Your Stand on the Issue Support

Comments Filming locally brings in a large portion of income, not only to the crew involved, but to local businesses in the area. I have had first hand experience with that. Require and ensure this production stays local and families will be fed and local business will continue to be supported. These productions are critical to economic growth and should be viewed as such. Thank you for your consideration.

Comments	In these trying times, being able to provide substantial work opportunities falls on the shoulders of production companies like Digital Caviar. These opportunities are given to local lighting tech, wardrobe artists, accountants, chefs, citizens who can work as extras, and more. More over, the benefits of film making in our area extend to local eateries, shops, and hotels. Please support and pass this agenda item and help dozens get back to work.

Comments Digital Caviar is a great company with a track record of filming unique narrative content in the Tampa area. Local productions like this are very important to freelancers like me because they provide weeks of employment with a great crew.

Comments

There's an opportunity to develop a stable, long-term relationship with the film industry that hasn't existed in decades. Worries of covid, increasing tax burdens, and over-regulation have opened the door for other cities to win lucrative recurring film business. No big budget / high visibility projects, however, will choose to film here without our city first demonstrating that it can facilitate smaller project. Digital Caviar is a high caliber, home grown production company that's paid their dues and put in the hard work to tee our city up for the first of many significant wins. Let's not pass up this opportunity.

Topic Incentive funding for "A Taste of Love"

BCC Agenda Date 1-26-2021

Your Stand on the Issue Support

Comments Digital Caviar represents some of the finest film making has to offer in the greater Tampa Bay area. Supporting their film not only guarantees giving job to local filmmakers, but also ensures future work will come to the area. More work in the area is always better for the local economy - not to mention the level of prestige having these kind of projects around brings.
