### Live Form

Topic	Senior and 55+ Vulnerable Population
BCC Agenda Date	7-16-2020
Your Stand on the Issue	Support <p>State of ER is at an all time high and the most vulnerable populations stands to suffer from inadequate planning and response. ChenMed (Miami, Fl) has, and is expanding, under <a href="http://www.Dedicated.care">www.Dedicated.care</a> into areas of the neediest populations for people aged 55+ (seniors), particularly on Medicare. We are proud to actuate procedures to ensure continued access to seniors in need during the crises and beyond. We are proud to introduce Dr. Junior Macias as our acting Chief Medical Officer for Pinellas County. He was Chief of Geriatric Fellows at the VA with origins as General Surgeon (Endocrinology - Laparascopy) in Cuba, to lead this areas' PCPs. We would love to share our contributions to the community.</p>
