Topic Car Wash: Woodie's Wash Shack
BCC Agenda Date 4-7-2020
Your Stand on the Issue Support

Comments

To Whom it May Concern: Blue Water Wash, LLC, dba Woodie's Wash Shack is requesting that they be deemed an essential business. According to the U.S Department of Homeland Security's list of essential businesses, under the transportation section, businesses in automotive repair & maintenance are considered essential and therefore can remain operational. The automotive repair & maintenance industry has the NAICS code 8111, of which, Car Washes falls under. Woodie's Wash Shack operates "automotive repair and maintenance" which is recognized by state and federal offices as an "Essential Service." Our business supports community safety, economy, and resilience, at all times and especially during the COVID-19 response. COVID-19 is spread primarily through the touching of commonly used surfaces. With the COVID-19's ability to remain detectable on surfaces like metal & plastic for up to 3 days, Car Washing is arguably more essential than ever before. The process taking place in a Woodie's Wash Shack wash tunnel is a high-pressure chemical washing and rinsing routine that effectively fights against harmful bacteria and viruses like COVID-19. Ultimately, Woodie's Wash Shack assists in helping stop the spread of coronavirus and therefore should be considered an essential business. Car Washes that operate under the "express" model, like Woodie's Wash Shack, are as automated as possible. This means little to no human interaction is necessary throughout the entire express wash process. We do not have a lobby or waiting area like a full-service car wash would have. Increased automation also means less of a need for physical, on-site labor. Generally, Woodie's Wash Shack only has 2-3 employees on-site, all of which, are practicing social distancing rules outlined by the CDC. Additionally, we have shut down every other self-serve vacuum to allow for at least 13 feet of distance between them and each vacuum is disinfected after every use - something gas stations aren't doing. Our 135-foot wash tunnel has a highly effective disinfecting process including high

pressure soap, chemicals, and sanitization substances that help eradicate the exterior of vehicles of harmful bacteria in less than 5 minutes. Before being shut down, Woodie's Wash Shack was disinfecting the exterior of 500-800 cars per day. We also provide disinfectant wipes and spray bottles for clients to disinfect their interior without a need for human interaction. Of our 2,000+ members, 250 are first responders who disinfect their vehicles at Woodie's on a weekly basis. Even more are those involved in ride-share services like Uber & Lyft. In conclusion, Woodie's Wash Shack believes that car wash operations provide necessary services to help prevent the spread of diseases like COVID-19. Municipal vehicles, emergency responders, taxi-cab drivers, Uber, and Lyft drivers need car washing more than ever before. Not only are car washes essential, but they are even taking an active role in the fight against COVID-19 and ensuring peace of mind for anyone who finds it necessary to travel by vehicle.

Topic Main Street Xpress Wash Customer Self Drive Thru Service

BCC Agenda Date 4-7-2020

Your Stand on the Issue Support

Comments Main Street Xpress Wash provides a (CDC guideline) safe customer self drive thru exterior wash for cleaning & sanitizing that's an essential service to the health & safety of our communities. Uber, Lyft, food delivery, transportation drivers for disabled/elderly/medical treatment need to keep their vehicles clean and safe. Any type of self drive thru car wash at convenient stores, gas stations, etc., should be considered as essential services for the safety & health of our Essential Service Personnel.

Topic County Lock Down
BCC Agenda Date 4-7-2020
Your Stand on the Issue Oppose

Comments My name is Jean-Paul Piccion. After the recent announcement by Dr. Anthony Fauci, stating that COVID 19 could become a seasonal occurrence I think we must strongly consider lifting the stay at home notice, or at least relaxing them a bit. If this is going to be a seasonal occurrence we cannot sacrifice the wellbeing of our local communities economy. We could still mandate that stores follow the cdc guild lines of staying 6ft apart and advise anyone over the age of 60 that it is highly recommended that they stay at home but we cannot continue to stay closed and if this does become season we cannot afford to shut down every year.

Topic Marina Closures

BCC Agenda Date 4-7-2020

Your Stand on the Issue

Comments

Can the County please elaborate on its interpretation on the Governor's order regarding marinas as essential services? In my reading, it seems clear that marinas are to be closed as required in Miami-Dade with only limited exceptions under Miami-Dade's order 06-20 3rd amendment. Allowing all marinas to stay open seems to violate the Governor's Order and puts marina workers at risk, so people can go get drunk on their boat and socialize with their friends. While I am sure that was not the county's intent, it is certainly the effect. I have first hand knowledge of that. Please close marinas as set forth in Miami-Dade order 06-20 Amendment 3.

Topic Splitting out Essential Businesses as Non Essential

BCC Agenda Date 4-7-2020

Your Stand on the Issue Oppose

Comments

My wife and I own Woof Gang Bakery Clearwater, a small business that is deemed essential by the governor order (pet food). The business offers dog hygiene services and grooming, which has strictly followed CDC social distancing guidelines. The list of non-essential businesses were defined last Thursday, but the 'gray area' of multi service business, now discriminates essential businesses. The decision to parse out what occurs in the business - like the pawn shop that offers loan services, or a veterinary offices who groom dogs - unfairly singles out specific businesses. Splitting essential businesses creates enormous ambiguity and set a difficult precedent for Pinellas County. No other nearby county has set this precedent – and we are now losing our staff to those counties. I would encourage the commission to revisit the non-essential list and not hurt businesses that offer essential services.

Topic Pools at Hitels and Condos

BCC Agenda Date 4-7-2020

Your Stand on the Issue

Comments Please consider opening pools at Hotels and Condos. There is nothing on the CDC website or State Health site that says virus can be transmitted thru water. It's safe to swim and good exercise. Hotels are Condos are sparsely populated, secure and can only be accessed by registered guest. Much safer than walking into a crowded grocery store or drug store
