#### EXHIBIT I

### GMP AMENDMENT TO AGREEMENT BETWEEN OWNER AND CONSTRUCTION MANAGER AT RISK

### AMENDMENT NO. 1 TO AGREEMENT BETWEEN OWNER AND CONSTRUCTION MANAGER AT RISK FOR CONSTRUCTION MANAGER AT RISK FOR JAIL SECURITY AND ENTRY CENTER AGREEMENT NO. 21-0704-NC

Pursuant to Sections 2.2 6.1, and 6.2 of the Agreement, dated March 8, 2022, between The County Commissioners of Pinellas County, Florida ("Owner") and Creative Contractors, Inc. ("Construction Manager at Risk"), with respect to the construction of the Owner's Construction Manager at Risk for Jail Security and Entry Center ("Project"), the Owner and Construction Manager at Risk hereby agree to amend and modify the Agreement by this Amendment and establish a Guaranteed Maximum Price and Contract Time for all the Work as set forth below:

### ARTICLE 1

#### **SCOPE OF WORK**

The scope of the Work consists of the construction of a Jail Security and Entry Center,

In accordance with the Agreement, this Amendment and the other Contract Documents listed as attachments1 through 7 below, which are hereby incorporated into and made a part of the Amendment by this reference:

Attachment No.	Description	Pages	Date
1.	List of Drawings & Specifications	61 through 74	7/1/2024
2.	Allowances	24 through 25	7/1/2024
3.	Clarifications & Exclusions	47 through 61	7/1/2024
4.	Completion Schedule	34 through 41	7/1/2024
5.	Schedule of Values	6 through 9	7/1/2024
6.	List of Itemized General Conditions	20 through 23	7/1/2024
7.	List of Subcontractors & Major Suppliers	SEC Bidder List	7/1//2024

### ARTICLE 2

### **GUARANTEED MAXIMUM PRICE**

Construction Manager at Risk Guaranteed Maximum Price (GMP) for the Work, including the estimated

2.1

Cost of the Work as defined in Section 5 of the Agreement and Construction Manager at Risk Fee as defined in Section 4 of the Agreement, is Twenty-three million three hundred ten thousand eight hundred sixty-three dollars (\$23,310,863.00).

2.2 The GMP includes material that may be purchased directly by the Owner ("Owner Direct Purchases").

The estimated value of materials that may be purchased directly by the Owner is Two million five hundred thousand dollars (\$2,500,000.00). Construction Manager at Risk will include in the total amount of GMP under this Agreement for the entire estimated amount of Owner Direct Purchases, inclusive of sales taxes. Prior to final payment, a final reconciliation of the Owner Direct Purchases against the GMP will be performed and such reconciliation will be prepared for the Owner's review and approval.

2.3 The Construction Manager at Risk Fee (5.5%) for the entire Work anticipated on this Project is hereby

established as a lump sum amount of One million one hundred fifty-nine thousand nine hundred twenty-seven dollars (\$1,159,927.00), said lump sum amount is included within the above noted GMP.

2.4 The General conditions expenses for the entire Work anticipated on this Project are hereby established as a lump sum amount of One million nine hundred and two thousand fifty-six dollars (\$1,902,056.00), said lump sum amount is included within the above noted GMP. The items included as General Conditions expenses are listed in the List of Itemized General Conditions attached hereto and incorporated herein as Attachment No. 6. Except as said lump sum amount for General Conditions expenses may be expressly adjusted by Change Order or Construction Change Directive, Construction Manager at Risk acknowledges and agrees that Owner shall have no liability for any General Conditions expenses beyond payment of the above noted lump sum amount and Construction Manager at Risk agrees that it shall not be entitled to receive any additional compensation from Owner for the General Conditions beyond the above lump sum amount.

2.5 Monthly installment payment of the Construction Manager at Risk Fee shall be based upon the percent completion of the designated portion of the Work for each particular month. General Conditions are Lump Sum and shall be prorated and billed per month. Total GC's divided per months of construction and billed the same each month.

2.6 In order to efficiently and timely address any unknown or unanticipated conditions that are within the scope

of the required Work and are otherwise reimbursable without duplication as a Cost of the Work, but excluding all items that are to be reimbursed under the lump sum General conditions expense amount noted in paragraph 2.4 above, the parties have agreed to establish an Owner's contingency within the GMP in an amount not-to-exceed amount Eight hundred ninety-four thousand seven hundred eighteen dollars (\$894,718.00). Contingency funds shall be used to cover costs that may result from incomplete design and unanticipated costs that arise during construction that are not identified by the construction documents. Construction Manager at Risk shall not proceed with any portion of the Work which it intends to charge against this contingency without first obtaining Owner's express written authorization to proceed. The Construction Manager at Risk acknowledges and agrees that any work which is to be charged against the contingency allowance that does not receive such prior written approval from the Owner shall be deemed to be a part of Construction Manager at Risk basic Work compensated within the GMP and not chargeable against the Owner's Contingency Allowance. Further, any contingency remaining at the end of the job will be credited from the GMP. Construction Manager at Risk has no entitlement to any portion of any unused contingency. It is acknowledged that this is not a "line item" GMP. It is an overall fixed price GMP. Buyout savings are for the sole use of the construction manager.

2.7 The parties have agreed to establish an allowance within the GMP in the amount of Two million two hundred forty-six thousand eight hundred fifty-three dollars (\$2,246,853.00). Construction Manager at Risk shall not proceed with any portion of the Work associated with the aforesaid allowance ("Allowance Work") without first obtaining Owner's express written authorization to proceed with said Allowance Work. Allowance Amounts are reflected in Attachment 2.

2.8 Pursuant to Exhibit A, Paragraph 12.4 of the Agreement, if, at the time final payment is made to Construction Manager at Risk, the total Cost of the Work has been increased by approved Change Orders in an amount causing the original GMP as set forth in this Amendment to be exceeded by more than (\$1.00), then Construction Manager at Risk shall be entitled to an increase in the Construction Manager at Risk Fee in the amount of five and ½ percent (5.5%) shall be applied to any costs of more than one dollar (\$1.00) which exceeds the original GMP amount.

2.9 Construction Manager at Risk recognizes that this Contract includes work for trench excavation in excess of five feet deep. Construction Manager at Risk acknowledges the requirements set forth in Section 553.63 of the Florida Statutes titled Trench Safety Act. Construction Manager at Risk certifies that the required trench safety standards will be in effect during the period of construction of the Project and Construction Manager at Risk agrees to comply with all such required trench safety standards.

