# **Executive Summary**

# Message from JWB Chief Executive Officer Beth A. Houghton

In Pinellas County, children are 16% of our population and 100% of our future, yet a number of conditions may hinder them from realizing their fullest potential. For more than 75 years, the Juvenile Welfare Board of Pinellas County (JWB) has been committed to making children a priority, advocating for their best interests and investing to improve their futures.

JWB is a countywide special taxing district established by a Special Act of the Florida Legislature and governed by an 11-member Board. JWB's FY21-FY25 Strategic Plan is the framework that guides our work and investments to ensure children are ready to learn, ready to succeed, and ready to thrive in homes, schools, and neighborhoods that are healthy and safe.

In FY24, JWB's annual impact budget of \$126 million strengthened the lives of more than 70,000 children and families through 100 quality programs operated by 53 nonprofit agencies. We also work strategically and collectively with partners to address complex issues facing our county's children to include childhood

hunger, early childhood development, children's mental health, grade-level reading, and preventable child deaths. These campaigns, initiatives, and collaborations allow us to serve tens of thousands more through prevention efforts. All investments and work are focused on JWB's six strategic result areas: Early Childhood Development, School Readiness, School Success, Prevention of Child Abuse and Neglect, Strengthening Community, and Organizational Capacity.

Mental health challenges confronting youth continue at crisis-levels, compounded by increases in digital, social media, and screentime use, and the waning of healthy human connections. In 2021, the U.S. Surgeon General issued its first-ever youth mental health advisory, followed by a second in 2023 warning of the ties between youth mental health and social media. Families continue to struggle to meet basic needs amid inflation, high population growth, and double-digit rent increases, while struggling to put nutritious meals on the table due to rising food costs – especially during the summer months when children aren't in school to receive subsidized breakfasts and lunches. Exacerbating this is a loss of federal funds, initiated during COVID, that provided additional summer support to families receiving Supplemental Nutrition Assistance Program (SNAP) benefits, which assisted families in closing the hunger gap for their children.

JWB's funded agencies have experienced record workforce shortages that are directly impacting the delivery of quality services to children and their families. Specifically, there is a monumental need for high-quality early education and care for families of birth-to-three children. There are also well-documented economic and societal gains for investing early. For every dollar invested in high-quality early education and child development there is a measurable return of \$16.

All of these factors have been taken into consideration while developing the Juvenile Welfare Board FY25 Budget, which reflects the following year-over-year changes:

- As property values continue to rise and, in an effort, to reduce our fund balance, JWB is adopting an FY25 Budget that includes a prudent decision to maintain the lower millage rate of 0.8250, as adopted last year. This decision follows the JWB Board voting to reduce the millage rate for the previous two years first from 0.8981 to 0.8508 in FY23 and then down further to 0.8250 in FY24, which was the second time in 35 years that the millage rate was reduced for two consecutive years.
- Enhancements of \$7.98M to the FY25 Children and Families Program Budget for the further implementation of JWB's FY21-25 Strategic Plan:
  - \$5.1 for non-recurring capital and technology expenditures of JWB funded programs, as a prudent strategy to spend down fund balance while ensuring current tax dollars are invested for today's children and families;
  - o Increased investments for JWB's Children's Mental Health Initiative for future programming, training, community workshops, and technology that will require subject matter experts/consultants;
  - Enhancements to the JWB Turbo Babies early childhood public awareness campaign to increase reach and engage more parents and caregivers, grow strategic partnerships, and fund one additional full-time position to support campaign scale-up;
  - o Program support funds for a new full-time position to support JWB's leadership of and participation in the Pinellas Community Alliance, keeping abreast of best practices, research, and prevention strategies, while also identifying and addressing gaps;
  - Annualized funds for Rapid Relocation Housing (RRH) with two providers and a new Quality Early Learning Initiative (QELI) site located in Clearwater, as approved by the JWB Board in FY24;
  - o Enhanced funding to support three new Promise Time Out of School Time program sites;
  - Program support funds for a new full-time position dedicated to support and expand the
     Preventable Child Deaths and Sleep Baby Safely campaigns;
  - \$2.4M for FY25 funding opportunities approved for 16 JWB funded programs; these increases are to address other funding losses, expansion of services, increased costs, staffing, or enhancement of current services;
  - \$415,000 in new and expanded programs to be used to complete the implementation of JWB's FY21-FY25 Strategic Plan, primarily for the expansion of capacity of high-quality childcare for children 0-3 in areas of historically low opportunity and in partnership with the Early Learning Coalition; and
  - \$1.8M for program cost of living adjustments of JWB's funded programs, as informed by the local (Tampa – St. Petersburg – Clearwater) Over-the-Year Consumer Price Index for Urban Consumers from March 2024.

Enhancements to the FY25 Administrative Budget for three additional JWB staff positions to support new programs, campaigns, and initiatives, plus a 3.7% cost of living adjustment to maintain an adequate compensation system and that links to the local (Tampa – St. Petersburg – Clearwater) Over-the-Year Consumer Price Index for Urban Consumers from March 2024. All of this while maintaining an administrative rate well within Board guidelines of under 10 percent.

