Executive Summary

Message from our Chief Executive Officer

The Juvenile Welfare Board of Pinellas County (JWB) is a countywide special taxing district established by a Special Act of the Florida Legislature and governed by an 11-member Board that guides citizen investments.

Last year, our Board adopted a five-year Strategic Plan that features a new key result area, Early Childhood Development, focused on children birth to three. This strategic framework guides our work and investments to ensure children are ready to learn, ready to succeed, and ready to thrive in homes, schools, and neighborhoods that are healthy and safe.

Operating amidst a global pandemic has taught us the importance of being responsive, nimble, and resilient. In response to the COVID crisis, JWB leveraged partnerships to connect resources; amended program budgets and deployed emergency funds to address urgent needs of families; maximized technology for remote work and service provision; and amassed timely, reliable data to guide decisions. We also streamlined procurement processes, upgraded accounting and program performance systems, and established a Legislative and Public Policy Consensus Platform that was adopted by our Board. The latter affords JWB Executive Leadership the latitude for timely engagement with public policy experts and elected leaders on a local, state, and federal level relevant to early childhood development, school readiness, and child nutrition/food security.

While we have made great strides, there is much more to be accomplished. Families continue to struggle with meeting basic needs of stable housing, nutritious food, and gainful employment. Children and their caregivers face unprecedented stress, anxiety, and other mental health issues. JWB providers have experienced workforce shortages, and many saw a spike in COVID-positive incidents during Summer 2021.

Although recent federal funding and proposed legislation such as rental assistance for eviction avoidance, increases in child tax credits and supplemental nutrition assistance (SNAP), and universal pre-kindergarten and early learning appear promising, the extent and timing of their impact is still unknown. In addition, Florida voters recently approved a change to the state's minimum wage, which will gradually increase from the current \$8.65 an hour to \$15 an hour by September 2026. This may impact budgets of JWB funded agencies, as well as creating a fiscal cliff whereby working families may no longer qualify for benefits and services, such as child care.

All of these factors have been taken into consideration while developing JWB's FY22 Budget, which reflects the following year-over-year changes:

- A rise in total taxable value certified by the Pinellas County Property Appraiser, resulting in increased ad valorem revenues for JWB next year.
- Enhancements to the Preliminary FY22 Children and Family Programs Budget to include: cost of living adjustments (COLAs) for eligible JWB funded programs to maintain service levels and program quality, and to mitigate potential financial impact of Florida's minimum wage rate increase; enhancements to existing JWB funded programs for children's mental health, family support and stabilization, domestic violence, and children's literacy services; funding for future programming for the phase-in implementation of JWB's FY21-FY25 Strategic Plan; enhanced funding for non-recurring, non-operating and capital purchases to improve the administrative and service delivery infrastructure for Pinellas County child-serving agencies; and contingency funding to respond timely to emergency and time sensitive requests.
- Enhancements to the Preliminary FY22 Administrative Budget for additional JWB staff resources to implement new strategies and future programming investments for JWB's FY21-FY25 Strategic Plan, increasing full-time equivalent (FTE) positions and maintaining an administrative rate well within Board guidelines of under 10 percent.

In November 2021, JWB celebrates 75 years of investing in the lives and futures of Pinellas County children. Now more than ever, we are committed to making children a priority with a vision that all will have an equitable opportunity to fulfill their potential and achieve meaningful and purposeful lives.

Mission, Vision, & Values

MISSION:

The Juvenile Welfare Board invests in partnerships, innovation, and advocacy to strengthen Pinellas County children and families.

VISION:

All children in Pinellas County will have equitable opportunity to fulfill their potential and achieve meaningful and purposeful lives as a result of the efforts of JWB and its partners.

GUIDING VALUES:

We value every child. We want every child to be ready to learn, every child to succeed in school, and every child to be healthy and happy, every step of the way.

We embrace collaboration. We work as a team with residents of Pinellas County and community partners.

