WHAT THE HELL IS WRONG WITH YOU?!!! It's way past the time of being polite and asking you to do the right thing. Protect our children, for crying out loud! Picture yourselves in future history books; You had the opportunity to save more lives, to protect children, and you DIDN'T. Picture explaining to your grandchildren or future relatives WHY you didn't step up and support such a SIMPLE GD ordinance before things got out of control again? Do you really want to be remember as the people who could have done the right thing but couldn't be bothered? Once again, WHAT THE HELL IS WRONG WITH YOU ALL?!!! We all know this is the right thing to do!!!

As you know the risks that the virus pose have steadily increased. One of the areas hit very hard by this virus is our schools. I am appalled at the lack of concern Pinellas County has shown for the well being of our children, their families and all school staff during this tragedy that could, to a large extent, have been prevented. I always thought that we were a better, more informed community and would rise above our own political beliefs for the greater good. Unfortunately, we have fallen way behind many other states, and even other counties, within Florida. The CDC recommends universal indoor masking for all students, staff, teachers, and visitors to K-12 schools, regardless of vaccination status. According to the polls, most people believe that masking is a critical part of preventing transmission amongst school children...especially since so many are unable to be vaccinated due to their age. We need you to step up to the plate and do whatever you can to make our schools safe. The community needs to know that you have their back.
