Comments We the people of pinellas county who live in the neighborhood that will be effected of this proposal to add 272 apartments on the 18 acres on corner of Trotter and Pine St are NOT happy with the consideration to turn the area into multi story apartment buildings housing 272 more residents. We are tired of the mass development in this area. We are a quiet residential community. We already have enough riff raff living right outside of "rainbow village".

Your Stand on the Issue Oppose