2.9.1 Construction Manager at Risk will abide by all requirements set forth in Section 553.63 of the Trench Safety Act.

2.10 Construction Manager at Risk is responsible, without reimbursement from Owner, for re-inspection fees and costs; to the extent such re-inspections are due to the fault or neglect of Construction Manager at Risk.

### ARTICLE 3

### CONTRACT TIME

3.1 The Construction Phase Commencement Date for the Work will be the date on which all permits necessary to the commencement of the work have been received, and the Owner has issued a Notice to Proceed to the Construction Manager at Risk. The total period of time beginning with the Construction Phase Commencement Date through the date required for Substantial Completion of the Work is seven hundred fifty-eight consecutive calendar days (758) days ("Contract Time").

3.2 Pursuant to this Agreement, the parties have established a liquidated damage rate for reasons stated therein, which the parties acknowledge and agree apply to this Amendment and Construction Manager at Risk responsibility to complete the Work within the Contract Time as stated herein. Accordingly, the liquidated damage rate established in this Agreement shall be assessed from Construction Manager at Risk for each calendar day Construction Manager at Risk fails to achieve Substantial Completion for the Designated Work within the Contract Time.

### ARTICLE 4

#### MISCELLANEOUS

4.1 Except as expressly modified herein, the terms and conditions of the Agreement remain unchanged. In the event of a conflict between the terms of this Amendment and those of the Agreement, Owner and Construction Manager at Risk agree that the terms of this Amendment shall prevail and control.

4.2 Paragraph 2.2.3 of the Agreement is amended to read "The cost of the Work shall be the cost for a "turnkey" project delivery and shall include the Construction Manager at Risk contingency, not to exceed 4%. Construction Manager has use of Contingency. The use of "Construction Manager's Contingency" shall be documented in writing through written correspondence (including email) with the Owner. Allocations shall be reflected monthly within a Construction Manager's Contingency Log."

4.3 The Order of precedence in section 9.2.2 is replaced with the following:

- 1. Change Orders
- 2. Exhibit "I" Guaranteed Maximum Price Amendment
- 3. Supplemental Conditions
- 4. General Terms and Conditions
- 5. The Agreement
- 6. The Specifications

- 7. Large Scale Details and Schedules
- 8. The Drawings

4.4 Section 11.5.2 is amended to include the following additional language: "As an alternative to the above subcontractor bond requirement, Contractor is required to maintain coverage under subcontractor default insurance (SDI) policy with limits of \$10,000,000 per occurrence, and \$20,000,000 aggregate. The SDI deductible must not exceed \$750,000 and the co-payment must not exceed 10% up to a max of \$10,000,000. as stated in Exhibit I.

4.5 Section 13.3 of Exhibit "A" General Conditions is amended to include the following information:

If to the Owner: Timothy E Lewallen Interim Director of Construction Services Services509 East Avenue South Clearwater, Florida 33756

With a copy to: Larry Dickie, Project Manager Construction Services 509 East Avenue South Clearwater, Florida 33756

If to the Construction Manager at Risk: Joshua M. Bornstein President, Creative Contractors, Inc. 101 Creative Way Clearwater, FL 33759

4.6 Retainage will be paid at the end of each of the three (3) construction phases (Phase1 North Parking Lot, Phase 2 New Vehicle Entry Building, Phase 3 Primary SEC Building and parking) when all punch list items are completed, and the owner can occupy the phased portion of the work.

4.7 At final Owner Change Order any remaining funds in any Contingency or Allowance will revert to the Owner's account, including the corresponding Contractor's fee reimbursement.

# Pinellas County Jail SEC Guaranteed Maximum Price

May 24, 2024 revised July 1, 2024

### Creative Contractors, Inc. Pinellas County Pinellas County SEC GMP Executive Project Summary May 24, 2024 revised July 1, 2024

Attn: Larry Dickie, AIA, CPC Project Manager, Building Design and Construction 509 East Avenue South Clearwater, FI 33756

RE: Guaranteed Maximum Price

Larry,

Creative Contractors, Inc is pleased to present the Guaranteed Maximum Price (GMP) for the Pinellas County SEC Project.

This project is a new one-story 10,653 SF control building and a new guard house and entry located on Pinellas County Jail Campus. This includes a multiphase site logistics strategy which must be completed before the construction of the Secure Entrance Center building and Guard House.

Phased construction is anticipated to take approximately 25 months.

The enclosed GMP is based on 100% Permit / GMP Documents and Specifications prepared by Williamson Design Associates dated 2/2/24. The attached GMP is inclusive of Addendum #1, #2, #3, and the attached project qualifications, clarifications, and assumptions.

Sincerely,

in Carini

Chief Estimator

# Tab 3 Scope Increases

### Pinellas County Jail SEC May 24, 2024 revised July 1, 2024

### Scope Increases

Item #	DESCRIPTION	AMOUNT	NOTES
1	Sitework - Additional Phases	\$ 375,433	<ul> <li>Site logistics that has been further refined from the 50% CD budget.</li> <li>1. Current site logistics plan has us clearing trees at the entrance to the temporary road. The previous one did not have this included.</li> <li>2. The temporary road is larger. This will result in modifications that will need to make to our construction office, parking, and staging area that will make it smaller.</li> <li>3. Tree clearing will be required for the temporary guardshack scope of work. This was not included previusly.</li> <li>4. Due to the fact that phasing is not formally shown on on the plans, it is CCIs belief that subcontractors have priced the phasing accordingly to mitigate risk due to a lack of design information. We received 3 bids with a close spread.</li> </ul>
2	Concrete	\$ 102,015	Sheet S2.1 contains a footing schedule. Between the 50% CDs and the 100% CDs, the size of several of the strip and spread footings have increased.
3	Masonry	\$ 153,624	Inclusion of a fully grouted recessed ledge per 1 / S4.1. Additionally, sheets A2.4 and A2.5 provided more detail on the pattern required for the CMU veneer. This pattern is very labor intensive and resulted in increased costs. Due to this pattern, Masonry Builders, who previously budgeted the project, declined to bid the project
4	Light Pole Bases	\$ 91,000	Added CIP light pole bases in lieu of direct burial
5	Curtain Wall Support Steel	\$ 6,250	Curtain wall support steel will now be required
6	OH Door - Series 640 Rolling Fire Counter Doors	\$ 15,000	Added 2 overhead fire shutters
7	Black Stainless Steel Woven Cable Mesh	\$ 15,000	Added a woven cable mesh over the reception desk
8	Site Logistics Light Pole Demolition / Reinstallation	\$ 81,000	Demo of 12 light poles as a result of the new site logistics plan. These were not included in the previous site logistics plan.
9	DAS System - Cell Phone	\$ 50,000	Added a distributed antenna system for cellular service
10	Duke Energy Vault / Feeder Relocation		Duke Energy scope was by owner in previous budgets
11	Duke Energy Power Meter / Pull Box Removal		Duke Energy scope was by owner in previous budgets
12	Duke Energy Light Pole Removal / Relocation		Duke Energy scope was by owner in previous budgets
13	Tapered Monopole Tower w/ Foundations		Added a 45' tapered monopole tower
14	Installation of Owner Supplied Monopole Tower Equipment		Added installation of owner supplied equipment to the 45' tapered monopole tower
15	Materials Testing	\$ 75,000	Materials testing was previously by owner
	BTS / PCSO IT Allowance		An allowance for BTS / PCSO IT was not carried in our 50% CD budget
17	Owner Contingency	\$ 894,718	Owner contingency was not included in our 50% CD budget

