| clothing stores - trying on clothes | <p>THANK YOU FOR BEING LESS STRICT THAN SOME OTHER PLACES.</p> <p>I was so excited about the stores opening because I need hot weather clothing. I really really need some. Then I found I could not try them on. I NEED TO TRY CLOTHES ON BEFORE I BUY THEM.. They might not fit right.</p> <p>I know the ladies know what I mean.</p> <p>Can we please try them on. Unless everyone shopping is wearing gloves, the clothes and other things are already being touched with hands.</p> <p>Plus I feel so sorry for these poor shop owners and their landlords.</p> <p>PLEASE ALLOW TRYING ON OF CLOTHES.</p> <p>Carol Horton</p> | Carol Horton | 503 Mariva Ave | Clearwater | 33755 | 805-901-7575 | 07ch1956@gmail.com | 2020-05-25 12:45:45 |
| Great idea for Licensed Capacity | <p>Hello,</p> <p>Again, I thank you all for working to listen to our needs regarding capacity. I have a plan that would meet all needs. Safety is our utmost concern, but we need to stay in business and this is a logical plan: Whether we have 10, 15 or 20 classroom capacity, if we continue to keep them separated, sanitize, don't allow children to mix groups and keep adults out of our facilities, it won't matter the size of the classroom capacity. The ten or 15 capacity is senseless because they won't be mixing groups. Let us keep our licensed capacity so we can operate and stay in business. Low group sizes will put a lot of centers out of business.</p> <p>Thank you for your time.</p> <p>Jean Cavaliere Owner iDiscover Christian Academy, Inc.</p> | Jean Cavaliere | 6405 46TH AVE N | KENNETH CITY | 33709 | 7274226875 | idiscoverca@gmail.com | 2020-05-23 11:02:02 |
| Childcare restrictions | <p>Good morning. I want to thank you for reading this message and truly appreciate the feedback I have received when writing in the past. It is much appreciated and re-assuring during these times when we feel so unheard.</p> <p>I am the owner of a preschool and childcare center in Pinellas County (Tarpon Springs). We have been hoping and rallying for some help in expanding our capacities within our program to serve the families who need us. The Governor announced lifting restrictions yesterday and we truly had hoped that would apply to us as well. The current understanding is that it will not include us, and this has me worried and threatens our livelihood immensely. Let me take a moment to explain further.</p> <p>The capacity/group sizes of 10 people (including staff) has obviously been challenging for us as parents need care, and we want to provide. For my small-ish center specifically - we were caring for more than 70 kids before and can only help 18 now, (and 5 of those 18 belong to staff children - so essentially only 13 community children). I can understand the precautions and parents have been understanding and waiting for the time when the children can return. So, so far - it's not the best scenario - but we're making it work. I have seen some parents take to social media pleading for neighbors or strangers to care for their children, which has me concerned ...but this new order update may help them.</p> <p>The concern for US as childcare providers is that if "camps" are allowed to take the children, and our centers are not - parents will have no choice but to sign children up for these camps in order to return to work. This will directly take our business and money from our center's pocket for weeks (months) to come. Our center is more than 1/2 school age care, meaning that my almost 40 children will be enrolling into sports programs or whatever type camps are allowed to function without the restrictions that we have. So, if we do end up getting capacity back later, our clients will be enrolled elsewhere already, causing us to not be able to get back up and running once things are better.</p> <p>I have been content in all of this, knowing that we will be ok in a while and once we re-open, our families are waiting and will return - but this change of order has me more concerned as my customers may potentially be taken away as they have no other option. We must expand childcare center capacities AS we lift restrictions for camps in order to keep things fair and not damage the businesses that are critical for children year round!!!</p> | Tami Siben | 1030 Beaver Drive | Tarpon Springs | 34689 | 7272436900 | TamiSiben@yahoo.com | 2020-05-23 09:54:00 |

