

**Comparison of current Plan Document executed June 30, 2005 (“Eligible 457 Governmental Deferred Compensation Plan”, administered by Hartford Life Insurance) and proposed Plan Document, restated January 1, 2019 (“Pinellas County BOCC Deferred Compensation Plan”, administered by MassMutual)**

**Background**

A separated Plan Participant with an Account Balance submitted a request to rollover funds into this Plan. To accommodate this request, a restated Plan Document was required (refer to Section 7.1 of the restated Plan Document).

While preparing a restated Plan Document on behalf of our Plan, MassMutual, the Plan Administrator, also added **Regulatory Provisions** (described below) into our Plan Document where required, as well as **Discretionary Provisions** (outlined below) where needed. Descriptions are detailed below accompanied by a comparison of the current Plan Document language from our 2005 document with the restated Plan Document proposed to become effective January 1, 2019.

**Regulatory Provisions**

The following regulatory provisions were required to be included in the restated 2019 Plan Document since the current Plan Document was enacted in 2005:

- Final 415 Regulations to reflect post-severance compensation payments made by later of 2 ½ months following severance from employment or end of calendar year in which severance from employment occurred. *(Refer to Section I, Definitions, Compensation, and Section 2.2 (a) Special Deferral Election of Sick, Vacation or Back Pay)*
- Pension Protection Act to reflect Minimum Distribution Rules reflecting Final Regulations, including the special waiver provision applicable to 2009, and Direct Rollovers to Roth IRAs. *(Refer to Section 6.6 (f), Special Provision Applicable to 2009 Required Minimum Distributions).*
- Worker, Retiree, and Employer Recovery Act to reflect Non-spouse Beneficiary Rollover to Inherited IRA. *(Refer to Section 6.9 (c) )*
- Heroes Earnings Assistance and Relief Act to reflect survivor provisions for participants who die while performing qualified military service with additional benefits (other than accruals) that would have been provided under the plan had the participant been reemployed by employer and then terminated (types of benefits include accelerated vesting, ancillary life insurance and other survivor benefits contingent on a participant’s termination of employment on account of death), ceasing deferrals after withdrawals while on active duty and compensation to reflect differential wage payments. *(Refer to Section 6.3, Distributions on Account of Participant’s Death, last paragraph).*

## **Discretionary Provisions**

Please note the following Plan Document Preparation Service Elections requested September 6, 2017 that necessitate Plan Document language modifications:

**2. Document Services:** Request submitted to MassMutual to provide us with specimen Plan Documents in Word format that we may modify.

**9. Rollover Contributions:** Employees eligible to make rollover contributions include: Participants who are employees and terminated employees with an account balance.

**11. Qualified Distributions for Retired Public Safety Officers:** Yes, qualified distributions are permitted for direct payment of health insurance premiums for eligible retired public safety officers.

**12. Withdrawal Due to Qualified Military Services:** Yes, allow “deemed severance distributions” for employees absent due to qualified military service between 30-179 days (deferrals suspended for 6 months), and, Yes, allow “qualified reservist distributions” for employees absent due to qualified military service for 180 days or more (deferrals not suspended for 6 months).

**13. Involuntary Cashout Distributions:** A. Employed Participant Involuntary Cashouts: \$1,000, and B. Terminated Participant Involuntary Cashouts: \$1,000.

**Side-by-Side Comparison of Plan Document Sections and Provisions (2019 vs. 2005 documents):**

Note: the addition of a new section, Section V, Loans, in the proposed 2019 restated Plan Document has impacted subsequent Section numbering.
