8427 South Park Circle, Suite 524
Orlando, FL 32819

VIA EMAIL

Subject: St. Pete-Clearwater International Airport (PIE)
FY2023 Airport Improvement Program Application

Enclosed please find one (1) hard copy of FY2023's Airport Improvement Program (AIP) grant application for the following projects at PIE.

1. Construct Airco New Taxiway "D" – Construction;
2. Relocate Taxiway Connector "G3" – Construction;
3. Airco New Taxiway "D" Airfield Lighting – Construction;
4. Relocated Taxiway Connector "G3" Airfield Lighting – Construction;
5. Airco New Taxiway "D" Airfield Signage – Construction; and
6. Relocated Taxiway Connector "G3" Airfield Signage – Construction.

The following items are enclosed:

- ✓ Application for Federal Assistance
- ✓ AIP Sponsor Certifications
- ✓ Detailed Project Information Sheets
- ✓ Total Cost Summary
- ✓ Recommendation for Award
- ✓ Project Sketch
- ✓ Environmental Determination Documentation

Based upon the \$11,951,040 estimated amount federal share requested in this application, PIE is committing entitlements from FY2021, FY2022, and FY2023. This amount is more than the \$5,592,000 that we anticipated in the Pre-Application. The increases are due to supply chain issues and large inflationary increases for asphalt, airfield signage and concrete pipes.

PIE is requesting a Letter of Credit method of payment for this grant agreement. There have been no changes in our Exhibit "A" Property Map or Exhibit "C" Title Opinion since our master plan was completed in February 2020.

Sincerely,

Thomas R. Jewsbury
Airport Director

Orlando Airports District Office
Federal Assistance Request Checklist

APPLICATION CHECKLIST

Airport:	St. Pete-Clearwater International Airport
Sponsor:	Pinellas County, Florida Board of County Commissioners
City, State:	Clearwater, Florida
Date of Application:	June 16, 2023

Cover Letter:

- Letter of Credit method of payment requested.
- Project(s) identified. (Any changes from previous meetings/discussions should be discussed prior to submission.)
- If pre-application, proposed application date identified.
- If application, any changes to requested amount are identified and reasons provided.
- If application, identify if any changes have taken place on Exhibit "A" Property Map since last grant.
- If application, identify if any changes have taken place on Exhibit "C" Title Opinion since last grant.

Application (Revise Pre-Application Documentation) :

- Standard Form 424 -- Application for Federal Assistance
- Detailed Project Information Sheet
- Individual Project Cost Breakdowns and Total Cost Summary
- Bid Tabulations and Recommendation for Award
- Project Sketch – One for each or one drawing with all projects
- Environmental Determination Documentation for each project
- Individual Project Schedules
- Appraisals (Land Acquisition Projects)
- Independent Cost Estimates (Design Only or Construction Phase Services >\$100K)

Grant Element	Total Cost	FAA Share	FDOT Share	PFC Share	Airport Share	FAA Grant Info
Beginning Grant Balance		\$ 11,955,180.00	\$ 1,102,410.00	\$ 1,102,410.00	\$ 800,000.00

Airport Improvement Program (AIP)

Airport : St. Pete-Clearwater International Airport (PIE)
City, ST: Clearwater, Florida
DUNS / TAX ID No. EUI #R37RMC73XKG1
SAM Expiration Date: December 5, 2023
Project Title: Construct Airco New Taxiway "D" Pavement – Construction

Project Description:

This project includes the construction of a new taxiway system to provide airfield access to the Airco site, identified in the recently completed Master Plan as a site for redevelopment for aeronautical uses. The new taxiway included in this development is the construction of a new Taxiway "D". Taxiway "D" will be constructed from the end of Runway 36 to Taxiway "G".

