Requested for the following element(s):

- Design Speed Lane Widths Shoulder Widths Bridge Widths
- Structural Capacity Vertical Clearance Grades Cross Slope
- Superelevation Horizontal Alignment Vertical Alignment Stopping Sight Distance
- Horizontal Clearance Other Community Aesthetics Feature

Pinellas County Government ("County") proposes to design and install murals on the four (4) entryway walls at two tunnels along the Fred Marquis Pinellas Trail ("Pinellas Trail") located at Alt U.S. 19 in Palm Harbor and U.S. 19 in Tarpon Springs. The murals will be completed through the County's Local Arts Agency, Creative Pinellas. The County and Creative Pinellas have worked in partnership to lead the County's Graffiti Abatement Program since 2019, using art to deter vandalism on public infrastructure. The installation of a mural at each of the four named locations will decrease graffiti, beautify the community, and support Pinellas County as an art destination.
