COVID restrictions

Message

It's about time to lift the unconstitutional restrictions you have placed on the people of Pinellas county. Recent data states that the number of new cases has dropped 40% in the past 3 weeks. Now anyone with any intelligence knows this is because they have been manipulating the numbers by using an unprecedented 40 cycle spin resulting in counting dead RNA and producing a fake positive. The CCD has admitted that this was incorrect and they are now using the 20 spin cycle and consequently the numbers are dropping like a lead balloon.

This has been an unconstitutional restriction that you have placed on the people and was actually lifted months ago by Governor DeSantis. It's time you show some courage and lift this suppression off of the people. I have been particularly upset by the trauma you have produced in the children in the county....this is child abuse affecting them physically, mentally and emotionally. All for a virus that children DON'T get and the rest of us have a 99.9% chance of surviving.

Here's what's going to happen. I have been doing my research and it has come to my attention that you may have been illegally elected because the voting machines have not been legally certified in the state of Florida since 2017. It is the state law that this occurs and if it has not then maybe you are not even legally holding a position as county commissioner. All truth will be revealed.

For now it is time to end this insanity.....remember you violated our 1st

constitutional rights. We the people will remember.....I hope you have a good day job!

Mr. McKenna:

Thank you for your inquiry, below. Please know our office does not set policy in regard to wearing of masks within Pinellas County – that prerogative resides with our Board of County Commissioners.

In looking at your address, it appears as if you reside in the districts of County Commission Chair Dave Eggers (District 4, Single-Member District), and Commissioner Janet Long (District 1, At-Large District). As a courtesy, I am copying their assistants on your message and this response so they are aware of your position on this issue.

Stay well,

Paul Valenti

All government correspondence is subject to the public records law.

In light of the federal and state declarations of emergency related to COVID-19, in addition to the work we're doing at the county, we encourage you to take the following safety precautions to protect our most vulnerable residents:

1. Wash your hands frequently throughout the day – use soap and water for 20 seconds.
2. Cover your mouth when you cough or sneeze with a tissue, then throw the tissue away.
3. If you are sick, stay home!
4. Practice social distancing: whenever possible, try to keep 6 feet between you and everyone around you.

Comments	<p>Sirs, Not sure if this is the right department so please pass on if necessary. I urge you to remove the county wide mask mandate and at least make compliance voluntary. Studies repeatedly show that masks are ineffective and in many cases harmful to the wearer. Remove the mandate.</p> <p>Thank you,</p> <p>Dennis McKenna</p>

Message

Its time to end the State of Emergency and get back to the real normal. We allowed this state of emergency under the presumption that it was temporary until "we flattened the curve"

The rates of death or at or below those of the flu and we have never issued a state of emergency for that. Nor should we.

The continued effects of limiting our businesses and the mask mandates are destroying our economy and creating lifelong devastating effects.

It is your civic duty and responsibility to make sure this county prospers.

It is NOT your civic duty to protect the health of certain individuals. If that was the case cigarettes, alcohol, French fries and cookies would be outlawed.

The responsibility to protect one's health lies with the individual.

End the state of emergency. Now.

Topic Mask Mandate

BCC Agenda Date 1-27-2021

Your Stand on the Issue Oppose

Comments

Good morning, I'm writing again about the repealing of the face covering mandate in the county. My understanding was we were going to monitor the opening of schools. As far as I can see everything has gone well with little incidence. After continuing to follow CDC numbers and seeing that the figures for contracting COVID are significantly higher in those masking always vs those that do not, I am more convinced than ever there was never sufficient valid study behind the efficacy of masks. I write AGAIN (third time) to demand this be repealed. We've now been required to mask for nearly a year. We were told this would be a short term situation. It's now gone far beyond that. In good conscious this county cannot continue to mandate something with no valid efficacy given how well Florida has done.