| HOA Pool opening | <p>Good morning, My name is Laura Merrill, I live in the Eastwood Townhome Association in Clearwater. I was given your name to contact regarding my Associations refusal to open up our pool. I have been in contact with the HOA President and the Ameri-Tech Management group who handles our association. Now they are refusing to discuss anymore regarding this.</p> <p>I have asked them for their guidelines, plan and opening date. All they give me is the cleaning that needs to be done. I suggested the residents who want to use the pool, to spray when arrive and leave. There are 56 units in our association and I know at least 5 families who use the pool. (which none of the board members use the pool so they don't seem to care if open or not). Pinellas County Sheriff has even opened up areas such as Putt Putt, Movie theaters and full access to beaches but we can't use our community pool. The Florida Governor has even stated that the best place to get exercise is the pool, the sun, heat and the chlorine kills the virus.</p> <p>Here the residents pay a HOA fee and a portion of that goes to cleaning and support of the pool and we can't even use it.</p> <p>Our pool is in same location as our mailboxes and since COVID 19, the gate to get into area and the mailboxes have not been cleaned but they are making a big deal about the pool.</p> <p>Please give me some guidance on what the next step is to get our pool open so that we can enjoy what we pay for.</p> <p>Thank you for your assistance Laura Merrill</p> | Laura Merrill | 1853 Pine Cone Cir | Clearwater | 33760 | 727.410.7767 | flabucki@gmail.com | 2020-05-22 06:16:21 |
| Information given to condos and their residents | <p>1.) When the county issued its first orders the police post yellow signs on our door listing the order and the requirements. That order has been changed but we have been told by the police and the help desk we can not remove the sign until the police do or we have a written order to do so. Our owners keep complaining to the office and board members that it needs to come down because the order title has changed. We need either corrected signs or be told to remove.</p> <p>2) Your help desk should not be giving legal advice and their opinions to our owners. If a person calls they should only inform them of the county requirements and state "that condo boards are governed by their documents which may allow them to make additional rules". It would be up to the courts to decided if a rule is unlawful not them. Also the sheriffs order on limiting access to the pool stated that condos had the right to have stricter rules then included in the order based on each condo situation.</p> <p>3) POOL ORDER There is a conflict between the order we received from the sheriff stating that the pool and pool areas is limited to half capacity. On your web site in "answer to pool questions" it says only in the pool and the area around it is unlimited. If this change has been made the order should be reissued and sent to everyone. You all need to be consistent in the way you issue and change orders and informing us.</p> <p>4) POOL ORDER ANSWERED QUESTIONS It uses the term family when stating who can be less then 6ft apart. That term is not specific enough for the average person to understand. Is the rule not that "people not currently living together must stay 6ft apart" or has that also change? And who do you consider not to be family????? My wife's father has been married 3 times. Who is in our our family and who is not????? or do I just get to pick and say everyone I know is part of my family. We have people claiming that now.</p> | MIKE BRUEWER President | 255 DOLPHIN PT OFFCE OFFICE | Clearwater Beach | 33767 | 7276001568 | MIKEBRUEWER@AOL.COM | 2020-05-22 10:39:59 |
| Interpretation of Daycare Group Size | <p>I heard that the Governor is lifting all children's activities throughout the State. It sounds as if this includes us, but will this also be under the Commissioner's interpretation of what he says? I've heard that the Commission may raise daycare capacities in the classroom, but we have to wait until your Thursday meeting. Can a meeting be held sooner? And if your Board determines that we cannot go back to our licensed capacity, PLEASE remember whatever you increase us to, we have to include two staff members in each room along with the children. So if you increase group size to 15, that will only mean 13 for us! This will not help very much.</p> <p>I'm asking that you PLEASE let us go back to our licensed capacity. The Governor said he trusts parents and teachers for the care of their children and has lifted the restrictions. Why then would you keep us under restriction?</p> <p>I'm really disappointed that I've been told all along that your Board is following Governor's orders, but in actuality you're not, otherwise you wouldn't make us wait until your next meeting so you can all interpret what he said. It's quite clear to me that the State has lifted restrictions.</p> <p>Jean Cavaliere Owner/IDiscover Christian Academy</p> | Jean Cavaliere | 6405 46TH AVE N | KENNETH CITY | 33709 | 7274226875 | idiscoverca@gmail.com | 2020-05-22 17:40:16 |
