State your background, including your education, work experience, civic or community organization memberships and positions, and any professional licenses or memberships, and explain how this applies to the function of the board, council or committee: *	<p>I believe my education and work experience make me an ideal candidate for the Suncoast Health Council. I recently graduated from the University of South Florida with a doctorate of philosophy in medical science with a concentration in cardiovascular physiology. My thesis research was focused around cardiovascular health and disease with an emphasis on heart disease and arrhythmia. Currently as a post-doctoral research fellow within the USF College of Pharmacy I am investigating the role of diabetes and cardiomyopathy. Based upon my educational training and work experience I found it awe-inspiring that in 2015 heart disease was one of the single greatest causes of death in Pinellas County, along with over 35% of its residents overweight. Living in Pinellas County for over 15 years this is both shocking and rather alarming for our county. Because of my academic experiences I feel confident in my abilities to analyze health care data, identify health care needs and work with community partners to respond to these health care needs. During my graduate training I was fortunate to serve in multiple leadership roles including president of the Graduate and Professional Student Council, in addition to vice-chairman of the USF Sports Club Council. While both positions had different set goals the mission of community engagement and interdisciplinary cooperation was always present. The Sports Club Council required strong leadership and strategic planning to allocate over \$200,000 in funding to 40 different clubs whose sum request was over \$1.1 million. The Graduate and Professional Student Council required strong advocacy for graduate students grant money and recognition by interacting with multiple USF personnel including student government, faculty, and administrators. I believe with my education and work experience along with my community involvement I bring a unique understanding to the role of a consumer member and look forward to the opportunity to make Pinellas a healthy and happier county.</p>
