I find that the mask ordinance has no miniscule scientific, if any. Independent studies from Denmark have already come out and said that, at best, masks are negligible. They are imposing on citizens freedoms. As well as the ability to proceed through life and society in a normal fashion. You are scaring children in schools, causing citizenry to view one another as bags of germs and MANDATING it whether in public or in businesses is against the Constitution and violates our civil liberties. You are breaking down the social fabric at no benefit and extraordinary cost.
