the best!!!! It actually risks health. !!!!! The moisture caught in these masks can become mildew ridden over night. Dry coughing, enhanced allergies, sore throat are all symptoms of a micro-mold in your mask. . Ultimate Answer: N95 blows the virus into the air from a contaminated person. . The surgical mask is not designed for the outside world and will not filter the virus upon inhaling through it. It's filtration works on the exhale. (Like a vacuum bag it only works one way) . Cloth masks worse!

Topic Business Employees Wearing Masks

BCC Agenda Date 6-23-2020

Your Stand on the Issue Support

Comments  
When the state opened up at 25% a bakery in Palm Harbor was featured in a news segment showing the employees wearing masks. After the story aired the masks came off. Now that bakery is closed due to employee having covid 19. How many people were infected? The reason for them to wear a mask is to protect the public from them. It does not make sense to not wear the mask, now the business is closed for days and no income coming in, they cannot even due to go orders. Please pass that employees must wear masks I know of several other business closing because of the same situation. Let's break the circle of rising numbers.  
Thank you

Topic Mandatory Facemasks

BCC Agenda Date 6-23-2020

Your Stand on the Issue Oppose

Comments

Hello commissioners, No doubt you have received messages from or directly spoken with passionate citizens on either side of the discussion of face masks and their merits. There are studies suggesting that wearing them in public may help slow the spread of Covid-19, and others that are uncertain or disqualify it. I'm just an ordinary citizen. In the scope of the vote coming this afternoon, I'm a no one. But if I may share my humble opinion, perhaps you could entertain me for a moment. While many have elected to wear their face masks in public, I have personally witnessed countless times of improper wearing (nose revealed) and improper handling (constantly touching their mask thus potentially spreading anything they may have from their hands), both of which totally negate what the face mask is actually doing. I have zero issue with those who wish to wear a face mask if it makes them feel safer but making it mandatory and punishable by a fine is extreme. N95 masks only filter what is coming into the mask, not what is going out. Surgical masks only prevent what is coming out of the mask, not what is coming in. Bandanas (or similar coverings) may catch large droplets, but they don't stop much else. We simply do not have enough equipment nor public training to equip all in the community properly. Some ask, "What's the big deal in wearing a mask?" It is a small act, but one that doesn't add up to making much of a difference. In a bubble, maybe it could affect a tiny percent of those infected. Overall, though, it won't make a difference as long as individuals practice improper use of PPE, and don't even wash their hands when they should. I instead ask, with as many people wearing masks, and if they made such a difference in prevention, why make it forced? Thousands of people die every single day. Every death is tragic and is likely someone that will be mourned and missed. We cannot allow ourselves to miss the obvious and make a move because some in our community are gripped by fear. Please, I urge you to consider what is really at stake

here. We are weighing between individual freedom (the right to choose to wear a mask) and forcing the entire community to comply. Let us make the choice. Many are already doing so. Thank you if you took the time to read this far. God bless, Rich

Topic Mandatory face mask order  
BCC Agenda Date 6-23-2020  
Your Stand on the Issue Oppose

Dear Commissioner My name is Ruth Rymal and I am a 20 year resident of Pinellas County, living in Clearwater. I write you today to let you know my thoughts on a county-wide policy for wearing masks in public. I oppose any plan which treats the entire county as a homogeneous, uniform environment. When the stay-at-home order was put in place the intention was to prevent a system-breaking demand on the healthcare system. That potential crisis was averted. During that same period of time tests to detect infection/exposure were created. With increased testing and modified resumption of interpersonal interactions the infection numbers have risen - as we were told to expect. My opposition is based on the following data and not simply my opinion. 1) More than 70% of fatalities in Pinellas are isolated to care facilities. That is were the lion-share of efforts and directives should be focused. Address the issues of negligence, under-staffing, under-funding or whatever the problems are. 2) the initial model was what precipitated the stay home order. Now that actual figures are available we can see that the fatality rate is far, far less than initially anticipated. Wholesale mask wearing will not effect the morbidity rate. 3) "Wearing an earloop mask does not reduce the risk of contracting any disease or infection." It says so right on the box. Most people will be operating with a false sense of security and make health-risking mistakes because they'll think they're in compliance but they won't know they're not safe. 4) A one-size-fits-all protocol is woefully ineffective and will not produce desired outcomes. 5) A vaccine is too far off to wait for so "herd immunity" is what the world will have to shoot for. In spite of it's high mortality rate the Influenza of 1918 disappeared in less than 18 months. We no longer worry about catching Spanish Flu and one day we will no longer worry about catching COVID19. 6) Dr. Michael Osterholm, the director of the Center for Infectious Disease Research and Prevention recently said, "About 5% of the US population has been infected

