Fiscal Year(s)	FY24-27		

Description & Comments	
(What is it, any issues found, is there a financial impact to current/next FY, does this contract vary from previous FY, etc.)	
<p>The objective of this project is to replace or repair degraded steel components that support the Spray Dryer Absorber, Baghouse, and Baghouse Outlet Duct support steel and other support components to this system. Additionally, Fiberglass Reinforced Plastic materials applications are planned in areas exposed to more corrosive ambient conditions.</p> <p>Three bids were received, upon review of the qualifications of this project bid process it was determined that two of the bidders did not possess any experience working in an operating WTE power plant.</p> <p>All work to be completed within 1095 consecutive calendar days.</p> <p>Funding is budgeted under Waste to Energy Structural Steel Replacement of Baghouses, Baghouses Outlet Ducts, and SDA Units Project 005537A, included in the Capital Improvement Plan, funded by the Solid Waste Renewal and Replacement Fund in the amount of \$14,605,000 between FY24 and FY26.</p> <p>During the FY25 budget development process, the project's capital plan should be extended into FY27.</p>
