

# Manufactured Housing Communities Wastewater Agreement

## Project Description

Pinellas County Utilities identified 14 manufactured housing communities with outdated and problematic wastewater systems that pose costly risks for residents. Recognizing that the cost to repair these systems would be a huge burden on residents, the County worked directly with these communities to secure state and federal funding to upgrade each system at no cost to them. While the County will own and maintain the systems permanently, homeowners will still own and maintain the sewer line, or private lateral, from the house to the cleanout once the project is complete. The project began in September 2022 and will be completed by June 2026.

## PROJECT GOALS

- Improve living conditions and preserve affordable housing
- Address failing infrastructure and improve environmental conditions
- Improve emergency conditions associated with flood-prone communities

## Funding Sources for Wastewater Systems

## Agreement Highlights

Manufactured Housing Communities will need to transfer the following to enable the County to repair or replace the systems.

- Necessary rights to the County for construction of system improvements.
- All rights, titles and interests of the wastewater infrastructure to the County.
- Easement rights and rights-to-use for dedicated rights-of-ways that are free of restrictions.

## After the Work is Done

Once the project is complete, residents should note that any new agreements that concern or affect the operation of the wastewater systems must have prior written approval of the County.

## Relief + Reinvestment

Pinellas County complies with the Americans with Disabilities Act. This project is being supported, in whole or in part, by federal award number SLFRP4653 awarded to Pinellas County Government by the U.S. Department of the Treasury.

# Utility Infrastructure Agreement

**PINELLAS COUNTY, FLORIDA**

---

**UTILITY INFRASTRUCTURE AGREEMENT**

**THIS AGREEMENT** is made and entered into by and between PINELLAS COUNTY, a political subdivision of the State of Florida, acting by and through its Board of County Commissioners, the governing body thereof, hereinafter referred to as the "COUNTY," and Midway AM/CAN Home Owners, Inc., a Florida Corporation, authorized to undertake these obligations in the State of Florida, hereinafter referred to as the "COMMUNITY".

**RECITALS:**

WHEREAS, the COMMUNITY is the owner of a sanitary sewer collection system located within the boundaries of Pinellas County, Florida; and

WHEREAS, pursuant to its governmental powers as provided in Florida law, the Pinellas County Charter, and the Pinellas County Code, the COUNTY is authorized to facilitate the adequate and efficient provision of water and sewerage facilities and to conserve, develop, utilize, and protect natural resources within its jurisdiction; and

WHEREAS, the COUNTY has applied for and been awarded funding from various granting sources including Florida State and Federally managed grant sources, that are available to support the work necessary to design and construct new infrastructure within the COMMUNITY as further defined in the Agreement and Attachments attached thereto, provided that the COUNTY will thereafter own, maintain, and operate the infrastructure as part of its sanitary sewer system; and

WHEREAS, the COMMUNITY wishes to transfer sufficient rights and interests to the COUNTY to enable the COUNTY to own, operate, and maintain a sanitary sewer collection system within the COMMUNITY and serving the various homes and facilities located therein; and

WHEREAS, the COUNTY has determined that undertaking the provision of sewer service within the COMMUNITY will benefit the COUNTY's existing infrastructure, ensure best engineering practices are utilized in the maintenance of the System, and is in the public interest; and

WHEREAS, consistent with the public interest supporting the projects described herein, the COUNTY has received grant funding to design and execute the work related to the overall project, and the COUNTY therefore intends to pursue the work contemplated by this Agreement and to construct and maintain improvements within the COMMUNITY in accordance with the expectations and goals of the United States Federal and Florida State agencies providing grant funds, upon the terms and conditions set forth herein;

NOW THEREFORE, in consideration of the above Recitals and benefits to be derived from the mutual observation of the covenants contained herein, and other good and valuable consideration the receipt and sufficiency of which are hereby acknowledged by the parties, the parties agree as follows:

SECTION 1. RECITALS: The above Recitals are true and correct and form a material part of this Agreement.

SECTION 2. CONSTRUCTION OF SYSTEM IMPROVEMENTS: The COMMUNITY agrees to transfer to the COUNTY the certain rights and property interests described below to allow the COUNTY to undertake all necessary work and to make all necessary improvements and modifications to replace, construct, and maintain a sanitary sewer system (hereinafter "System") within the COMMUNITY. The COUNTY will proceed with all necessary work to construct a replacement System in accordance with the new System design, and when the project is constructed, the COUNTY will thereafter own and maintain the newly constructed System components that are located within the perpetual Utility easement, to be conveyed by the COMMUNITY to the COUNTY when the construction of the project is complete.