Total Scope Increases \$ 2,688,236

w/ Overhead \$ 3,046,939

Tab 8 RFI Log

# Pinellas County Jail SEC - GMP

# **Clearwater, FL** 4/24/2024 10:25

RFI Question No.	RFI Date	Bid Package	RFI Question	Response from A/E / Owner	RFI Response Date	Status	BD&C Acknowledgement
1	2/13/2024	Detention	<ul> <li>Previous iterations of the design featured detention drawings (DT0.1, DT1.1, and DT1.2). However, it appears they are no longer in the project.</li> <li>1) Please confirm they have been removed from the project</li> <li>2) Please confirm that all relevant information previously contained in them has been incorporated into the architectural</li> </ul>	The sheets have been removed and the data folded into the rest of the set	3/7/2024	Closed	03/07/24
2	2/14/2024	Firestopping	The MEPF specifications make several mentions of a division 07 "Penetration Firestopping" specification section. Please confirm that this specification is not included in the specification book.	There are fire rated walls, so firestopping will be required - specification section to be added at addendum.	2/19/2024	Closed	02/20/24
3	2/14/2024	Firestopping	Please confirm that a single source penetration firestopping subcontractor is not required.	All fire rated walls will require fire stopping of all penetrations. Owner is not concerned with each sub seeing penetrations or single responsibility. Owner requirement is every penetration must have identification sticker, with UL designation, firm and person sealing the penetration, date, etc Larry Dickie	2/19/2024	Closed	02/22/24
4	2/14/2024	General	There is a specification section 01 81 13.13 "Sustainable Design Requirements - LEED for New Construction and Major Renovations #2200-05". Please confirm that this project has no LEED requirements.	Actually obtaining a LEED certification is not required; however, we need verification the Project meets at a minimum al requirements for a "certified" rating Larry Dickie	2/19/2024	Closed	02/22/24
5	2/14/2024	General	Note: A2.4, A2.5, A3.4, and A4.1 are missing from the drawing index.	Updated index to be delivered with the first addendum	2/19/2024	Closed	02/20/24
6	2/14/2024	HVAC	Civil sheet C-401 shows the chilled water piping being run to the north further east than on sheet M1.0. Please confirm that sheet M1.0 shows the correct route.	Line adjusted in civil drawings - M1.0 to control		Closed	03/07/24
7	2/14/2024	Landscaping	The accepted temporary guard shack plan showed us removing all trees on the south side of the site in order to build a sidewalk. Sheet LA-1 shows tree barricades around these trees. Please confirm that it is still acceptable to remove these trees.	We have not seen a final, accepted plan and have not issued any drawings for one, so the current design documents do not reflect any of the potential temp work. Once we have an approved plan, we can work on any documentation required. Site bidders include removal of all trees - KP	2/19/2024	Closed	02/20/24
8	2/14/2024	Waterproofing	Please confirm that the fluid applied membrane air barrier described in specification section 07 27 26 Fluid Applied Membrane Air Barriers are only required for the metal wall and soffit and not the CMU veneer.	The fluid applied membrane is behind the CMU veneer on the 8" block wall face in the cavity.	2/19/2024	Closed	02/20/24
9	2/14/2024	Waterproofing	Please confirm if any damproofing is required in this project.	Damproofing is not required - we have the fluid applied membrane as our air barrier and water proofing membrane everywhere. There will be a waterproofing membrane required at the bermed earth wall - this area needs additional details and will be added in the addendum Dampproofing to be excluded - KP 4.24.24	2/19/2024	Closed	
10	2/14/2024	Waterproofing	Specification section 09 90 00 Painting and Coatings is calling for a 40% silane water repellent on the outside of the CMU veneer. Please confirm that this is required.	Silane Waterproofing to be priced as an alternate - Larry Dickie	2/19/2024	Closed	02/20/24

<b>RFI Question No.</b>	RFI Date	Bid Package	RFI Question	Response from A/E / Owner	RFI Response Date	Status	BD&C Acknowledgement
11	2/14/2024	Masonry	The floor plan on A1.1 appears to show the wall on the east entrance highlighted below as CMU veneer. However, the exterior elevation details on A2.4 do not show a pattern in this area. Please provide clarification on this wall.	It is CMU veneer, all one color. That color also intends into the interior block on the west wall of the restrooms. Will clarify in the addendum drawings.	2/19/2024	Closed	
							02/20/24
12	2/14/2024	Masonry	Sheet S2.1 has a "ballistic wall" and a "high security wall" called for on the wall key with a note calling to "coordinate w/ arch. drawings". Please clarify where on the architectural drawings these wall types need to be coordinated and if the locations are any different than what is shown on S2.1.	The wall types shown are as detailed in the structural drawings - there is nothing to coordinate in the architectural drawings other than any openings show in those walls, which should be covered in the security drawings and detention opening information.	2/19/2024	Closed	02/20/24
13	2/14/2024	Canopy	Is there a specification for the cantilevered aluminum canopy called out as 10 73 00.W1 on A1.4?	Will add 10 73 00 specification for aluminum canopies - it's a basic cantilevered aluminum canopy from a walkway manufacturer, like Peachtree.	2/19/2024	Closed	02/20/24
14	2/20/2024	Glass	Please provide a frame elevation / glass elevation for CW9 frame found on the west elevation	Added to drawings		Closed	03/07/24
15	2/20/2024	Glass	The glass tint for glass types GL1 and GL2 do not match the tint for SG3A. Is this correct? Or, should they match tint?	SG3A to match attached cutsheet. Note: Detention glass will still appear darker, even without a tint due to the overall thickness.	3/7/2024	Closed	03/07/24
16	2/20/2024	Glass	Door #7.03 is an aluminum door with aluminum frame but also as a "DF" and detention frame. None of the other aluminum door are so indicated. Is this an aluminum door/fr or a detention door/fr? What hardware group does this door belong to	This is not a detention door	3/7/2024	Closed	03/12/24

