### Description & Comments

(What is it, any issues found, is there a financial impact to current/next FY, does this contract vary from previous FY, etc.)

These agreements authorize Pinellas County to retain Arcadis U.S., Inc., CDM Smith Inc., and HDR Engineering, Inc. to provide continuing professional engineering services for the Solid Waste Department's Waste-to-Energy Facility on an as-needed basis. Services include engineering design, operational and maintenance support, inspections, project management, and construction support through individually authorized work assignments, with each agreement having a maximum value of **\$7 million** over a five-year term and an optional two-year extension.

Funding for this contract is not fully represented in the FY26-31 Capital Improvement Plan or the FY26 Operating Budget because the contract establishes a not to exceed value, with obligation occurring upon issuance of work order assignments (purchase orders). Funding is determined by the individual work order assignment sourced to the agreement, and actual expenditures are contingent upon work completed. The Department may appropriate the full not-to-exceed amount or less.