SECTION 3. PROPERTY INTERESTS: The COMMUNITY will assign, transfer, convey, and deliver to the COUNTY, the real property interests necessary to construct the project in its entirety, owned or otherwise possessed by the COMMUNITY, whereupon all sewer collection lines, pumping stations, and all other sewer facilities are located, which will consist of the easement rights described in the easement attached to this

Agreement as Attachment A, which is made a material part of this Agreement and incorporated herein by reference (hereinafter "Attachment A"). These easement rights will allow the COUNTY to undertake and complete construction of the project, and will be referred to hereinafter as a Temporary Construction Easement. Thereafter, the COUNTY will notify the COMMUNITY when the project is constructed and ready to close out, at which time the COMMUNITY will execute and present to the COUNTY a perpetual Utility easement, in the form referenced in Attachment B, which is a material part of this Agreement and incorporated herein by reference, which will be recorded by the COUNTY in the public records ("Attachment B"). The COUNTY has entered into this Agreement in reliance on the understanding that the property interests conveyed to the COUNTY are sufficient to enable the COUNTY to complete the project as designed in its entirety, and thereafter to own and maintain the portions of the project that are located within the perpetual Utility easement. It is the responsibility of the COMMUNITY to ensure that it possesses all rights and property interests necessary to perfect the conveyances to the COUNTY described in this Agreement, and that it will take measures to acquire and record all such property interests.

3.1 System and Connection Records: All current lists and records, as-built surveys and plans, plats, engineering and other drawings, designs, blueprints, plans and specifications, accounting and customer records, and all other information and business records in the possession of the COMMUNITY pertaining to operation of the System, to the extent they exist and are in the care, custody and control of the COMMUNITY.

SECTION 4. INTERESTS OF FUNDING GRANTORS: The COMMUNITY agrees to execute and cooperate in the recording of conveyance of rights or interests, or other documentation, that are required by one of the COUNTY grantors contributing funds to the execution of the project, including but not limited to the recordation of a notice of federal interest, such as the notice language currently set out in the attached easement documents in Attachments A and B. Furthermore, COMMUNITY acknowledges that the availability of grant funding is a material basis for the COUNTY's ability and willingness to complete the project contemplated by this Agreement, and additionally that the expectation of the availability of the grant funds is that the completed project will be

used in a manner and for a duration that is commensurate to the realization of the objectives of the grant funding; specifically to eliminate inflow and infiltration from aging or defective sewer infrastructure and to thereby minimize the possibility of adverse environmental impacts. If the grant funding for this project becomes reduced or unavailable for any reason, the County may terminate this Agreement by promptly giving written notice to the COMMUNITY. Accordingly, in order to ensure that the value of the project design and construction is realized, the COMMUNITY agrees that: 1) no use of the property comprising the COMMUNITY necessary to the continued delivery of sanitary sewer services to the properties within the COMMUNITY will be commenced for the expected useful life, as determined by the COUNTY grantors, that would violate the restrictions stated in the notice of federal interest language included in any easement document, or that generally is adverse to the continued use of the infrastructure, or the realization of the purposes for which the project was undertaken; 2) if the COUNTY is required to repay any amount of the funds granted for the purposes of this Agreement as a result of occurrences attributable to the COMMUNITY, the COMMUNITY will reimburse the COUNTY in the full amount that the COUNTY is required by their granting agency to repay.

SECTION 5. SKETCH: Pursuant to its sole discretion, the COUNTY may have prepared, at its expense, for any of the property set out in Exhibit "A" of Attachment A, a current easement sketch and land description by a Florida-licensed surveyor in accordance with applicable law. Any defect reflected on such sketch including, but not limited to, encroachments of improvements which cross a boundary line or into an area where other utilities are located, evidence of overlaps along a property line, violation of restrictions, setback lines, possession inconsistent with the property boundaries, or any other such defect shall be treated as a title defect. The COUNTY shall have thirty (30) days after receipt of the said sketch to furnish notice to the COMMUNITY, as appropriate, of any title defect shown on the sketch that does not conform to the status of title described in SECTION 6 of this Agreement.

SECTION 6. REPRESENTATIONS AND WARRANTIES OF THE COMMUNITY: To induce the COUNTY to enter into this Agreement, the COMMUNITY represents and warrants that, at time of execution and as of closing date:

6.1 Organization, Standing, and Power: The COMMUNITY is a legal Florida entity, duly organized, validly existing, and in good standing under the laws of the State of its formation, and is authorized to do business in the State of Florida, and enter into the commitments and perform all actions required by the Agreement. The COMMUNITY has all requisite power and authority to own and convey all interests required herein and to conduct its business as it is currently being conducted.

6.2 Authority for Agreement: The COMMUNITY has the power and authority to execute and deliver this Agreement and to carry out its respective obligations hereunder, and all necessary actions have been taken to confer such power and authority on the COMMUNITY by the COMMUNITY's property owners and governing board or body. This Agreement has been duly authorized by all action required to be taken by the COMMUNITY, has been duly executed and delivered by the COMMUNITY, and constitutes a valid and legally binding obligation of the COMMUNITY, and its successors and assigns as may be applicable, enforceable in accordance with its terms.

6.3 Good and Marketable Title: Subject to the interests of Community's shareholders, the COMMUNITY has good and marketable title to the assets which must be conveyed to the COUNTY pursuant to this Agreement and necessary to accomplish the purpose of the Agreement.