<b>RFI Question No.</b>	RFI Date	Bid Package	RFI Question	Response from A/E / Owner
19	2/20/2024	Acoustical Wall Panels	The drawings are calling for an AWP-01 and AWP-02. Please confirm that AWP-02 is the second item specified below in section 09 84 00.         1.       AWP-01: thick Acoustic Wall Panels: AVL Systems, 5540 Southwest 6 <sup>th</sup> Place, Ocala, Florida 34474. Tel: 1-800-228-7842, www.avlonline.com. Other acceptable manufacturers <ul> <li>a. Wenger</li> <li>b. Kinetics</li> <li>c. Acoustical Resources</li> <li>d. Conwed</li> <li>e. WhisperWall</li> </ul> 2.         Pyramidal Sound Diffusing Wall and Ceiling Panels: AVL Systems, 5540 Southwest 6 <sup>th</sup> Place, Ocala, Florida 34474. Tel: 1-800-228-7842           Other acceptable manufacturers         a. Wenger               b. Kinetics             c. Acoustical Resources               c. Orala, Florida 34474. Tel: 1-800-228-7842               Other acceptable manufacturers               a. Wenger               b. Kinetics               c. Acoustical Resources               a. Wenger               b. Kinetics               c. Acoustical Resources               d. Conwed               b. Kinetics               c. Acoustical Resources               d. Conwed	The two AWP designations are for color - see I5.4. The pyramidal panel is not used.
20	2/20/2024	Electrical	Note 6 on sheet T1.1 calls for a round tapered 45' monopole tower. Is there any additional information on this tower and what it is going to be used for?	There is no further information - it will be a delegated design by the tower manufacturer/installer. This is a radio tower for the owner to mount antennas. Antenna mounts, antennas, and cables for other radios not indicated in contract documents will be by owner. Additional information provided by WDA on 4/24/24 - KP
21	2/20/2024	Electrical	On sheet T0.2, all new technology conduits get inner duct in them. On sheet T0.3, all conduits are shown to be existing and will get new cabling/fiber in them. Do these conduits already have innerduct in them, or if not, will it be required (not called out to be added)?	Add a 3 cell maxcell outdoor innerduct to existing raceways for running new cables
22	2/22/2024	Glass	<ul> <li>See RFI received from a glass bidder:</li> <li>Although the makeup for each type of glass is listed, they were unable to find references to performance such as "level 3" or other performance such as test to be preformed etc.</li> <li>Please have the Design Professional provide the following additional information:</li> <li>#1 – ballistic threat level to be meet</li> <li>#2 – UL testing requirements</li> <li>#3 – Where the listed composition came from i.e. Kuraray, a security glass fabricator, or some other source.</li> </ul>	The glazing called out is a proprietary make-up that matches the glazing provided at the entry pavilion for the CJC fabricated by Smartguard - see updated sheet with designation
23	2/22/2024	Civil	Please provide which "WM" are domestic / porable and which are fire water mains	WMs have been labeled on C-401

# Tab 11 Qualifications, Clarifications, and Assumptions

The following qualifications are submitted as an attachment to the Guaranteed Maximum Price (GMP) proposal and shall be incorporated into any agreement between the Owner and Creative Contractors, Inc. Where conflicts exist between language in this qualifications, assumptions and clarifications document, the Agreement (and Addendums), and the Contract Documents, this qualifications, assumptions, and clarifications document shall govern.

### Section 01 – General Qualifications

- 1-1. Basis of GMP
  - a) *Plans* prepared by Williamson Design Associates dated 2/2/2024 and titled "PINELLAS COUNTY JAIL SEC".
  - b) *Specifications* prepared by Williamson Design Associates dated 2/2/2024 and titled "Pinellas County Sheriff's Office Jail Secure Entry Center".
  - c) A Drawings, specifications, and documents List is included in this GMP Report. This drawing and specifications log is a record of the latest issued revision and its corresponding date only.
  - d) Currently, we have received 37 out of 37 RFI responses to Preconstruction RFIs and these are included in the GMP.
  - e) We have received 3 addenda and these are included in the GMP. Addendum #1 is dated 3/11/24, Addendum #2 is dated 3/18/2024, and Addendum #3 is dated 5/8/24.
  - f) Substitutions have been included in pricing this scope of work and are further detailed by these qualifications. The following list includes, but is not limited to, all of the pure substitutions detailed in these qualifications. Some qualifications include items that are the result of the drawings and specifications conflicting. These items are not included on this list.
    - i. Curtainwall / storefront / glass / aluminum doors
    - ii. Fluid applied waterproofing
  - g) The Owner and Architect shall provide electronic files to the CM upon request and execution of the proper release at no additional cost to the CM.
  - h) The CM will provide red-line As-Builts for Final Record Documents to the Owner/Architect in .pdf format. We do not include any electronic, CAD, or Revit As-Builts as part of our work scope.
  - i) Total retainage may be reduced from 5% to 2.5% when construction has reached 50% completion as long as the project is on schedule and has no issues.
  - j) Buy out shall be complete within 120 calendar days from the NTP.
  - k) As indicated in the contract, unspent allowances are returned to the owner.
- 1-2. GMP Amount
  - a) It is understood and agreed that the Construction Manager will buyout and award all subcontracts within 120 calendar days from the Notice to Proceed. However, due to the current volatility in materials and labor pricing and escalation, Construction Manager reserves the right to review and adjust pricing provided by bidding subcontractors and material suppliers. If the

cost of the work increases, or there are pricing increases between the date of the GMP submittal and the date materials are released to the job site, the cost increases shall be funded by the Construction Manager's Contingency until it is depleted, then funded from the Owner's Contingency or unused Allowances.