Comments

to date with the virus, this virus is not going to rest until it gets to about 60% or 70%," Osterholm said. "When I say rest, I mean just slow down, so one way or another we're going to see a lot of additional cases." 7) The cure is worse than the problem. Hospitals are reporting serious drop offs in the number of cancer, cardiac and other deadly and significant health issues. If we continue to frighten our elderly and sick from seeking medical assistance for fear of getting COVID19 at the place of treatment we could lose many more family and neighbors than we're trying to prevent from getting the virus. 8) Sheriff Gaultieri has stated he won't arrest anyone in violation of this possible order, so I'm assuming the punitive threat will be a fine so large as to financially destroy many households. (Tampa has set their fine at \$500.) We've heard for many years that most households cannot come up with \$400 for an emergency. How will people not returning to work or behind on their bills or facing another stay at home order come up with that kind of money? And if they can't pay, which liberties are you considering taking from them until they do pay? 9) How are people expected to stay healthy through exercise if required to wear a mask outdoors? It is unreasonable to mandate a mask in an open air environment. there is neither scientific nor anecdotal evidence that walking/running/cycling is a high risk or high density transmission environment - for example Ream Wilson or Pinellas Trail. 10) OSHA regulations require oxygen concentration in confined spaces of not less than 19.5% (OSHA Standard 1910.146(f)). Many of today's masks can restrict/reduce airflow to this range. Lack of oxygen (hypoxia) is dangerous to health and impairs thought and decision making functions. 11) Businesses along the beaches, restaurants and other places are just getting reopened. Mandatory mask usage will probably have a significant impact on their ability to stay open as people decide it's easier to stay home and order-in or shop Amazon rather than locally. This is not a hurricane or a super storm. We can't shelter in place, waiting for it to pass by. Please do not apply the wrong solutions to this problem. We cannot hide from a virus. Thank you for your thoughtful consideration. Sincerely,

Your Stand on the Issue Oppose

Comments

As an oncology RN for 25 years, who has educated people with no immune system, I am opposed to mandating healthy, asymptomatic, general population to wear face masks. The intent of facemasks has not changed. Cloth masks are ineffective. I for one, am forced to wear a mask when I work at Moffitt and suffer greatly from the masks. By the end of my shift I can not even talk from throat irritation. Your tasked with protecting the freedom of those you serve. The public should be educated on the truly high risk actions for transmission. Stay home when sick, wash your hands, don't touch your mouth or nose. Our culture is changing and it is not for the good.

### Comments

\*\*\* PUBLIC COMMENT FOR THE MEETING\*\*\* I'm appalled at the number of people that are noncompliant as well as, people stating this interferes with their 1st amendment rights. They need reminded their rights end when their action cause a greater risk & impeding harm to others. I have a beloved family member that is immuno-compromised and has been 95% self-quarantined since March and with this 2nd spike of positive cases, for her own protection, we may not be able to see her until next year! This is also very alarming as Pinellas County School's are gearing up to return to the classrooms in the next 4 weeks. The kids maybe very resilient, but what about their family members that are more vulnerable? If voted to mandatory to wear facial coverings in public, I have a huge concern with the effectiveness of the mandate when the sheriff boldly states his department will not be enforcing the mandate should it pass the vote of the county commissioners. I've been a staunch supporter of Sheriff Gualtiere's for the past 12 years, but I think the county commissioners need to remind him he is an elected official and enforcing a mandate isn't an option for his department, it's a duty and obligation. Thank you for this opportunity to be heard.

