Comments

I hope you extend the Pinellas County Mask Mandate until our positivity rates are consistently below 5%. Masks are important to protect our citizens, particularly those who work with the public. As far as the argument that we'd reach herd immunity faster if we didn't wear masks—isn't that argument really "the more people get sick, the better off we are"?

Comments

As a healthcare professional I would appreciate the mask mandate stay in place until the overall positively rate for the state decline. Pinellas is not an island and I have heard patients who are opposed to wearing a mask say that they are going to stay in other counties where there is no mandate. If Pinellas takes away the mandate we will get an influx of non mask wearing people and our Covid numbers will rise. Thank you for your service and support for this mandate. Nancy Guarino