- 1-3. Insurance and Bonds
  - a) A Performance and Payment bond has been included.
  - b) All Risk or Builder's Risk shall be by Contractor. An allowance has been provided for this on the summary page of the GMP.
    - i. All deductibles to be paid by the Construction Manager's Contingency.
  - c) General Liability, Excess General Liability, Workmen's Compensation and Automobile Liability Insurance is included in the GMP.
  - d) Professional liability and pollution liability insurance is included.
  - e) In Lieu of Subcontractor Payment and Performance Bonds, Construction Subcontractor Default Insurance (SDI) Program will be provided at a cost of 1.25% of the Cost of the Work. Construction Manager is solely responsible to pay, or otherwise satisfy, the deductibles applicable to the SDI Policy. This rate charged is a negotiated amount, in accordance with Construction Manager's accepted proposal, and is not subject to audit.
- 1-4. Building Permit Application and fees:
  - a) Application and review fees are by Contractor. An allowance of \$155,870 has been included for this.
  - b) Permit fees are by Contractor. These will be funded by the previous allowance.
  - c) Stormwater Plan (SWFWMD) Permit and fees by Owner.
  - d) Utility Deposits and meter/connection fees are by Owner.
  - e) Inspection fees are by Owner.
  - f) Threshold Inspections are by Owner.
  - g) Any other fees required by the local and/or state health department, or any other regulatory agency or AHJ are by Owner.
- 1-5. Project Schedule
  - a) The project includes 758 calendar days for a construction duration from a Notice to Proceed and receipt of required permits. The included schedule is to be amended upon receipt of building permit.
    - i. The Owner shall execute a Notice to Proceed for early Procurement separately from the NTP for construction. The construction start date, and not the start of procurement operations, shall be the basis of the project "start". In any case, construction shall not commence any earlier than receipt of all required permits, executed contract

amendment, and Owner's written Notice to Proceed for construction. Once these are all received then construction will be 758 calendar days.

- ii. Our scheduled duration is based on a continuous, uninterrupted performance of the work, unless noted in our schedule for procurement of material and equipment.
- iii. CCI's estimated total exposure for the procurement of submittals on early procurement items (site electric light poles, precast storm structures, and security fencing) is estimated to be \$15,000. We will require a PO from Pinellas County before beginning procurement of any submittals.
- b) Working hours are scheduled as Monday through Friday, 7:00 a.m. to 3:30 p.m. Saturdays may be used for make-up days due to weather.
- c) We do not include a cost-loaded schedule or cost correlation timeline.
- d) We have included (10) working days total processing time for most submittals needing review by either architect, architect's consultant, or both, or owner.
- e) 2 weeks have been included for owner move in once substantial completion has been achieved.
- 1-6. Hazardous Materials:
  - a) Removal of any hazardous materials encountered during work and/or not identified by the Contract Documents is specifically excluded from this GMP.
- 1-7. Existing Utilities and Location Confirmation:
  - a) We include uncovering and documenting locations of existing utilities only as required to install our new work. We do not include utility confirmation, record drawings, or as-builts of all existing to remain utilities on the site.
- 1-8. Testing, Inspection, and Monitoring:
  - a) We do not include any Pinellas County, municipality, or third-party inspection service fees, to include any associated overtime, premium time, or weekend inspection fees. These fees shall be paid directly by the Owner.
  - b) All materials testing shall be by the Contractor. An allowance of \$75,000 has been included for this.
  - c) All Threshold inspection services shall be by the Owner.
- 1-9. Costs for changes to the work, if necessary, associated with Permit Review, Owner, or other Authorities Having Jurisdiction (AHJ) comments and/or changes shall be funded by owner contingency or via change order to the contract.
- 1-10. Delegated Design:
  - a) This GMP assumes all work depicted in the Contract Documents complies with all codes, ordinances, and regulations per all Authorities Having Jurisdiction (AHJ) and does not include

any provisions for corrective work to the Contract Documents. Any corrective work required as a result of non-compliant design will result in an appropriate change in the contract amount and time of the Contract.

- b) Where delegated design is noted in the Contract Documents, it is assumed the Owner's Design Professional(s) have performed and incorporated any necessary design into the Contract Documents.
- 1-11. Domestic Manufacture:
  - a) All materials shall be procured from sources common to their specific trade. Where materials are specified by acceptable manufacturer, source of materials shall be as commonly provided by that manufacturer and/or supplier. We do not include domestic origin for all products, materials, and/or assemblies. These materials will all be subject to project specifications, submittals, and approvals by architect and engineer.
- 1-12. We acknowledge the Owner's desire to participate in a Direct Order Purchase (DPO) program to realize sales tax savings due to the Owner's tax-exempt status. DPO's will be processed on single vendor material amounts \$5,000.00 and greater only. Note: Not all vendors participate in DPO programs, specifically, but not limited to site contractor's earthwork and paving materials), elevators, joists manufacturers (steel and concrete), casework or custom wood fabricators, etc. At this time, we are unable to provide a list and value of the total amount of DPOs
- 1-13. Mitigation Measures: We are not in receipt of any specific mitigation measures or environmental surveys or assessments outside of the subject project and have not included costs for such mitigation in this GMP.
- 1-14. Where references to allowances are made, please refer to the Schedule of Allowances for dollar amounts included.

### Section 02 – Work Scope Clarifications

- 2-1. General
  - a. An owners contingency of 5% of the cost of work has been included in addition to the 4% construction / design contingency.
  - b. An allowance of \$100,000 has been included for sheriff escorts.
  - c. A project phasing plan has been included as part of this GMP. All work shown on this plan has been included as part of the GMP. Any additional work not shown on the project documents, or this phasing plan is excluded.
  - d. An allowance of \$25,000 has been included for utility relocation. This is for utilities other than Duke.

e. Background checks of all employees and workers are per the following received from Larry Dickie on 4/11/24:

<u>Creative Contractors (CCI)</u>, this is consistent with our previous discussions, with all large work areas are phased and are not inside security fenced areas; as such, regular construction works, delivery drivers, etc., can come and go, as on any normal CCI construction project, following rules established by the Contractor. As discussed before; please remember anytime, anyone needs to go behind the Security Fence/Gate or into a Building on the Jail; they will be required to have passed a security clearance, received training, been issued a security badge, and escorted by PCSO off duty Sherriff Deputies.

