Topic	Petition to Vacate 60 ft right of way space between Florida and Georgia Ave in Palm Harbor lying in section 1-28-15
BCC Agenda Date	10-25-2022
Your Stand on the Issue	Undecided
Comments	Please leave a min 8ft wide easement between the properties to allow for pedestrian and golf cart traffic between Florida Ave and Georgia Ave. Without this one must traverse the distance of three city blocks (to travel between Georgia and Florida Ave) as there is not a 17th or 18th street connecting the two in this location. To travel between Florida Ave and Georgia Ave one will need to use 19th St, or 16th St if the area in question is fully vacated. That distance is fine for a motorized vehicle but quite a distance on foot in what is considered a very walk-able community given the proximity to downtown. I have no position on the issue, just ask that an adequate easement not be vacated to maintain walk-ability and egress within the community.