We are accountable and results-driven. We are careful stewards of the resources provided to us by the citizens of Pinellas County, and hold ourselves accountable for investing in programs and services that provide real help for young people and demonstrate effective and data-driven results.

We pursue innovation. We are not satisfied with the status quo. We use the latest research and professional knowledge to address the needs of Pinellas County children and families.

We value equity, diversity, and inclusion. We challenge ourselves to recognize and embrace opportunities to advance and sustain diversity, equity, and inclusion in our continuing investments, decision-making, and operating culture.

Strategic Goals & Strategies

The FY21-FY25 Strategic Plan was developed under the leadership of the JWB Board, JWB's Executive Team, and JWB consultant Dr. Barbara Morrison-Rodriguez and Dr. Mary Grace Duffy of Cambridge Hill Partners. Broad consultations were held with internal and external constituents, including focus groups with JWB's three Community Councils and interviews with community stakeholders. On July 29, 2020, a Strategic Planning Board Workshop was facilitated by St. Petersburg College's Collaborative Lab Team. Another opportunity for input included JWB's Children's Summit held in January 2020.

The Strategic Plan established six key result areas (formerly known as focus areas), along with their associated strategies and key success indicators. The strategic plan guides the work of the Board and staff and sets out a vision for our community, a mission for achieving this vision and the overarching goals and strategies that respond to the most pressing needs and issues for Pinellas County children and families. The overarching goals are focused on six strategic result areas – two of which are new: *Early Childhood Development* to reflect the critical importance of holistic development of children zero-to-three, and *Organizational Capacity* to reflect the necessity of a strong organization to implement JWB's mission and strategic plan. Strategic result areas and overarching goals include:

- **Early Childhood Development:** Children zero-to-three will meet appropriate physical, social, emotional, cognitive, and developmental milestones. In FY20, JWB programming served more than 2,000 children in this age group.
- **School Readiness:** Children served by JWB-funded School Readiness programs will enter kindergarten ready to learn.
- **School Success:** Children served by JWB-funded School Success programs will show improvement or maintain performance in grades, attendance, behavior, and promotion to the next grade level.
- **Prevention of Child Abuse and Neglect:** Children served by JWB-funded Prevention of Child Abuse and Neglect programs will grow up and thrive in safe and healthy environments.
- **Strengthening Community:** Children served by JWB-funded Strengthening Community programs will benefit from collective neighborhood initiatives driven by community leaders.
- **Organizational Capacity:** JWB will have a skilled and diverse workforce powered by robust technology to enhance the well-being of children and families.

Although the result areas can be viewed as individual themes and goals, they are often interrelated. JWB recognizes that the programs it funds often impact more than one result area and as such, beginning with the FY22 Budget, Children and Family Programs reflect each of the result areas impacted by each program. Additionally, the program types have been updated from FY21.

Budget Overview

The FY22 Budget totals \$128 million, an increase of \$14.3 million (12.6%) above the FY21 Amended Budget. A major source of this increase is property tax revenue that is projected to yield an additional \$5.5 million in property taxes proposed to be levied. The prior year’s property taxes were budgeted at a 95% collection rate, based upon a potential for COVID-19 to impact the tax collector’s collections that did not materialize. The FY22 property tax collection rate is budgeted at 97%, in alignment with the historical actual collection rate, resulting in a \$6.9 million increase in budgeted ad valorem revenue from FY21.

The other major source of increase in resources is the beginning fund balance, budgeted at \$42.6 million, an increase of \$7.9 million from the prior year. While these healthy cash reserves enabled JWB to respond to emergency community needs during the pandemic, the fund balance increased primarily due to many of JWB’s cost-reimbursement funded programs who experienced temporary closures, received Federal and State funds, and/or reductions in services, aligned with state and local safe-at-home ordinances and mandatory school closures, resulting in a higher than usual amount of lapsed funds. The FY22 budget proposes to use \$6.6 million of fund balance to balance the budget and spend down the fund balance which exceeds the Board’s target of 25% of expenditures.

