Finally got our allotment for the DNA CEBR grant. It has a crazy fast turn around since we were waiting so long for FDLE. Can you get it started in our system? We need it loaded into grants.gov by July 7 and I will need the Certifications all signed for a package upload date of July 12 (If I could get it a day or 2 before July 12th I would be thankful).

Here is the link to the application

The funding allocation is below.

Happy Monday!
