CUSTOM LIMIT INSPECTIONS MODULE SCOPE & ASSUMPTIONS

• Channels:

- IVR

• Functionality:

- With Selectron’s Custom Limit Inspections Module, VoicePermits module will automatically limit the available inspection type by the contractor’s associated trade. Using direct queries, Selectron will determine if the associated contractor PIN and ID (stored and maintained in Accela) is eligible to schedule the requested inspection type. Users requesting an inspection outside of the contractor’s Trade designation will be unable to schedule inspections. Includes project management, Software Development & Quality Assurance, Remote Support for Acceptance Testing & Go-Live.

• Application Database Integration: Accela Permits Plus

- Integration to Accela Permits Plus requires appropriate ports enabled within the Pinellas County network and VPN connectivity, as determined is necessary during the system implementation