- 2-2. Selective Demolition:
  - a. The existing foundations to be demolished are assumed to have standard shallow strip and spread footings. Any demolition of deep foundations are excluded.
- 2-3. Site Work:
  - a. On the northern side of our project site there is a fire hydrant not shown on the project documents. This fire hydrant is located where our new road is going. An allowance of \$7,500 has been included for this.
  - b. An allowance of \$178,374 has been included for the temporary road shown on the phasing plan. The following is and is not included in this allowance:
    - i. Clearing required for 12,928 square yards of road is included.
    - ii. 12,928 square yards of asphalt paving is included. Paving to consist of 1 ½" "SP-9.5" on 6" crushed concrete road base on 12" compacted subgrade (98% mod)
    - iii. Any required striping and signage is included.
    - iv. Demolition of 12,928 square yards of road is included.
    - v. Restoration of existing conditions is included.
    - vi. Storm drainage is not included.
    - vii. Curbs are not included.
  - c. An allowance of \$118,289 has been included for any sitework included with the temporary guard shack shown on the phasing plan. The following is included.
    - i. 100 square yards of paving to widen the road. Paving to consist of 1 ½" "SP-9.5" on 6" crushed concrete road base on 12" compacted subgrade (98% mod)
    - ii. 115' of new type D curbs
    - iii. 2,000 square feet of 4" thick unreinforced sidewalks.
    - iv. New crosswalks per the temporary phasing plan.
    - v. Relocation / modification of 1 curb inlet.
  - d. Sheets C-101 and C-102 provide the locations of several construction entrances. These entrances are excluded. All construction entrances will be per the site phasing plan included as part of this GMP.

### Creative Contractors, Inc. Pinellas County Jail SEC GMP Qualifications, Assumptions & Clarifications

May 24, 2024 revised July 1, 2024

### 2-4. Landscaping & Irrigation:

- a. The owner remains responsible for maintenance of landscaping until CCI takes possession of each phase. Maintenance is included for 30 days post-substantial completion of phase 1, 1.5, 2, and 3B. Maintenance is per specification section 32 92 50 Plants. Any maintenance beyond this is excluded.
- b. All landscaping is per the plant schedule on sheet LA-2.
- c. Sheet LA-1 has a section describing exotic pest plant removal. Any work relating to the section below and exotic pest plant removal in general is excluded.

### EXOTIC PEST PLANT REMOVAL

ALL TIER I EXOTICS REQUIRE REMOVAL PRIOR TO CO. ALL INVASIVE EXOTIC SPECIES SUCH AS BRAZILIAN PEPPER, CHINESE TALLOW, AND PUNK TREES, MUST BE REMOVED FROM THE SITE, EXOTIC TREES AND SHRUES SHALL BE CUT FLUSH WITH FINISH ØRADE. RESULTING STUMPS SHALL BE TREATED WITH AN APPROVED HERBICIDE. CONTRACTOR SHALL TREAT CUT STUMPS WITH ØRALON 3A, TROOPER, OR RODEO HERBICIDE TO THE CAMBIUM LAYER, AS PER MANUFACTURER'S INSTRUCTIONS, AT THE RECOMMENDED STRENGTH TO PREVENT RE-GROWTH, APPLY HERBICIDE IMMEDIATELY AFTER TRUNKS ARE CUT TO PREVENT SAP FROM SEALING WOUNDS, REMOVE ALL WASTE MATERIALS PRODUCED BY THIS WORK FROM THE SITE AND DISPOSE OF THEM IN A LEGAL MANNER.

### 2-5. Fencing:

- a. The phasing plan included with the GMP indicates the extent of the temporary fencing for this project. An allowance of \$209,408 has been included for this.
- b. The southernmost fence shown on A0.6 states: "new fence to match existing adjacent fence". This fence is assumed to be 12' security fencing.
- c. Detail 5 on sheet A0.8 details the Ty metal Heavy Duty Cantilever Slide Gate. However, no height is given for it. We have included 12' tall gates.
- 3-1. Concrete / Masonry:
  - a. Standard 1 color grout is included for all CMU.
  - b. Specification section 03 35 13 calls for an Iso-Flex 628 concrete sealer. The finish schedule on sheet I5.4 calls for a Sherwin Williams Armor Seal concrete sealer. Specification section 09 90 00 Paintings and Coatings 21L call for an H&C Solvent Based Concrete Stain. We have included the Sherwin Williams Armor Seal concrete sealer.
- 5-1. Structural & Miscellaneous Steel / Railings:
  - a. Curtainwall support steel has been included at the front entrance of the building per Addendum #3.
  - b. Sheet S4.2 calls for a galvanized roof access ladder. Sheet A2,1 keynote 07 72 00W.1 calls for an aluminum ladder at the same location. All roof ladders are included as aluminum.
  - c. No additional support steel that is not already shown on the drawings has been included for the high security ceiling.
  - d. General note 8 on sheet S1.1 details 3 structural allowances for this project. We have included an allowance of \$108,000 for these items.

### Creative Contractors, Inc. Pinellas County Jail SEC GMP Qualifications, Assumptions & Clarifications

### May 24, 2024 revised July 1, 2024

- i. \$60,500 of this allowance is for 50 yards of \$4,000 PSI structural concrete
- ii. \$10,500 of this allowance is for 5 tons of reinforced steel
- iii. \$37,500 of this allowance of for 5 tons of structural steel framing
- 6-1. Casework and Finish Carpentry:
  - a. An allowance of \$10,500 has been included for the desk shown on 3 / A1.6.
  - b. General note 11 on sheet I1.1 mentions science lab counters. Any science lab casework and counters are excluded.
  - c. Sheet I2.2 is calling for SS-02 solid surface for the countertops in Control Room 08.321. However, Sheet I2.2 elevation 7 and 8 is calling for SS-01 quartz. SS-01 quartz has been included.
  - d. Sheet I1.2 is calling for SS-01 quartz for the countertop at the reception counter. Sheet I3.1 calls for a solid surface. SS-01 quartz has been included.
- 7-1. Roofing:
  - a. Parapet coping is per Addendum #3.
- 7-2. Metal Panels:
  - a. The finish on metal panels is per Addendum #3.
- 7-3. Waterproofing / Fireproofing:
  - b. Sheet A3.3 and A3.4 mention a liquid applied class 1 vapor retarder (07 27 26A.1).
     Specification section 07 27 26 Fluid Applied Membrane Air Barriers calls for either a Perm-A-Barrier or an Enershield. However, we have included a Carlisle Barritech NP weather barrier. It will be installed on all CMU veneer walls.
  - c. Sheet A3.3 and A3.4 mention vapor permeable waterproofing (07 27 26.A2) Per specification section 07 27 10 Air / vapor Barrier. a Carlisle CCW-705 Weather Barrier has been included. It will be installed under all metal panels.
  - d. None of the above fluid applied waterproofing above has been included at the stucco soffits.
  - e. Detail 5 on sheet A4.1 calls for heavy duty planter waterproofing at 5/A4.1. However, no specification has been provided for this item. Therefore, a Carlisle MiraSeal system with a Carlisle MiraDrain Mat has been included for this system.
  - f. Sheet A4.1 calls for rubberized asphalt flashing. However, no specification was provided. Therefore, Carlisle 860 has been included for this product.
  - g. Bituminous Dampproofing is excluded.
- 8-1. Doors/Frames/Hardware:

- a. Door openings 6.05, 7.03, 7.13A, 7.13B, 7.01A, 7.01B, 7.01C, and 7.01D are shown to be electronic on SE1.1 with REX and RDR. However, the hardware schedule on A5.3 does not list any electronic hardware for these openings. Per Addendum 3, we are including an allowance of \$20,000 for electric strikes at these doors.
- b. Door openings 7.01, 7.01B, 7.01C, and 7.01D do not show a card reader for entrance into the building on the drawings. Therefore, card readers are not included.

### 8-2. Overhead Coiling Doors:

 a. Sheet A2.2 elevations 1 and 2 show security grilles for the overhead door at the sallyport. However, specification section 08 33 23 Overhead Coiling Doors mentions Raynor, DuraCoil as the basis-of-design. This overhead coiling door does not contain grilles and is insulated. Overhead Doors Series 670 is what is used elsewhere at the facility for the sallyports. Therefore, that is what we have included in the GMP for the two sallyport overhead doors.

The above sized 670 series rolling door(s) as manufactured by the Overhead Door Corporation. Door standard features to include the following: Curtain will be fabricated of horizontal 5/16" diameter aluminum rods spaced vertically 2" center maximum and a network of vertically interlocking links spaced horizontally 9" on center. Bottom bar will be an extruded aluminum tubular shape. Guides will be extruded aluminum shapes with continuous silicon treated wool-pile strips or PVC inserts. Brackets will be minimum 3/16" thick steel plate to support the barrel and counterbalance. Counterbalance will be helical torsion springs housed in a steel pipe with a deflection limited to .03" per foot of span (width) and adjustable means of an external tension wheel.

 Elevation 23 on sheet I2.2 mentions coiling fire shutters. However, no specification is provided for the specific ones required in the drawings or in specification section 08 33 23 Overhead Coiling Doors. Therefore, Overhead Doors series 640 rolling fire doors have been included.

The above sized 640 series rolling fire counter door(s) as manufactured by the Overhead Door Corporation. Door standard features to include the following: Curtain slats will be galvanized painted steel. Endlocks will be attached to the slats to maintain curtain alignment. Guides will be roll-formed shapes of painted steel. Brackets will be steel plate to support the curtain, counterbalance and hood. Counterbalance will be helical torsion springs housed in a steel pipe barrel with a deflection limited to .03" per foot of span (width). Hood will be galvanized painted steel with thermally controlled internal flame baffle. Curtain and hood will be galvanized steel per ASTM A 525 standards and will receive a rust inhibitive, roll-coating process including bonderizing baked on prime paint to be .2 mils thick, and baked on polyester top coat to be .6 mils thick. Automatic close will be thermally controlled by means of fusible links at 165 degrees. Rolling fire counter doors will bear 3 hour label for location, as listed and will be manufactured in strict accordance with the requirements of UL listed procedure or FM approved procedures and will bear their label.

### 8-3. Storefront, Glass, Glazing:

### Creative Contractors, Inc. Pinellas County Jail SEC GMP Qualifications, Assumptions & Clarifications

May 24, 2024 revised July 1, 2024

- a. SF-1, SF-2, and SF-6 were shown on sheet A5.1 to receive glass type SG3A. Glass type SG3A is a detention glass which cannot go in an aluminum storefront frame. Therefore, SF-1, SF-2, and SF-3 were included as a curtainwall system with GL-2.
- b. The exterior curtain wall was included as follows. It will match the custom system made by Countryside glass used at the Pinellas County Courts project with the exception of it being 10 year clear anodized in lieu of painted. **Therefore, the 10-year anodized finish is included.** 
  - i. USAD 1000 level 3 clear anodized 77" X 87" doors and frames glazed with Lev-3 AG 1.56 LS at 7.01A and 7.01B. USBP hardware included: Rockwood BF-15B pull handle satin ss US32D-630 finish; DH-78000015 416 AL Closer with drop plate; V.D. QEL 98 NL-OP panic devices Satin US 32D or 630; ABH A270 Hinges; USBP PT R01 power transfer standard; Arrow 16RCR27 rim cylinder US26D Satin Chrome cylinder with core for master keying by others; USBP threshold; all other hardware provided by others. Installed in CW 1 300 OG level E wall with custom wall adaption for Level 3 Ballistic infill at noted on sheet A5.1 dated 2-10-23.
  - USAD 1000 level 3 clear anodized 41" X 96" doors and frames glazed with Lev 3 GCP-1250 at 7.13A and 7.13B. USBP hardware included: Rockwood BF-15B pull handle satin ss US32D-630 finish; DH-78000015 416 AL Closer with drop plate; V.D. QEL 98 NL-OP panic devices Satin US 32D or 630; ABH A270 Hinges; USBP PT R01 power transfer standard; Arrow 16RCR27 rim cylinder US26D Satin Chrome cylinder with core for master keying by others; USBP threshold; all other hardware provided by others. Installed in CW 5 and 7 300 OG level E wall with custom wall adaption for Level 3 Ballistic infill at noted on sheet A5.1 dated 2-10-23.
- c. The interior curtain wall system was included as follows. It will match the system used by Countryside Glass at the Pinellas County Courts project with the exception of it being clear 10 year anodized in lieu of painted. **Therefore, the 10-year anodized finish is included.** 
  - i. YKK-AP 50D 6070 / 3070 non-impact doors and YHS 45 FI non-impact framing glazed with GL1-clear tempered insulated glass. Clear finish YKK-AP impact hardware included: three butts per door leaf; ms deadbolt lock per door leaf with exterior construction cylinder for master keying and cores provided by others; LCN series 4000 overhead surface mounted closers; 10" ADA compliant bottom door rail; and air resistant threshold.
- 9-1. Interior and Exterior Framing, Sheathing, and Finishing / Stucco:
  - a. N/A
- 9-2. Flooring:
  - a. An allowance of \$11,771 has been included for moisture mitigation. This will be applied at all soft flooring products. The product we are proposing is Divergent Adhesives DS-100 Universal Primer and Moisture Control.

