As a Veteran, I look to find peace where I live. Although the plans seem to be useful there are some concerns I have. Mainly about safety. There seems to be a homeless community that transits a lot through the trail, having a Park Ranger will benefit. On the other hand, making the walking path into a 2 way street concerns me especially when it'll be right next to the community playground where my small children play. With a 2 way street that may bring: that if not well secured can maybe cause accidents or damage to the property. The plan sounds good. just please watch for our peace & safety when finalizing this park. Also, would you consider adding a basketball court?

I was not fully aware of this rec park was given funding by our county commission. I am against a dog park and rec. field. There are other properties that can be acquired. I question the zoning from green space to rec. young child it freeze any attempt for building onto Duval Park for additional low income veterans here in Pinellas and elsewhere in the U.S. who plan to move here. Also we also plead for the state coexistence for peace and quiet and to preserve our natural fleeting flora and fauna. Article 2: Section 7.

I believe that the park will be a great asset to the entire community. It's always a pleasure to be able to utilize space. As a parent with children, having an extra space is always needed.

Everything looks good, I am a mother of 3 and this will be very beneficial for them to play and have fun. As I say I am a mother and one thing I look is security, we would like for this to be a safe place to go and when is closed to stay safe as well. Another concern is the parking lots close to the field and how to access to those parking because the road that will lead looks narrow for it, but besides that everything looks great! Maybe a basketball court will be good too. Keep it Safe!
