Comments I believe the county commissioners before their vote. Need to know how the 500 families that will be affected by this multi story building 270 families 400 autos will affect them both private property value And travel. The commission also will need to know the present day traffic on Pine Street and Trotter Street today's versus what it will be. Most people living south of 8th Ave., Southwest to get to Ulmerton Road will drive south on Pine Street and or Trotter to 134th TA BO.
