Re: Case No Z-17-10-19

Our names are Richard D. and Judith A. Wade and we live at 222 Riviere Rd. Palm Harbor fl. 34683.

We received you letter about the re-zoning of the Hess property and we are concerned about the increased traffic to Riviere Road and the intersection of Riviere Road and Tampa Road. As you already know with the daycare and five churches , two ball fields ,the library and our road being used as a cut through to Nebraska Avenue , plus three subdivisions, alot goes on on our street and it is not three miles long . Having another large group possibly exiting on to said road is going to create even more congestion than we already have. These organizations I have mentioned have daily activities not just on one particular day. We have lived here 42 plus years and have seen many changes to our area but I think that whomever buys this property should not have any exits onto Riviere Road for everyones safety. We have accidents at the corner because it is difficult to see around the fence at the day school and and people take chances even though it is not clear and it is difficult to see people crossing the road on bikes at night because the interection is poorly lit. People continue to use excess speed when they round the corner and speed down the road. Years ago when I was a young girl , the road was used for drag racing and I think people still have that mentality bcause of the straightness of the road.

I would hope that you would consider all exits from the property to be only onto Tampa Road. I appreciate your help in determining the proper useage of said land. I wish it was still all orange groves myself.

Thank you , Judy Wade