Comments  
Counter-argument to the HCA recommendation letter submitted. (Tampa Times article) "Hospitals across the region have already added to their staffing levels because it's peak flu season, said Dr. Larry Feinman, the chief medical officer with HCA's West Florida division. HCA operates eight hospitals in the area, including St. Petersburg General Hospital and the Medical Center of Trinity. "I am sure we will be impacted by the coronavirus in the U.S.," Feinman said. "But there are far more lethal diseases out there. It may be more dangerous than the flu, but it is much less lethal than previous epidemics we've experienced before like ebola, SARS or MERS." HCA said it is prepared for any mass public health threat, and will reply on its national network to deploy more resources and staff to areas that may be more affected, Feinman said."

Topic Facemask ordinance

BCC Agenda Date 6-23-2020

Your Stand on the Issue Oppose

To County Commissioners / Public Health Officials: A public health director is a person "responsible" for the overall management of public health care programs and organizations. "ACCOUNTABILITY" refers to the principle that individuals, organizations, and the community are responsible for these actions and may be required to explain them to others. Dr. Choe's quote in Tampa Times: "As a physician, you treat one patient at a time, in public health you have the opportunity to treat the whole community". "If you have that kind of a tie to the area, to the community, it makes a world of difference - especially in the world of public health where you are trying to improve the health of the community". Seeing the 'SUDDEN RISE' in cases, after a successful flattening of the curve by the residents of Pinellas County as we followed the County's guidance, one can't help but wonder why 'anyone' in our County Government has not been held accountable if this is an issue? Opposed to creating "new laws"! If it comes down to making new laws, "someone" failed! Put simply, accountability is about taking responsibility for your actions always ensuring you are competent to do the activity you are being asked to perform. Public Health agencies are supposed to be held accountable directly from boards and executives and indirectly by the communities they serve. Public Health directors are supposed to be stewards of community overall health while being held accountable by performance measures and reporting. Performance standards have been facilitated by the very CDC by which our experts have recommended we follow. To the ordinance, an order such as this would violate the "EQUAL PROTECTION CLAUSE" by mandating that all person's must wear masks, disproportionately affecting residents of the County and those that cannot wear masks for legitimate medical or other reasons (like 100 degree heat, CO2 levels, etc). Those without masks cannot exercise fundamental constitutional rights - including leaving their

Comments

home for "essential" goods and services (like grocery stores) while affluent individuals may be able to comply. Also, nothing is stopping those who want to wear a mask - their freedom allows them to do so! While many folks will have to purchase masks by not already having suitable masks, some are unable to afford them, the County would need to have provisions in place to 'FUND' the purchase of the applicable masks for those who cannot afford them. This ordinance fails to provide this, therefore one cannot rest the exercise of fundamental rights on people's ability to afford those rights. If you do not 'intend' or 'expect' law enforcement to impose citations and fines for violations, as was stated at last board meeting - WHY CREATE/VOTE FOR/ENACT an ordinance or a new law? POLITICIZING a public health and safety crisis is the WORST outcome imaginable for the long term health and safety of any community! "Leaders" or "elected officials" should continue to strongly urge or recommend everyone to continue taking this seriously, however, an ABUSE OF EXECUTIVE ORDERS or ORDINANCES is the ultimate Government overreach! These kind of confusing Government policies fuel public anger. This "required mask" law has been enacted and redacted in many other areas of the country. Since, many of these emergency orders have been lifted due to violence in local communities. This "ORDINANCE" WILL lead to verbal abuse and possibly violence towards businesses and their employees! YOU will be responsible for that!!! A Houston judge ruled the following after overturning a county ORDINANCE: "It is important that elected officials uphold their oaths to defend the Constitution and ensure individual freedoms remain in tact DURING and AFTER this pandemic"! IF THIS IS PASSED, PINELLAS COUNTY RESIDENTS NEED TO HOLD FOLKS ACCOUNTABLE. VOTE "NO" TO THE "required" ORDINANCE! Thanks for your time!

Comments I really am scared for Pinellas to pass that you will be required to wear a mask in public. I think it is our choice as a American citizen to wear or not wear a mask in public. I was wearing my mask in all places until I ended up with a full blown painc attack, thinking I was having a heart attack. I couldn't breath then passed out.