6.4 No Liens or Encumbrances: Subject to the interests of Community's shareholders, except as otherwise specifically set forth herein, there are no liens, claims, or encumbrances of any type or nature upon or against the Assets including, but not limited to, financing statements or security instruments.

6.5 Litigation: The COMMUNITY has no actions, suits, or proceedings at law or in equity, pending or threatened against the COMMUNITY before any Federal, State, municipal or other court, administrative or governmental agency or instrumentality, domestic or foreign, which affects or will affect the

System or the COMMUNITY's right and ability to make and perform this Agreement; nor is the COMMUNITY aware of any facts that to its knowledge are likely to result in any such action, suit, or proceeding. The COMMUNITY is not in default with respect to any order or decree of any court or of any administrative or governmental agency or instrumentality affecting the System. The COMMUNITY agrees and warrants that it shall have a continuing duty to disclose up to and including the closing date, the existence and nature of all pending judicial or administrative suits, actions, proceedings, notices of violation, and orders which in any way relate to the operation of the System. Any such matters now known to the COMMUNITY shall be initially disclosed within ten (10) days following execution of this Agreement and shall be supplemented at any time the COMMUNITY receives notice of actions, suits, or proceedings at law or in equity, pending or threatened against the COMMUNITY before any Federal, State, municipal or other court, administrative or governmental agency or instrumentality, domestic or foreign, which affects or will affect the System or the COMMUNITY's right and ability to make and perform this Agreement, as well as on the closing date.

6.6 Appropriate Zoning: The present zoning of the property described in Exhibit "A" of Attachment A does not prohibit the operation of the System on the subject property, and within the properties and areas indicated.

6.7 New Agreements: The COMMUNITY shall not enter into any sale that would alter the existing use of the COMMUNITY and the continued operation of the System, extension, developers' agreement, or other agreement concerning or that affects the operation of the System, agreement concerning service capacity, or cause any such agreement to be modified after the date of execution of this Agreement without the prior written approval of the COUNTY, which consent shall not be unreasonably withheld.

6.8 Leases: Subject to the interests of Community's shareholders, none of the System is subject to any interest of any competing interest, lessor or lessee.

6.9 Contracts in Default: There are no existing contracts or commitments with respect to the System except for those listed in Exhibit "A" of Attachment A hereof, and the COMMUNITY is not aware of any defaults of any parties to any such agreement.

6.10 No Governmental Violations: To the best of the Community's information and belief, the COMMUNITY is not aware and has not been notified of the existence of any violations of any governmental rules, regulations, permitting conditions, or other governmental requirements applicable to the ownership, maintenance, or operation of the System. The COMMUNITY will make reasonable efforts to inspect for illegal connections to the existing System, and will notify both the COUNTY as well as the individual responsible for the illegal connection of each such illegal connection discovered. The COMMUNITY will remedy any known violations, and will additionally advise all of its residents of the requirements and prohibitions contained in the Pinellas County Code related to connection to the COUNTY sewer. In the interest of clarity, by way of example only, an illegal connection includes, but is not limited to, any modification that would allow the introduction of stormwater into the System.

6.11 No Record Violations: The use of the System on the property set out in Exhibit "A" of Attachment A is consistent with and does not violate any restrictions or conditions of record.

6.12 Absence of Changes: Since the date of execution of this Agreement, the COMMUNITY shall not and has not:

6.12.4 Acquired or disposed of any assets or properties of material value except in the ordinary course of business that do not concern the continued operation of the system.

6.13 Financial Statements: Within sixty (60) days of execution hereof, if requested by the COUNTY, the COMMUNITY at its expense, agrees to provide to the COUNTY, true, correct, and complete copies of all financial statements, tax returns, and other financial records and annual reports for the period stated in the request. The records shall fairly present the financial condition and results of operations of the COMMUNITY at the dates and for the periods of time thereof and disclose all of the assets, liabilities, net worth, revenues, and expenses of the COMMUNITY existing as of the dates and for the periods of time thereof.

6.14 Disclosure: No representation or warranty made by the COMMUNITY, to the best of the COMMUNITY's knowledge, in this Agreement contains or will contain any untrue statement of material facts or omits or will omit to state any material fact that would make the statements, herein contained, misleading or untrue.

6.15 Survival of Covenants: The COMMUNITY agrees that its representations and warranties set forth herein are true and correct as of the date of the execution hereof, shall be true and correct at the time of execution of the easements required by this Agreement and shall survive thereafter following recordation.

SECTION 7. CONDUCT PENDING PROJECT COMMENCEMENT: The COMMUNITY covenants that pending the commencement of the project:

GRANTOR shall only perform or permit other persons or entities to perform construction or other work within the Easement Area after prior written approval by GRANTEE and only if such construction or other

9. Except for those acts reasonably necessary to accomplish the purposes of this Easement, both parties herein also covenant not to do any acts or things which could reasonably expect to cause damage to GRANTOR's premises or existing improvements in the Easement Area or to GRANTEE's improvements as set forth herein.
