23. County Commission New Business:

Pertinent and timely Committee/Board updates, policy considerations, administrative/procedural considerations, and other new business:

Duke Energy Clean Energy Resolution - Commissioner Nowicki

Resolution No. 25-34 adopted, as amended.

Commissioner Nowicki provided information regarding a proposed resolution pertaining to the Duke Clean Energy Connection Program, noting that it would direct the County Administrator to indicate the County's withdrawal from the Program; and that staff from Duke Energy and the County are present to answer any questions; whereupon, he made a motion to adopt the resolution, which was seconded by Commissioner Scherer.

Brief discussion ensued wherein Commissioner Flowers emphasized the significance of County-led initiatives related to resilience and sustainability and indicated that she would like for the members to have a conversation regarding clean energy goals and the operational value of these goals; whereupon, she related that she cannot support the resolution.

At the request of Commissioner Peters, Duke Energy Government and Community Relations Manager Jeff Baker and Lead Strategy and Planning Manager Travis Knous provided information related to the Clean Energy Connection Program, including that it is a subscription-based program; and that customers pay a fee to receive credits and renewable energy certificates based on energy produced from solar panels; whereupon, Mr. Knous described how the County utilizes renewable energy certificates to meet its sustainability goals.

Responding to queries by the members, Mr. Knous, with input from Messrs. Baker and Burton, discussed various topics, including the Program's subscription fee and returns, projected cash flow, energy output, and infrastructure; whereupon, in response to queries by Commissioner Nowicki, Duke Energy Senior Account Executive Michael Malley provided information related to the long-term benefits of the Program.

Mr. Knous pointed out that generation credits are currently greater than subscription fees and suggested that the members consider the financial benefit of exiting the Program when generation credits are lower.

Discussion ensued regarding multiple topics, including the potential for a future work session regarding the proposed resolution, the Program's anticipated return on investment, the County's financial and sustainability goals, and the effective date of the proposed resolution; whereupon, Commissioner Eggers suggested that the motion be amended to reflect a later effective date.

Following further discussion, Commissioner Nowicki agreed to amend his motion for adoption to a date no later than October 1. The motion was seconded by Commissioner Scherer.

A motion was made by Commissioner Nowicki, seconded by Commissioner Scherer, that the item be approved as amended. The motion carried by the following vote:

Aye: 6 - Chair Scott, Vice-Chair Eggers, Commissioner Latvala, Commissioner Nowicki, Commissioner Peters, and Commissioner Scherer

Nay: 1 - Commissioner Flowers

BOARD OF COUNTY COMMISSIONERS

24. Case No. FLU-24-03 (Dushyant Gulati)

A request for a Future Land Use Map amendment from Residential Suburban to Residential Low on approximately 1.02 acres located at 2281 Kersey Road in unincorporated Largo.
(Companion to No. 25)

Ordinance No. 25-10 adopted, approving Case No. FLU-24-03. The Local Planning Agency recommended approval of the request, and staff concurred. One letter in opposition and six voicemails in support have been received by the Clerk.

Zoning Division Manager Michael Schoderbock indicated that he will present information regarding Item No. 24 and companion Item No. 25 simultaneously. Referring to a PowerPoint presentation containing photographs and maps, Mr. Schoderbock indicated that the Board approved a land use and zoning change, with the addition of a conditional overlay, for the property located at 1736 Winchester Road in 2021; whereupon, he provided historical information related to Case No. Z/LU-20-12.

Mr. Schoderbock indicated that the current zoning request before the Board relates to the aforementioned property, as well as an additional neighboring property located at 2281 Kersey Road; and that the current land use amendment request only relates to the property located at Kersey Road. He provided an overview of the requests and pointed out the locations of the subject properties; whereupon, he noted that the proposed use is a single-family subdivision.

He discussed the proposed conditional overlay and reviewed the differences between the proposed and existing conditions; whereupon, Mr. Schoderbock described surrounding land uses, zoning designations, and potential traffic impacts.

Mr. Schoderbock indicated that the Local Planning Agency (LPA) modified the proposed conditions, which would reduce the maximum number of lots allowed to 11 and remove the 25-foot landscape buffer on the southern property line.

He related that the proposed land use and zoning amendments, including the conditional overlay, are consistent with the Comprehensive Plan and the Countywide Plan Map; and that the LPA recommended approval, with the aforementioned modifications of the conditions; whereupon, he noted that the LPA vote was not unanimous for either application; and that the dissenting members had concerns related to compatibility on the site.

Responding to queries by Commissioner Latvala, Attorney White provided information regarding factors that the Board may consider related to zoning; whereupon, Mr. Schoderbock indicated that the original request required 80-foot lot widths and 9,500-square-foot minimum lot sizes; and that the dissenting LPA members had concerns regarding a condition which allowed 60-foot lot widths and 6,000-square-foot lots.

In response to comments and queries by Commissioners Eggers and Nowicki, Mr. Schoderbock, with input by Attorney White, provided information regarding responsibility for improvements to Winchester Road, the restrictions and conditions that the Board may impose utilizing a conditional overlay, and the differences between the original approval and the requests currently before the Board.

