V-TOP SURGERY TABLE/ ADJUSTABLE HYDRAULIC 50" and 60"

The hydraulic V-Top surgery table offers hands-free height adjustment. Pump foot pedal to raise, depress the pedal to lower. The full 6" range is 32 1/2" to 39 1/2". The tabletop tilts from level to 37° via single finger-tip control, no knobs to loosen or tighten are needed. A one-hand, finger-tip control adjusts side panels from flat to 95° "V" via smooth operating pneumatic cylinders. The tabletop and V-panels are counterbalanced for easier positioning of the patient. The table comes with a reservoir drainage system and the center drain trough slides out for easy cleaning. Optional heated top available
