DEFINITION OF MARKET VALUE:

The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

(Source: (12 C.F.R. Part 34.42(g); 55 Federal Register 34696, August 24, 1990, as amended at 57 Federal Register 12202, April 9, 1992; 59 Federal Register 29499, June 7, 1994)

The market value of the property appraised in this report is estimated as of the effective date stated in the appraisal report. Constantly changing economic conditions have varying effects upon real property values. Even after the passage of a relatively short period, property values may change substantially and require a review of the appraisal and recertification.

STATEMENT OF LIMITING CONDITIONS AND CERTIFICATION

ASSUMPTIONS AND LIMITING CONDITIONS:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The legal description stated in this report is assumed to be correct. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title.
- 2. Any sketch provided in the appraisal report may show approximate dimensions of the improvements and is included only to assist the reader of the report in visualizing the property. The appraiser has made no survey of the property.
- 3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 4. Any distribution of valuation between land and improvements in the report applies only under the existing program of utilization. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.
- 5. The appraiser made a limited visual inspection of the subject property. The appraisal does not constitute an inspection for compliance with building, fire, zoning or ADA requirements. The appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous waste, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. This appraisal report must not be considered an environmental assessment of the subject property.
- 6. It is assumed that the property is in full compliance with all federal, state and local laws and regulations, unless noncompliance is stated, defined and considered in the appraisal report. It is also assumed that any licenses, consents or other administrative approvals, required for the operation of the property, have been or can be obtained and renewed for any use on which the value estimate is based.
- 7. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties. Should the user of this report be aware or become aware of conditions that would materially alter the conclusions of this report, the user agrees to immediately notify the appraiser. The appraiser reserves the right to modify the report to consider such conditions.
- 8. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
- 9. The property is valued on the basis of it being under responsible ownership and competent management.
- 10. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
- 11. This appraisal has been prepared solely for the private use of the intended users who are listed in the report, for the use intended. No other party is entitled to rely on the information, conclusions or opinions contained herein, without written consent of the appraiser. The appraiser is not responsible for the unauthorized use of this report. The appraiser must provide his or her prior written consent before the client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the intended users.
- 12. Neither all nor any part of the contents of this report shall be conveyed to the public through advertising, public relations, news, sales or other media without the written consent and approval of the author, particularly as to the valuation conclusions, the identity of the appraiser or firm with which he is connected, or any reference to the Appraisal Institute, or the MAI designation.
- 13. Acceptance and/or use of this appraisal report constitutes acceptance of the data, analysis, assumptions and limiting conditions contained herein.

File No. 19046855

EXTRAORDINARY ASSUMPTIONS AND/OR HYPOTHETICAL CONDITIONS:

The inspection of the subject property was limited to the front exterior of the house and the property is assumed to be as described in the report.

CERTIFICATION:

The appraiser certifies and agrees that, to the best of my knowledge and belief:

- 1. The statements of fact contained in this report are true and correct.
- 2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- 3. Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- 4. Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- 5. I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- 6. My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- 7. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- 8. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared, and (for Appraisal Institute Members) the requirements of the Code of Professional Ethics and the Standards of Professional Practice of the Appraisal Institute.
- 9. Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- 10. Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

ADDITIONAL CERTIFICATIONS OF APPRAISAL INSTITUTE MEMBERS:

- 11. The reported analysis, opinions and conclusions were developed, and this report has been prepared, in conformity with the requirements of the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute.
- 12. The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
- 13. As of the date of this report, William W Atkinson has completed the continuing education program for Designated Members of the Appraisal Institute.

ADDENDUM A - SUPPLEMENTAL INFORMATION:

PURPOSE OF THE APPRAISAL: The purpose of this appraisal is to estimate the market value of the subject property as defined herein.

INTENDED USE OF THE APPRAISAL: The intended use of this appraisal is to estimate market value for possible purchase.

INTENDED USERS OF THE APPRAISAL: This appraisal was prepared for the sole use of Pinellas County, Real Estate Management for the intended use stated. Any use of this appraisal by a third party, for any purpose, is expressly prohibited. The appraiser is not responsible for the unauthorized use of this report.

SCOPE OF THE APPRAISAL: The appraisal is based on research of the subject property, neighborhood and comparable sales from various data sources; a cursory physical inspection of the subject property for valuation purposes; information gathered from public and/or private records, published data and/or sources involved in the sale transactions. The appraiser has used sources that are deemed to be reliable. Such information is assumed to be correct, however, we do not warrant its accuracy. This information is presented utilizing relevant appraisal approaches and techniques to form an opinion of value.

HIGHEST AND BEST USE: Highest and Best Use is defined as "that reasonable and probable use that supports the highest present value, as defined, as of the effective date of the appraisal." In analyzing highest and best use, the appraiser takes into consideration those uses that are physically possible, legally permissible, financially feasible and maximally productive. The appraiser's opinion of highest and best use indicated in this report considers the above factors in terms of the characteristics of the subject in comparison to its market area.