Taxiway "D" will run roughly parallel to Runway 18-36 for approximately 3,355 linear feet (LF) and will terminate at Runway 04-22 and the end of Runway 36. Due to the current aircraft fleet mix, this taxiway will be designed to accommodate Airplane Design Group (ADG) III aircraft and will meet the criteria of a Taxiway Design Group (TDG) 3 aircraft as noted in the current FAA-approved Airport Layout Plan (ALP). However, since the ultimate condition of this taxiway will be for ADG V aircraft (per the ALP), we intend to design to the ADG V criteria for offsets, grading, and drainage only. Pavement width for the interim condition will be fifty feet (50') with turf shoulders as required for the current ADG III aircraft condition.

Taxiway "D" will be constructed to all current FAA design standards including turf shoulders, taxiway safety areas, lighting, and markings.

This project is necessary to allow for the non-exclusive use, aeronautical development on the Airco site adjacent to PIE. This new taxiway will serve the Airco site. Airco has seen a significant amount of interest for both aeronautical and non-aeronautical uses. PIE currently has Letters of Intent from potential tenants on file who are interested in future aeronautical uses of this site; one is an FBO and the other two are aeronautical tenants and master developers. With the construction of this taxiway, the phased development can begin.

Master developers see this location as vital due to its easy access to Ulmerton Boulevard and I-275 and I-75. The land is also raw which will allow them to design the building and road system to suit their needs. The aeronautical land is ideal due to its close location to the approach end of Runway 36 and the construction of Taxiway "D" will provide that direct access that is needed from the Airco land to PIE's airfield.

It is to be noted that all ramps connected to a taxiway will be public use and will not be exclusive use; the lease for this area will contain the same assurance. Public aircraft parking will be available on all apron areas, which will be considered eligible apron area.

The FAA issued a Federal Finding of No Significant Impact on this project's Environmental Assessment on February 3, 2020. The estimated start date of this project is October 2023, and it is estimated to be completed in August 2024.

Project Justification:

Per FAA Order 5100.38D, Table H-3 "Taxiway Project Requirements" a new taxiway can be constructed due to following justifications:

- (1) The taxiway referred to in the Project Description connects runways or taxiways eligible at PIE.

(2) The taxiway will be constructed to FAA design standards, including proper access, shoulders, turf along edge of shoulders, sign, taxiway safety areas, marking, and lighting.

According to Appendix H. "Taxiway Projects" H-2. a. "Parallel and Partial Taxiway", a "partial parallel taxiway is also eligible if the runway is eligible and justified..." and d. "Other Taxiways", a "taxiway is a defined path for taxiing of aircraft from one point to another. Taxiways on, or connecting to, aprons available for use by the general public are eligible."

Was this project in the airport's Capital Improvement Plan (CIP) in JACIP and accepted as eligible/justified in the FAA's Airport Capital Improvement Plan (ACIP)?

Yes No (explain below)

Project Title: Relocate Taxiway Connector "G3" – Construction

Project Description:

This project includes the construction of a new taxiway system to provide airfield access to the Airco site, identified in the recently completed Master Plan as a site for redevelopment for aeronautical uses. The taxiway included in this development is the relocation of Taxiway Connector "G3".

Taxiway "G3" is an existing angled taxiway that will be relocated to meet current airport design requirements and correct existing pavement distresses such as longitudinal cracking, weathering, slippage cracking, and raveling. It will continue to be 50 feet wide and approximately 300 feet long with 15 feet of paved shoulders. The taxiway will be constructed of asphalt pavement.

Taxiway "G3" will be relocated to all current FAA design standards including turf shoulders, taxiway safety areas, lighting, and markings.

This project is necessary to allow for the non-exclusive use, aeronautical development on the Airco site adjacent to PIE. This relocated taxiway connector will serve the Airco site. Airco has seen a significant amount of interest for both aeronautical and non-aeronautical uses. PIE currently has Letters of Intent from potential tenants on file who are interested in future aeronautical uses of this site; one is an FBO and the other two are aeronautical tenants and master developers. With the construction of this taxiway, the phased development can begin.

