### Comments

I respectfully request the Board of County Commissioners let the current state of Emergency expire. Additionally, please resist Tampa Mayor Jane Castor's efforts to insert herself into our county business or partner with her or other local government entities for "regional" decisions regarding County Ordinance 20-14 ("mask mandate"). Lastly, I request immediate transparency in State of Emergency spending by the county administrator. The current state of emergency gives him tremendous spending latitude and the citizens are owed a simple explanation of how it has been spent.

BCC Agenda Date 9-22-2020

Your Stand on the Issue Oppose

### Comments

I respectfully request the Board of County Commissioners to let the current State of Emergency expire. I would also respectfully request assistance from Clerk's staff, or the proper authorized County staff member, to point me to an official accounting of the County Administrator's expenditures of the relief funds received because of this "Emergency" declaration. Last several meetings, if I recall correctly, this is one of the reasons for extending the State of Emergency ~ to grant him continued authority to authorize expenditures. But it appears no one is providing the public with an official accounting of his expenditures Or at least I can't find it on your website. Perhaps I'm just missing the proper link information and would greatly appreciate your kind assistance to provide the information for me. My email address is in the contact information below. Thank you for your kind consideration.

Comments

I respectfully request the Board of County Commissioners let the current state of Emergency expire. Additionally, please resist Tampa Mayor Jane Castor's as well as St. Petersburg Mayor Rick Kriesman's efforts to insert herself into our county business or partner with her or other local government entities for "regional" decisions regarding County Ordinance 20-14 ("mask mandate"). Lastly, I request immediate transparency in State of Emergency spending by the county administrator. The current state of emergency gives him tremendous spending latitude and the citizens are owed a simple explanation of how it has been spent.

Comments End of the state of emergency. The overreach of this board is astounding. Forcing residents to wear a medical device on their face in order to conduct commerce is not the role of a local board. You are not chartered with regulating anything medically. You are out of your purview.

You are killing our kids and taking everything away from them. You may not care about them as much as we do as their parents, caregivers, but we will continue to fight for them as well as this county. You need to STOP using this as a party/political agenda or to line your pockets. At some point you have to put others first and the children first! Scientific studies that this is hurting child in so many ways. Stop taking from them and us and end this all. End this and the masks! I assume you like being in your position, well if you continue this madness you will lose it at election time!

### Comments

Good Afternoon All, We are now 193 days into this seven-day emergency order, and I am aware of the stated concerns relating to the COVID-19 virus. I would like to share a discussion had with my coworkers in mid-May. Since we were born, we have lived in a world full of viruses, bacteria, fungus, toxins, allergens, cancers, all manner of internal health threats. The issue we now face is; are we going to let just one of these many threats affect how we live our lives and make our living forever? At this point, we are all hyper aware of the symptoms and results of catching the COVID-19 virus for each at-risk and not at-risk population. A mask and quarantine are not the answer for everyone. Most of us can continue to function normally. For a small segment of the community they need to take the precautions that cancer and critically ill patients along with their families have practiced for a very long time. Tests for this virus are only as good as the minute they were taken. Tests for the antibody to the COVID-19 virus are only good, if you know that once you have had the virus the antibody will remain, and you will not get sick from COVID-19 again. Fact is, we do not know if the antibody gives you permanent immunity and we do not know if there will ever be a vaccine. The common cold and seasonal flu are viruses with no vaccines. If the flu shot was a true vaccine, we would only need to get one and be done with the flu. Fact is you have to get a booster shot every year to give your immune system a jump start to fight the flu again. We go out and expose ourselves to the potential effects of viruses, bacteria, fungus, toxins, allergens, cancers, all manner of internal health threats every day without knowing which one might result in our demise. We must stop constantly focusing on what might kill us and start living the lives we have. This is not the type of life we should be leading cooped up in our homes unable to freely shop, exercise, play, worship and work. We should be allowed to freely live our lives willing to take the same type of risks we take walking across the street, getting behind the wheel of a car,

or boarding an airplane. Our choice to make based on the blessings we were given. If we keep hiding in our little cocoons there is not going to be much for us to return to. The mission statement for the Florida Department of Health it to “To protect, promote & improve the health of all people in Florida through integrated state, county, & community efforts.” I ask you, has the trashing our economy met this goal? I also ask you, has destroying people’s mental health by having them constantly focused on their mortality every minute of every day met this goal? The answer is to these questions if obvious, yet the board keep the politization of this virus going with every vote you take to extend this seven-day state of emergency. I have an idea; don’t vote on the seven-day state of emergency anymore. You don’t have to take a stand or even have a discussion. You table it from the agenda and this mess goes away. No more talking, no more meetings, nothing; it is done, expired and over.

Due to the fact that Pinellas County no longer meets the criteria to be in an emergency, that means you no longer have the authority to keep the county under a State of Emergency. As an American, I am my own best advocate for my safety as it is my responsibility. Healthy people should not be treated as if they are sick. I would like to thank you in advance for doing the right thing for the right reasons.

Topic SOE and mask mandate

BCC Agenda Date 9-24-2020

Your Stand on the Issue Oppose

### Comments

It is time to end the madness. Our county numbers are low and the only reason the State of Florida looks higher than others is because of the elderly population here. It is silly to force every resident to cover their face in the very slight chance that we might spread the virus. Wearing a mask should be a choice. It doesn't make sense to tell people that a mask is not protecting yourself, but protecting others. That is just a tactic to guilt people into it. It is causing tension and aggression between people and we need peace back in our community. We will not stop fighting this issue. No justice No peace! Thank you

Commissioners, as of today statistics\* show that:

The U.S. has two deaths per one million of their citizens.

Sweden has two deaths per twenty million of their citizens.

Their success in fighting COVID is **20 times better than ours** yet no destruction of the lives or the futures of their citizens, both young and old.

Perhaps it's time to reassess your methodology, the spread of the virus is nothing to fear as evidenced by the Swedish model. Protect the vulnerable is the only criteria necessary.

Personally, I cannot imagine being complicit to such atrocity.

\*Per "Our World in Data – Corona Virus – as of 9/21/20".