In response to comments by Commissioner Flowers, Mr. Schoderbock indicated that the applicant could place up to 16 units on the properties without the conditional overlay; and that the overlay would limit the number of allowable units to 11.

Upon the Chair's call for the applicant, Dushyant Gulati, Clearwater, appeared. He indicated that he is joined by four individuals who may speak regarding various topics; whereupon, he introduced Don Skelton, Tampa, and Matthew Sullivan, St. Petersburg.

Referring to maps and photographs, Mr. Gulati indicated that the current plans would address some of the concerns raised by neighboring residents, including traffic on Winchester Road, runoff, and flooding; whereupon, he emphasized the consistency and compatibility of the zoning request with the surrounding neighborhood and related that he conducted significant neighborhood outreach.

Mr. Skelton indicated that a traffic study was performed and provided information regarding the areas surveyed, the data collected, and the potential impacts to traffic and safety.

A.J. Sharabyani, Clearwater, discussed drainage for the subject properties, indicating that no drainage will be diverted to the current outfall; whereupon, referring to a letter received from a neighboring resident, Mr. Sullivan related that the applicant will need to obtain permits related to stormwater management from both the Southwest Florida Water Management District and the County; and that any concerns related to drainage and flooding would be addressed during the permitting process.

In response to queries and comments by the members, Mr. Schoderbock indicated that the subject properties are within the 500-year floodplain; whereupon, he discussed homeowner and developer responsibilities related to road improvements and stormwater management.

Upon the Chair's call for public comment, the following individuals appeared and expressed their concerns:

Keith Magruder, Clearwater
Jessica Jurek, Clearwater
Jamie O'Neill-DiSanza, Clearwater
Mary Rush, Clearwater
Leo Torres, Clearwater
Justin Cyrwus, Clearwater
Charles Humphries, Clearwater

The following individuals appeared and expressed their support:

Juliana Lee-Gardiner, Largo
Olivia Carbe, Tampa
James Lascara, Tampa
Elena Vorobei, Clearwater
Nataliia Penedo, Clearwater
William Ricci, Clearwater
Jennifer Spinelli, Seminole

In response to concerns expressed by citizens, Commissioner Flowers provided information related to countywide flooding issues, drainage and runoff mitigation, and traffic.

In rebuttal, Mr. Gulati indicated that the currently proposed plan will address concerns raised by the neighbors more effectively than the plan which was approved in 2021; whereupon, Mr. Sharabyani provided comments regarding various requirements and review standards which would apply to the site.

In response to queries by Commissioner Latvala, Mr. Schoderbock, with input by Mr. Burton, indicated that stormwater management is required for any development; that County and City of Largo staff are aware of the flooding problems in the surrounding area; and that discussions are ongoing; whereupon, Attorney White related that stormwater management would be addressed during the site planning process.

Lengthy discussion ensued regarding various topics, including the following:

- Compatibility with the surrounding neighborhood
- The landscape buffer along the southern property line
- Conditional overlays
- Road improvements
- Sidewalk requirements
- Minimum lot widths and sizes
- Density
- Flooding concerns

During discussion, Attorney White provided information regarding the Board's ability to impose certain restrictions as part of a conditional overlay.

Attorney White recommended that the Board vote on the items separately and related that if the land use case is approved, then the Board would vote on the zoning case, which includes the conditional overlay.

A motion was made by Commissioner Flowers, seconded by Commissioner Scherer, that the item be approved. The motion carried by the following vote:

Aye: 6 - Chair Scott, Vice-Chair Eggers, Commissioner Flowers, Commissioner Nowicki, Commissioner Peters, and Commissioner Scherer

Nay: 1 - Commissioner Latvala

25. Case No. ZON-24-05 (Dushyant Gulati)

A request for a zoning change from R-R, Rural Residential and R-3-CO, Single-Family Residential with Conditional Overlay to R-3-CO, Single Family Residential with Conditional Overlay on approximately 3.2 acres located at 2281 Kersey Road and 1736 Winchester Road in unincorporated Largo. (Quasi-Judicial) (Companion to No. 24)

Resolution No. 25-35 adopted, as amended, approving Case No. ZON-24-05. The Local Planning Agency recommended approval of the request, and staff concurred. One letter in opposition and six voicemails in support have been received by the Clerk.

A motion was made by Commissioner Scherer, seconded by Commissioner Flowers, that the zoning change be approved as written and approved by staff.

Brief discussion ensued regarding minimum lot width requirements; whereupon, Mr. Burton indicated that the applicant would accept a 70-foot minimum lot size.

Chair Scott confirmed that Commissioner Scherer accepted an amendment to his motion, which would include a condition requiring a minimum 70-foot lot width; whereupon, Commissioner Flowers concurred as the seconder. In response to comments by Commissioner Nowicki, Chair Scott clarified that the other conditions of approval would remain the same.

A motion was made by Commissioner Scherer, seconded by Commissioner Flowers, that the item be approved as amended. The motion carried by the following vote:

Aye: 6 - Chair Scott, Vice-Chair Eggers, Commissioner Flowers, Commissioner Nowicki, Commissioner Peters, and Commissioner Scherer

Nay: 1 - Commissioner Latvala