Below is a summary of the strategic plan priorities that have been incorporated into the FY22 Budget, organized by result areas and program types.

TOTAL:	(\$7,291,569)	

Ending Fund Balance

Fund Balance is a term used to describe the net position of governmental funds calculated in accordance with Generally Accepted Accounting Principles (GAAP) or on a budgetary basis. In essence, fund balance serves as a measure of the financial resources available in the governmental fund representing the total amount accumulated from prior years. It is essential that JWB maintain adequate levels of fund balance to mitigate current and future risks such as revenue shortfalls and unanticipated expenditures.

The FY22 Unassigned Fund Balance includes \$15.3 million for a cash flow reserve, which was increased by \$1.6 million (11.9%) over FY21 in order to comply with Board policy to maintain a minimum of two months of operating expenses to manage cash inflows and outflows until ad valorem revenue is received.

The FY22 budget includes a projected Remaining Unassigned Fund Balance of \$20.7 million, an \$8 million (63.6%) increase over FY21, which exceeds the Board policy target of one month (\$7,659,589) of operating expenses. This reserve allows JWB to respond to potential unforeseen expenses and weather future revenue shortfalls.

Budgetary Basis

The “basis of accounting” and “basis of budgeting” determine when revenues and expenditures are recognized for the purposes of financial reporting and budget control. The Juvenile Welfare Board uses **modified accrual** for both the basis of budgeting and the basis of accounting. Under modified accrual, revenue is recognized when measurable and available. Revenues are considered available when they are collected within the current period or within sixty days after year end. Expenditures are recorded when the fund liability is incurred, except for compensated absences that are recognized when due. However, there are certain differences between the financial statements and the way the budget is prepared, which are as follows:

- Expenditures for Statutory Fees are budgeted as non-administration while in the financial statements they are offset against the related property tax revenues.
- Depreciation and amortization are not included in budgetary statements since these do not use spendable resources.

FY22 Budget Process

JWB’s budgetary process is governed by Florida Statutes, specifically Chapters 189 and 200. Chapter 189 sets forth specific requirements for the form and content of special district budgets and their execution and amendment. Chapter 200 details the Truth in Millage (TRIM) requirements for adoption of local government ad valorem millage rates and the process and timeline to keep citizens informed.

The Juvenile Welfare Board Act Chapter 2003-320 specifies that on or before July 1st of each year, JWB shall prepare and adopt an annual written budget of its expected income and expenditures, including a contingency fund. Included in each certified budget shall be an estimate of the millage rate necessary to be applied to raise the funds budgeted for expenditures.

An outline of JWB’s budget process, including the requirements set forth in Florida Statutes and JWB’s Act, is provided below:

Glossary

Ad Valorem Tax

Also, Property Tax. A tax levied in proportion to the value of the property against which it is levied.

Administration Budget

The Administration Budget includes appropriations for recurring and certain one-time expenditures that will be consumed in a fixed period of time to provide for day-to-day administrative operations (e.g., salaries and related benefits; operating supplies; contractual and maintenance services; professional services, and software).

Administrative Cost

Expenses incurred in controlling and directing an organization, but not directly attributed to direct program services. Salaries of JWB staff and costs of general services (such as accounting) fall under this heading. Administrative costs are related to the organization as a whole, as opposed to expenses related to individual services.

Adopted Budget

The financial plan for the fiscal year beginning October 1, required by law to be approved by the JWB Board at the second of two public hearings in September.

Appropriation

The legal authorization granted by a governing body to make expenditures and to incur obligations for specific purposes. An appropriation is usually limited in the amount and as to the time when it may be expended. It is the act of appropriation that funds the budget.

Assessed Value

A valuation set upon real estate or other property by a government as basis for levying taxes. Taxable value is then calculated based on the assessed value. The assessed value is set by the County Property Appraiser, an independent elected official.