Master developers see this location as vital due to its easy access to Ulmerton Boulevard and I-275 and I-75. The land is also raw which will allow them to design the building and road system to suit their needs. The aeronautical land is ideal due to its close location to the approach end of Runway 36 and the relocation of Taxiway Connector "G3" will provide that direct access that is needed from the Airco land to PIE's airfield.

The FAA issued a Federal Finding of No Significant Impact on this project's Environmental Assessment on February 3, 2020. The estimated start date of this project is October 2023, and it is estimated to be completed in August 2024.

Project Title: Construct New Airfield Lighting for Taxiway "D" – Construction

Project Description:

This project includes the construction of the airfield lighting required for the new Taxiway "D". The project consists of the installation of new elevated omnidirectional blue medium intensity LED edge lights (including transformers), installed with concrete encased L-867 base cans; new lighted wind cone; and new Runway Guard lights. All L-824 unshielded #8 AWG 5kv stranded copper cable will be installed in 2" Schedule 40 PVC conduit in direct earth or concrete encased duct with #2 AWG solid copper counterpoise cable installed over conduit. The necessary airfield electrical vault modifications, as well as updates to the airfield lighting control system (ALCMS) will be made.

The lighting will be designed and constructed to FAA design standards per Advisory Circular 150/5340-18G "Standards for Airport Sign Systems".

The FAA issued a Federal Finding of No Significant Impact on this project's Environmental Assessment on February 3, 2020. The estimated start date of this project is October 2023, and it is estimated to be completed in August 2024.

Project Justification:

Per FAA Order 5100.38D, Table H-3 "Taxiway Project Requirements" a new taxiway can be constructed due to following justifications:

- (1) The taxiway referred to in the Project Description connects runways or taxiways eligible at PIE.
- (2) The taxiway will be constructed to FAA design standards, including proper access, shoulders, turf along edge of shoulders, sign, taxiway safety areas, marking, and lighting.

According to Appendix H. "Taxiway Projects" H-2. a. "Parallel and Partial Taxiway", a "partial parallel taxiway is also eligible if the runway is eligible and justified..." and d. "Other Taxiways", a "taxiway is a defined path for taxiing of aircraft from one point to another. Taxiways on, or connecting to, aprons available for use by the general public are eligible."

Project Funding:

Total Cost (100%)	FAA Share (84.4%)	State (7.8%)	Local (7.8%)
\$948,600	\$800,618	\$73,991	\$73,991

Type of Funding Proposed (FAA Share Only)			
Fund Type	Funds Available	Funds to be Used	Funds Remaining
P2022	\$	\$	\$
P2023	\$1,190,737	\$800,618	\$390,119
Total	\$1,190,737	\$800,618	\$390,119

Alternate Funding Plan: *Provide an alternate funding plan if discretionary funding is unavailable, such as a substitute entitlement only project, reduce scope through bid alternates, move the project out to a future year, etc.*

Project Cost Estimate Breakdown:

Construction	Cost (100%)	FAA (84.4%)
	\$948,600	\$800,618
	\$	\$
	Subtotal Amount	\$800,618

Total Estimated Project Cost (100%) \$14,160,000
 Total FAA Share Cost (84.4%) \$11,951,040

**NOTE: FAA does not participate on allowances / contingencies. By FAA policy, a line item for estimated administrative costs can be included in the grant application if the sponsor cannot accurately calculate the total administrative costs. However, these estimated administrative costs must not exceed 2% of the grant amount or \$10,000, whichever is less.*

Project #3: Construct New Airfield Lighting Taxiway "D" – Construction
PROPOSED PROJECT SCHEDULE

