FUTURE LAND USE ELEMENT

Goal One: Provide a variety of land use character areas to meet the needs of a diverse population and support thriving, resilient, quality communities.

Objective 1.2: Maintain a Land Development Code that responds to the unique challenges of infill and (re)development within Unincorporated Pinellas County.

Staff Report/Recommendation:

“This land use amendment would support the companion DMP amendment that would allow for the property to be redeveloped with a commercial use different than a bank. In general, **the proposal is compatible with the surrounding uses and is consistent with the Pinellas County Comprehensive Plan**”.

“The location of proposed commercial use(s) is also in keeping with historical RPD development patterns within Pinellas County”.