- b. Stonhard Stonshield SLT 3MM Flagstone M has been included for the Epoxy Flooring EXY-01
- 9-3. Painting:
  - a. N/A
- 9-4. Ceilings:
  - The security ceiling that will be included will be a Gordan Standard Acoustical Exposed Cel Line Plank Ceiling System. This system will have 18" panels as shown in specification section 09 57 53 2.2A2 in lieu of the 24" panels shown on the finish schedule for SCS-01.
  - b. No plenum rated ceilings are included.
  - c. The ACT specified in 09 51 10 Acoustical Panel Ceilings is a Rockfon Koral SL 1100. The ACT specified in the finish schedule on sheet I5.4 is a USG Orion 75. The USG Orion 75 has been included for the ACT.

### 10-1. Specialties:

- a. An allowance of \$15,000 has been included for the supply and installation of the inmate fund kiosk
- b. EQ-18 Vending Machine is excluded
- c. CCI will be supplying and installing 1 x-ray baggage scanners and 1 magnetometers. The xray baggage scanners we have included are Autoclear Model #6040DVS and the mangnetometers are CEIA USA SMD600 Plus Magnetometers
- d. CCI has included the relocation of 1 x-ray baggage scanner and 1 magnetometer. It is assumed that these are already located on the same campus.
- e. Item EQ-14 ATM is shown on sheet I3.3 as CF/CI. It is excluded.
- f. The safe is per Addendum 3. No alarm options have been included for it.
- g. Addendum 3 provided us with a signage schedule. However, we were informed by Environmental Graphics that it did not comply with ADA code. Therefore, at this time we will continue to carry an allowance of \$10,365.
- h. Specification section 10 14 00 Signs 2.1A calls for both Environmental Graphics and Stewart Signs as the preferred vendor. Environmental Graphics was included as the qualified low bidder in the GMP.
- i. Specification section 10 14 00 Signs 2.1C calls for an integrated LED programmable exterior sign assembly. Since this is not reflected anywhere else in the drawings, and is different from the monument signs shown. The integrated LED programmable exterior sign assembly is excluded.
- 12-1. Furnishings:
  - a. Sheet I1.3 shows a desk in secure corridor 08.335. This desk is not included in the furniture schedule, so an allowance of \$6,500 has been included for it.

- b. Walk Off Mats per specification section 12 48 10 are excluded. Walk off carpet will be per WOM-01 on sheet I5.4
- c. Final fabrics and finishes have not been chosen yet for the furniture package. Standard grade fabrics and finishes are included. Custom fabrics and finishes are excluded.
- 13-1. Detention:
  - a. Gun lockers are per Addendum #3.
  - b. Sheet I3.1 detail 6 is calling for a "black stainless steel woven cable mesh stretched over reception desk with a 1/16" diameter wire rope, 2" aperture."
- 15-1. Fire Protection:
  - a. Sheet FP0.0 Design Criteria details BIM requirements. These BIM requirements and any BIM requirements are excluded.

#### BIM REQUIREMENTS:

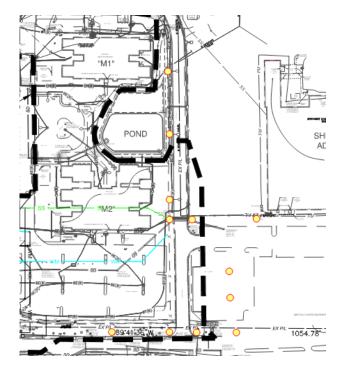

CONTRACTOR TO PRODUCE DESIGN IN REVIT BIM SOFTWARE. SCOPE INCLUDES MODEL COLLABORATION/COORDINATION WITH ARCHITECURE AND MEP THROUGHOUT CONSTRUCTION DOCUMENT PRODUCTION.

- 15-2. Plumbing:
  - a. N/A
- 15-3. HVAC:
  - a. Commissioning is by Contractor.

### 16-1. Electrical & Low Voltage:

- a. As part of the phasing plan, we will need to remove the existing gate to the loop road. An allowance of \$15,000 has been included for any electrical / data requirements involved in this.
- b. Sheet E0.2 is calling for the removal or relocation of electrical items associated with the building footprint. It is assumed that all of these items are shown on the civil demolition plans C-103 and C-104. Any work not shown on these drawings is excluded.
- c. An allowance of \$30,000 has been included to run new data and power to the temporary guard shack.
- d. Sheet T4.1 and T5.1 call for a distributed antenna system for cell phones and GPS. An allowance of \$50,000 has been included for this system.
- e. Sheet T4.1 and T5.1 call for a distributed antenna system for life safety. An allowance of \$75,000 has been included for this system.
- f. An allowance of \$81,000 has been included for the removal / replacement of light poles as part of the site logistics plan. These light poles have been preliminarily identified in these locations.

- g. Sheet E0.2 is calling for several Duke Energy items to be by others. However, per the owner's request, we are including these items as allowances. The following items shown on sheets C-103 and C-104 are included. Note that there is a strong possibility that Duke Energy will not contract directly with CCI.
  - i. An allowance of \$200,000 has been included for the Duke Energy Vault / Feeder relocation shown on note 17 sheet C-104.
  - ii. Note 8 on sheet C-104 calls for the existing meter and pull box to be removed. An allowance of \$50,000 has been included for this.
  - iii. Note 9 on sheet C-104 calls for "existing light poles to be removed, coordinate with utility company". An allowance of \$60,000 has been included for this.

- h. Note 6 on sheet T1.1 is calling for a "round tapered 45' monopole tower". An allowance of \$200,000 has been included for this. Foundations are included in this value.
- i. An allowance of \$45,000 has been included for the installation of owner supplied monopole tower equipment.
- j. An allowance of \$274,196 has been included for BTS / PCSO IT equipment
- 16-2. Electronic Safety and Security:
  - a. Complete raceway systems are only included in the secure areas.
  - b. An allowance of \$20,000 has been included for any necessary security system requirements at the relocated gate.
  - c. An allowance of \$15,000 has been included for CCTV at the temporary guardshack