JWB's annual investments strengthen children and families, which ultimately makes our communities stronger. Now more than ever, we are committed to making children a priority with a vision that all will have an equitable opportunity to fulfill their potential and achieve meaningful and purposeful lives.

# **Budget Overview**

The FY25 Budget totals \$162.56 million, an increase of \$4.5 million (2.9%) above the FY24 Amended Budget. The major source of this increase is property tax revenue proposed to be levied. The FY25 property tax collection rate is budgeted at 97%, in alignment with the historical actual collection rate, resulting in \$108.3 million for budgeted ad valorem revenue, an increase of \$9.2 million from FY24.

The other main source of revenue resources is the beginning fund balance, budgeted at \$51.6 million, a decrease of \$4.7 million from FY24. Beginning fund balance reflects the amount of revenue remaining after all expenditures have been paid in the prior fiscal year. The beginning fund balance is part of the total resources available, in addition to the current year's revenue, to fund the annual budget.

The above bar graph depicts historical and forecasted budgeted ad valorem revenue and beginning fund balance. The beginning fund balance is separated out to reflect the portion that is required to meet the Board's fund balance policy to maintain three months (25 percent) of expenditures compared to the remaining fund balance that the Board is targeting to spend down over the forecast period(s). In FY25, the budgeted remaining beginning fund balance is reduced from FY24 by \$6.4 million to \$18.3 million.

In FY25, the total expenditure budget of \$133.2 million proposes to use \$9.2 million increase in property tax revenue to fund a net \$6.8 million increase in total expenditures over the FY24 amended budget. The remaining \$2.4 million of increased property tax revenue is needed to fund 1) an additional \$1.7 million to meet the Board's Fund Balance requirement of at least three months of operating expenditures, and 2) \$700,000 to support programmatic increases that were approved by the Board during FY24, after the original budget was adopted.

Below is a summary of some of the significant changes that have been incorporated into the FY25 Budget representing the annual implementation of JWB's FY21-25 Strategic Plan, though the following items are by no means exhaustive.

# **Budgetary Basis**

The "basis of accounting" and "basis of budgeting" determine when revenues and expenditures are recognized for the purposes of financial reporting and budget control. The Juvenile Welfare Board uses **modified accrual** for both the basis of budgeting and the basis of accounting. Under modified accrual, revenue is recognized when measurable and available. Revenues are considered available when they are collected within the current period or within sixty days after year end. Expenditures are recorded when the fund liability is incurred, except for compensated absences that are recognized when due. However, there are certain differences between the financial statements and the way the budget is prepared, which are as follows:

- Expenditures for Statutory Fees are budgeted as non-administration while in the financial statements they are offset against the related property tax revenues.
- Depreciation and amortization are not included in budgetary statements since these do not use spendable resources.
- Prepaid items reflect costs applicable to future accounting periods and are recorded using the consumption method.

CHILDREN'S MENTAL HEALTH INITIATIVE	\$ 281,316		806,316 Professional development and training for both clinical and non-clinical staff (e.g., The REACH Institute for additional pediatricians, and a 'booster' for those who have already been trained). Future programming and expansion of initiative (this may include but is not limited to integrating mental health and support services into an out-of-school time program, or neighborhood family center, or efforts specific to self-injurious behaviors such as an eating disorder, etc.); Community Events and Workshops to increase public awareness while educating parents/caregivers, professionals, and youth about establishing healthy relationships as well as resources that are available locally. Technology enhancements and exploration of Medicaid funding and billing protocols which will require subject matter experts/consultants. CMHI may also want to support efforts relevant to the Optimal Data Set (ODS) after gaining a better understanding of access to services for children and their families. An agreement with the Kids Mental Health Foundation's (KMHF) added annual funds of \$25k for the mental wellness Intellectual Property that we could distribute in a variety of ways to our Out of School Time providers in Pinellas County. # **FY25 Budget Process**

JWB's budgetary process is governed by Florida Statutes, specifically Chapters 189 and 200. Chapter 189 sets forth specific requirements for the form and content of special district budgets and their execution and amendment. Chapter 200 details the Truth in Millage (TRIM) requirements for adoption of local government ad valorem millage rates and the process and timeline to keep citizens informed.

The Juvenile Welfare Board Act Chapter 2003-320 specifies that on or before July 1st of each year, JWB shall prepare and adopt an annual written budget of its expected income and expenditures, including a contingency fund. Included in each certified budget shall be an estimate of the millage rate necessary to be applied to raise the funds budgeted for expenditures.

An outline of JWB's budget process, including the requirements set forth in Florida Statutes and JWB's Act, is provided below:

# **Glossary**

### **Ad Valorem Tax**

Also, Property Tax. A tax levied in proportion to the value of the property against which it is levied.

### **Administration Budget**

The Administration Budget includes appropriations for recurring and certain one-time expenditures that will be consumed in a fixed period of time to provide for day-to-day administrative operations (e.g., salaries and related benefits; operating supplies; contractual and maintenance services; professional services, and software).

### Administrative Cost

Expense incurred in controlling and directing an organization, but not directly identifiable with program services. Salaries of senior executives and costs of general services (such as accounting) fall under this heading.
