Facts About Flooding

- Flooding can be caused by heavy rains as well as by tropical storms and hurricanes.
- Flooding occurs in and out of designated flood zones.
- The force of moving water can destroy a building.
- Even slow-moving floodwaters can knock people off their feet or float a car.
- Floodwaters carry mud, chemicals, road oil, bacteria and viruses that cause health hazards.

Did You Know?

- Houses that are considered substantially damaged (50% or more of its market value) by fire, flood or other causes must be elevated above the flood level when they are repaired.
- Construction and development in identified floodplains is regulated throughout Pinellas County to ensure buildings are protected from flood damage.
- New buildings and additions must be elevated above flood levels.
- You can check on Special Flood Hazard in your neighborhood by visiting the County Flood Map Service Center at pinellascounty.org/flooding/maps.

Anywhere it Rains, it Can Flood.
Contacting a local insurance agent or lender for details is suggested. Be aware that there is a 30-day waiting period before coverage goes into effect – so don't delay.
