Dear Commissioner Gerard,

My business, family, and community can't afford new tax hikes at a time like this. As Pinellas County businesses and families struggle with the COVID-19 recession and now hyper inflation and all time high gas prices. I urge Pinellas County policymakers to oppose the a new gas tax in Pinellas County.

The gas tax threatens to destroy hundreds of businesses and thousands of jobs and force Pinellas County residents and visitors to pay as much as \$0.12 more for every gallon of gas they buy. Research shows this tax could cost the average family in the region an additional \$254 every year - the equivalent of a month's worth of groceries for a low-income family!

I urge the Pinellas County Commission to stop new tax increases that threaten our economy and jobs. Stop the gas tax increase!

Sincerely,

Virginia Frizzle

Dear Commissioner Gerard,

You raised property taxes during a pandemic. After you put people out of work. You have 31 million just setting there use that money. Stop asking for more money from the residents. We are trying to recover from Financial loss due to you shutting us down. Also. Put the money back that you took from the money for roads to build a building. You keep spending money that does not belong to you. If the residents have to do without thing because you stopped us from working. Then the county had to do without too.

My business, family, and community can't afford new tax hikes at a time like this. As Pinellas County businesses and families struggle with the COVID-19 recession and now hyper inflation and all time high gas prices.