Topic	Emergency Ordinance requiring face coverings
BCC Agenda Date	6-23-2020
Your Stand on the Issue	Support
Comments	We need consistent and effective leadership with a measure requiring masks be worn by all people indoors outside of their homes, as well as in crowded outdoor conditions. We can resume a lot of activities and keep the economy going, by using face masks in all public situations. Please don't let us continue our trajectory of new Covid 19 cases, overwhelming our hospitals and putting everyone at increased risk! I know it's possible to get more people on board, with consistent information and consistent rules throughout the county, and Tampa Bay area.

Topic	Covid 19 Masks
BCC Agenda Date	6-23-2020
Your Stand on the Issue	Support
Comments	Please institute the requirement that wearing masks should be mandated for patrons and staff and indoor establishments (stores, restaurants, hair salon, etc) in Pinellas County. We must act to protect others and ourselves, especially with the number infected raising. We are stronger together. I spend a majority my time in Pinellas shopping, eating and going to church. I have been staying away because of how many people are not wearing masks and fear of health issues.

BCC Agenda Date	6-23-2020
Your Stand on the Issue	Support
Comments	With steeply rising COVID-19 numbers locally, county leaders have only two responsible options: 1) revert to strict social distance and closures, or 2) require citizens to wear face coverings when indoors in public places. The threat of a civil fine should work to greatly increase mask wearing. As the pastor a church on Clearwater Beach, I am seeing gross negligence of safety measures during a pandemic. A simple mask ordinance may very well save lives. Thank you!

Topic Mandatory Masks

BCC Agenda Date 6-22-2020

Your Stand on the Issue Oppose

Comments I do not support mandatory masks in Pinellas County. I do not think it is healthy to wear masks for a prolonged period of time, and to continuously breathe in your own CO2. I personally have chronic asthma since birth, and I cannot wear a mask as it is difficult to breathe. I support social distancing and proper sanitation and hygiene, but the human body needs adequate oxygen to remain in a healthy state.

Topic Public Comment/Local State of Emergency

BCC Agenda Date 6-23-2020

Your Stand on the Issue Support

Comments

As part of the extended Local State of Emergency, the Commission should require face masks or coverings to be worn in all public spaces for the duration of the State of Emergency. Requiring the use of face masks for all able can aid in reducing the spread of COVID-19. This will help in keeping our workers and our most vulnerable healthy and preventing our hospitals and healthcare centers from becoming dangerously overwhelmed. While decisions to mandate face masks are being made by local mayors, my family and the over 200,000 other residents living in unincorporated Pinellas look to our County Commission to make practical decisions that will positively impact the health of our communities.

200 people in pinellas and Hillsborough have supposedly died for corona in 6 months. This is no longer a matter of health and safety. This is abuse of power and fear mongering. The mayor says lest follow science and the facts. Well the facts are this virus isn't deadly and there is no reason to continually erode our freedoms. 200 people in 6 months in the scheme of things is nothing. That's from the Florida state website. That's the number that die from snake bites and bad oysters. Stop the oppression before it can go any further. Mask and face coverings do not do anything. This has been argued by the CDC and the WHO. You should allow Americans the right to be free. If people want to wear a mask let them but don't force them.

Topic Emergency Ordinance requiring face coverings

BCC Agenda Date 6-23-2020

Your Stand on the Issue Oppose

I have been extremely disappointed in the ineffective handling of measures within this County to date this year. The best I can say is at least we're a lot better off than those in Michigan or Seattle? Wow. This country was doing great, than a flu came. Bad. Politicians drunk with power then acted. Much worse. Now you are FORCING people to wear masks? Unbelievable. Constitution? What's that? The science of masks in prevention is virtually non-existent. I have to laugh at this counterfeit, phony pretense of concern. Most voters don't have a clue who their county commissioners are or care, including myself until now. The more you stay out of the way normally the better. But I believe the new found 'power' legislators are drunk with this year thanks to this flu, will be their undoing at the voting booth. Never have I been so disgusted with the incompetency of politicians in this country. Masks will protect looters and rioters from being identified much more so than catching this flu. This emergency agenda will affect my vote Guaranteed. It is also making average citizens like myself much more aware of what are local politicians are up to. I have had enough of these emergency overreactions. The cures have been much more damaging than the flu. That is clear. Navigating your agendas seems difficult probably for good reason. Hidden agendas.