<u>Proposed Project Schedule:</u>	<u>Dates:</u>
Selection of Consultant	12/7/2021
Pre-Application Submittal to FAA ADO Planner	10/31/2022
Pre-design Conference	12/7/2021
CSPP and Airspace Coordination in iOE/AAA ¹	5/7/2022
Completion of Plans, Specifications and Engineers Report	8/5/2022
Submit Plans and Specs to FAA ²	8/12/2022
Advertisement of Project for Bids	4/7/2023
Bid Opening	5/18/2023
Bid Tabulation Submittal and Recommendation of Award	5/26/2023
Application Submittal to FAA ADO Engineer	6/16/2023
Grant Offer	9/15/2023
Execution of FAA Grant	9/30/2023
Pre-construction Conference	11/6/2023
Notice to Proceed to Contractor ³	11/6/2023
Substantial Completion of Construction	8/9/2024
Final Inspection	9/6/2024
Project Close-Out ⁴	10/31/2024

= To be coordinated with the ADO Engineer prior to grant application submittal.

¹ Coordination of CSPP and airspace in iOE/AAA shall be completed / determined before grant application submittal. Refer to CSPP SOP 1.00 for CSPP project applicability requirements.

² For any construction grants, Plans / Specs & the Engineers Report must be submitted to the ADO PM for review and approval prior to bid advertisement in accordance with 2 CFR 200. Sponsor will be responsible for removing / prorating all non-AIP eligible bid items identified prior to grant execution.

³ Once all contract documents have been executed, the sponsor will issue a notice to proceed to the contractor. The sponsor must send a copy of the notice to proceed to the ADO PM.

⁴ Project shall remain on schedule as shown above. Note that closeout of an AIP grant must not exceed four (4) years after grant execution date. You may refer to the AIP Handbook - Chapter 5, Section 8, Grant Closeout for additional details.

Project No. 4: Detailed Project Information Sheet

Airport Improvement Program (AIP)

Airport : St. Pete-Clearwater International Airport (PIE)
 City, ST: Clearwater, Florida
 DUNS / TAX ID No. EUI #R37RMC73XKG1
 SAM Expiration Date: December 5, 2023
 Project Title: Construct New Airfield Lighting for Relocated Taxiway Connector "G3" – Construction

Project Description:

This project includes the construction of the airfield lighting required for the relocated Taxiway Connector "G3". The project consists of the installation of new elevated omnidirectional blue medium intensity LED edge lights (including transformers), installed with concrete encased L-867 base cans; new lighted wind cone; and new Runway Guard lights. All L-824 unshielded #8 AWG 5kv stranded copper cable will be installed in 2" Schedule 40 PVC conduit in direct earth or concrete encased duct with #2 AWG solid copper counterpoise cable installed over conduit. The necessary airfield electrical vault modifications, as well as updates to the airfield lighting control system (ALCMS) will be made.

The lighting will be designed and constructed to FAA design standards per Advisory Circular 150/5340-18G "Standards for Airport Sign Systems".

The FAA issued a Federal Finding of No Significant Impact on this project's Environmental Assessment on February 3, 2020. The estimated start date of this project is October 2023, and it is estimated to be completed in August 2024.

Project Justification:

Per FAA Order 5100.38D, Table H-3 "Taxiway Project Requirements" a new taxiway can be constructed due to following justifications:

- (1) The taxiway referred to in the Project Description connects runways or taxiways eligible at PIE.
- (2) The taxiway will be constructed to FAA design standards, including proper access, shoulders, turf along edge of shoulders, sign, taxiway safety areas, marking, and lighting.

According to Appendix H. "Taxiway Projects" H-2. a. "Parallel and Partial Taxiway", a "partial parallel taxiway is also eligible if the runway is eligible and justified..." and d. "Other Taxiways", a "taxiway is a defined path for taxiing of aircraft from one point to another. Taxiways on, or connecting to, aprons available for use by the general public are eligible."

Was this project in the airport's Capital Improvement Plan (CIP) in JACIP and accepted as eligible/justified in the FAA's Airport Capital Improvement Plan (ACIP)?