FLOOD ZONE INFORMATION: The flood zone information indicated in this report does not directly address the question of whether or not flood insurance is required. The information given in this report refers to the location (or not) of the subject in a HUD Identified Special Flood Hazard Area. The information shown on the report is derived from Flood Insurance Rate Maps (FIRM) issued by the National Flood Insurance Program of the Federal Emergency Management Agency. Occasionally a property will lie on or near a flood zone boundary line and it may be difficult to determine the zone or zones indicated. In such instances the appraisal report will indicate the most hazardous zone. Final determination of flood zone should be verified by survey or Flood Elevation Certification.

COST DATA SOURCES: The cost estimates used in the cost approach (if applicable) were derived from Marshall & Swift, Residential Cost Handbook, a nationally recognized cost estimating service. When available, these estimates have been confirmed by actual cost estimates of similar structures. These estimates are derived from average costs over a broad range of building types and may vary from specific cost estimates by individual contractors. The costs are intended to reflect the value of the subject property relative to similar properties in the market area. They are not intended to reflect the actual replacement or reproduction cost of the structure(s).

CONDITION OF COMPONENTS: The appraisal form used in this appraisal calls for opinions of condition of certain components of the subject improvements including, but not limited to, structural components, appliances, heating/cooling systems, surfaces, electrical, mechanical or plumbing systems. The appraiser is not an expert in the assessment of these items and makes not warrantee as to their adequacy, functionality or longevity. The conditions indicated in this report are based on reasonable expectations as to the adequacy and are dictated by neighborhood standards relative to marketability. These observations do not constitute certifications. If a certification is required, properly licensed or legally qualified individuals should be consulted.

ENVIRONMENTAL HAZARDS: The value estimated is based on the assumption that the property is not negatively affected by the existence of hazardous substances or detrimental environmental conditions unless otherwise stated in this report. The appraiser is not an expert in the identification of hazardous substances or detrimental environmental conditions. The appraiser's routine inspection of and inquiries about the subject property did not develop any information that would indicate to the appraiser any apparent significant hazardous substances or detrimental environmental conditions which would affect the property negatively, unless otherwise stated in this report. It is possible that tests and inspections made by a qualified hazardous substance or environmental expert would reveal the existence of hazardous substances or detrimental environmental conditions on or around the property that would negatively affect its value.

DIGITAL SIGNATURES: In instances were the report has been signed by electronic digital signatures, the signature is considered a true and legal signature of the appraiser, in accordance with applicable state and federal laws and regulations. We have take steps to assure that the use of the signatures is secure and they are appropriately affixed to the appraisal by the appraiser.

EXPOSURE TIME: Estimated exposure time for the subject is 3 months based on discussions with realtors and typical days on market for sales in the area.

Warranty Deed

This Warranty Deed made this 3rd day of November, 2008 between Full Service Property Solutions, Inc., a Florida corporation whose post office address is 1090 Kapp Drive, Clearwater, FL 33765, grantor, and Lon J. Chaney and Deborah J. Chaney, husband and wife whose post office address is 3390 Gandy Blvd. N., Lot 361, St. Petersburg, FL 33702, grantee:

(Whenever used herein the terms "grantor" and "grantee" include all the parties to this instrument and the heirs, legal representatives, and assigns of individuals, and the successors and assigns of corporations trusts and trustees)

Witnesseth, that said grantor, for and in consideration of the sum of TEN AND NO/100 DOLLARS (\$10.00) and other good and valuable considerations to said grantor in hand paid by said grantee, the receipt whereof is hereby acknowledged, has granted, bargained, and sold to the said grantee, and grantee's heirs and assigns forever, the following described land, situate, lying and being in Pinellas County, Florida to-wit:

The South 150 feet of the East 60 feet of the West 270 feet of Block 144 and the West 60 feet of the South 130 feet of the East 120 feet of the West 270 feet of Block 144, TOWN OF SUTHERLAND, according to the map or plat thereof as recorded in Hillsborough County Florida, on March 29, 1988; of which county Pinellas County was formerly a part.

Together with the West 1/2 of the vacated South 150.00 feet of Jefferson Street lying North of the Northerly right of way line of Virginia Avenue, Block 144, Town of Sutherland, according to a map or plat thereof, Public Records of Hillsborough County, Florida; of which Pinellas was formerly a part.

Parcel Identification Number: 01/28/15/88560/144/0011

Together with all the tenements, hereditaments and appurtenances thereto belonging or in anywise appertaining.

To Have and to Hold, the same in fee simple forever.

And the grantor hereby covenants with said grantee that the grantor is lawfully seized of said land in fee simple; that the grantor has good right and lawful authority to sell and convey said land; that the grantor hereby fully warrants the title to said land and will defend the same against the lawful claims of all persons whomsoever; and that said land is free of all encumbrances, except taxes accruing subsequent to December 31, 2007.

In Witness Whereof, grantor has hereunto set grantor's hand and seal the day and year first above written:

Signed, sealed and delivered in our presence:

Full Service Property Solutions, Inc., a Florida corporation
