Description & Comments

(What is it, any issues found, is there a financial impact to current/next FY, does this contract vary from previous FY, etc.)

This is for approval of the First Amendment to the Interlocal Agreement between Pinellas County and the National Pollutant Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) Co-Permittees for Water Quality Monitoring and Assessment program. The First Amendment to the Agreement is necessary for the County and NPDES MS4 co-permittees to continue to implement the program and cost-share the state-required Water Quality Monitoring and Assessment Program through December 31, 2030. The Amendment extends the terms and reiterates the cost-sharing structure.

The total program cost for FY25 for the County and co-permittees was \$674,770.41. A projected increase not to exceed 5.0% is incorporated for each consecutive year within the Amendment, with a total program cost for the County and co-permittees not to exceed amount of \$861,196.00. The total program cost amount is subject to change annually based on shifting state requirements. The County will be reimbursed 47.19% of program costs by the 21 co-permittees on an annual basis. Furthermore, the FDOT fixed contribution is \$40,000.00 per year.

The maximum 5% increase allowed each year:

Fiscal Year	Total Program Cost	County Share (47.19%)	FDOT Share	Municipality Share
