Description & Comments

(What is it, any issues found, is there a financial impact to current/next FY, does this contract vary from previous FY, etc.)

This agreement awards Waste Management Inc. of Florida the contract to provide residential waste collection and disposal services within the Lealman Solid Waste Collection and Disposal District beginning January 1, 2027, for an initial five-year term with up to five one-year renewal options. The contract covers approximately 7,900 residential units and requires twice-weekly residential waste collection, yard waste and bulky waste collection, customer service standards, reporting requirements, and disposal at the Pinellas County Solid Waste Disposal Complex.

The agreement establishes a not-to-exceed contract value of \$11.75 million over the initial term, includes annual rate adjustment provisions tied to tipping fees, CPI, and fuel prices, and requires the contractor to maintain local operations, performance security, insurance coverage, and service quality standards. It also provides for optional subscription-based curbside recycling services that are billed directly to participating residents by the contractor.

This contract is budgeted in the FY27 Proposed Budget of the Lealman Solid Waste Department, in the Lealman Solid Waste and Collection Fund in the amount of \$2,110,800.00.