Budget

A financial plan containing an estimate of proposed revenues and expenditures for a given period (typically a fiscal year).

Budget Amendment

A change to the adopted budget that does not increase or decrease the total amount of appropriations in a fund. The change must be approved by the Board, although authority for some changes (e.g., \$50,000 or less) has been delegated to the Chief Executive Officer (CEO).

Building Services Category

Operating expenditures for services that includes communication services for telephone and networks, postage expenses, rent and lease of the building, insurance requirements, and repair and maintenance needed for the care of the building and equipment.

Contingency

Funding available outside JWB's annual competitive funding cycle for Emergency/Time Sensitive Requests.

Glossary (Cont'd)

Contractual Services Category

Operating expenditures for services procured independently by contract or agreement with persons, firms, corporations, or other governmental units. For JWB, this includes professional services, audit services, and other contractual services.

Department

Organizational unit that is responsible for carrying out specific government functions or services, such as Human Resources.

Emergency / Time Sensitive Requests

Funding requests based upon unforeseen and exigent needs.

Expenditure

Decreases in fund financial resources for the cost of goods received or services rendered.

Fiscal Year

The 12-month financial period that begins October 1 and ends September 30 of the following calendar year.

Fund

An accounting entity with a complete set of self-balancing accounts established to account for finances of a specific function or activity.

Fund Balance

Resources on hand at the beginning of the fiscal year, plus revenues received during the year, less expenditures, equals ending fund balance. The **Ending Fund Balance** of one fiscal year, plus lapse funds anticipated at the end of a fiscal year will be budgeted as the **Beginning Fund Balance** for that fund for the upcoming fiscal year.

Lapse Funds

Funds remaining from the unused budgeted amount.

Millage Rate

A rate applied to a property's taxable value to determine property tax due. As used with ad valorem (property) taxes, the rate expresses the dollars of tax per one thousand dollars of taxable value (e.g. - a 5 mill tax on \$1,000 equals \$5.00).

Mission Statement

A broad statement of purpose which is derived from organization and/or community values and goals.

Modified Accrual

Under the modified accrual basis of accounting, revenue is recognized when measurable and available. Revenues are considered available when they are collected within the current period or within 60 days after year-end. Expenditures are recorded when the fund liability is incurred, except for compensated absences that are recognized when due.

Other Operating Category

Operating expenditures that includes expenses for promotional activities and costs for books, subscriptions, dues and membership fees.

Glossary (Cont'd)

Non-Administration

Expenditures for statutory fees and information technology expenses that support program services.

Reserve Fund

An account used to indicate that a portion of fund equity is, by board policy, restricted for a specific purpose or not available for appropriation and subsequent spending.

Resolution

A formal written statement that is adopted by the Board. Rules specifying what number of votes the resolution must have to be adopted may differ from the number of votes required to pass a motion.

Revenue

The amount received from taxes or other sources during a fiscal year.

Rolled-Back Rate

As specified by the Truth in Millage (TRIM) Law, the “rolled-back rate” is that millage rate which, when applied to the total amount of taxable value of property (excluding new construction), would produce the same amount of tax dollars as the previous year.

Statute

A written law enacted by a duly organized and constituted legislative body.

Statutory Fees Category

Non-administration expenditures for fees local governments are required by statute to pay to the Tax Collector and Property Appraiser for the operational costs of their services.

Taxes

Compulsory charges levied by a government for the purpose of financing services performed for public benefit.

Taxable Value

The assessed value of property minus any authorized exemptions (e.g. - agricultural, homestead exemption, Save Our Homes). This value is used to determine the amount of property (ad valorem) tax to be levied.

Training & Supplies Category

Operating expenditures that include expenses for travel costs, conference fees, office and operating supplies, and training costs.

Truth in Millage Law (TRIM)

A 1980 Florida Law which provides specific requirements for local government budget and millage rate approval, including dates, times, and content of public hearings. The law was intended to keep the public informed about the taxing intentions of the various local taxing authorities.
