Section 6.5.3. of the Countywide Rules provides the review criteria for amendments to the Countywide Plan Map. An analysis of these criteria are provided below:

1. **The manner in, and extent to, which the amendment is consistent with the Countywide Rules and with the Countywide Plan Strategies as implemented through the Countywide Rules.**

*Staff Analysis:* The Countywide Rules state that the Employment category is “intended to recognize areas developed with, or appropriate to be developed with, a wide range of employment uses, including primary industries (i.e., those with a customer base that extends beyond Pinellas County), allowing for flex space, and for uses that have minimal external impacts.”

The locational characteristics of the Employment category are “generally appropriate to locations with sufficient size to support target employment and other industrial uses, as well as integrated industrial/mixed-use projects, with provision for internal service access and other necessary site improvements in locations suitable for light industrial use with minimal adverse impact on adjoining uses; served by the collector, arterial, and highway network; and on Multimodal Corridors and Future Transit Corridors depicted on the Land Use Strategy Map, where its proximity to transit service supports the type and density/intensity of the proposed use characteristics.”

The Target Employment Center designation is an overlay that is used to depict those areas of the county that are now developed, or appropriate to be developed, in a concentrated and cohesive pattern to facilitate employment uses of countywide significance.

The proposed amendment from Public/ Semi-Public and Target Employment Center to Employment and Target Employment Center is consistent with Section 2.3.3.9. of the Countywide Rules. The subject property has been vacant since 2014 and the owner (Robot Risers, LLC) intends to redevelop the site by constructing a 20,000 square foot building for office and light manufacturing uses. This type of light manufacturing use falls under the Microelectronics Target Industry Cluster as defined in the 2022 Target Employment & Industrial Land Study Update. The subject property is located to the north of Ulmerton Road which the Land Use Strategy Map designates as a Secondary Future Transit Corridor.

- 2. Forward Pinellas maintains the Multimodal Accessibility (MAX) index. Proposed amendments increasing density and/or intensity must maintain a MAX score equal to or better than the Countywide Average MAX score. The current Countywide Average MAX score is 9.7; if that score is not reached, balancing criteria will be required. An amendment adopting or amending the Activity Center (AC), Multimodal Corridor (MMC) and Planned Redevelopment District (PRD) categories and affecting fewer than 10 acres shall be subject to the Multimodal Accessibility Index (MAX Index).**

*Staff Analysis:* MAX scores are assigned to individual quarter-mile grid cells, which Forward Pinellas defines as a reasonable walkable travel shed. The MAX score is based on factors such as bicycle facilities, premium transit services, walkability, roadway LOS, scooter/bike-share locations, transit access, and programmed transportation projects. The subject property is within multiple grid cells with an average MAX score of 10.75. The countywide average MAX score is 9.7.

3. **If located within a Scenic/Noncommercial Corridor, the manner in, and extent to, which the amendment conforms to the criteria and standards contained in Section 6.5.4.1 of these Countywide Rules.**

*Staff Analysis:* The amendment area is not located on a Scenic/Noncommercial Corridor.

4. **If located within a Coastal High Hazard Area, the manner in, and extent to, which the amendment conforms to the terms set forth in Section 4.2.7.**

*Staff Analysis:* The property is located in the Coastal High Hazard Area (CHHA). However, this amendment would not impact hurricane shelter space or evacuation routes and would not result in any increased residential population.

5. **If the amendment involves the creation, expansion, contraction of, or substantive change to the Activity Center, Multimodal Corridor, or Planned Redevelopment District category, the manner in, and extent to, which the amendment conforms to the purpose and requirements of the applicable category, and addresses the relevant Planning and Urban Design Principles described in Section 6.2.6 and Land Use Goal 16.0 of the Countywide Plan Strategies.**

*Staff Analysis:* The amendment area does not involve the creation, expansion, contraction of, or substantive change to the Activity Center, Multimodal Corridor, or Planned Redevelopment District category.

6. **The manner in, and extent to, which the amendment significantly impacts a public educational facility or an adjoining jurisdiction.**

*Staff Analysis:* The amendment area is not adjacent to an adjoining jurisdiction, nor would the amendment impact a public educational facility.

7. **If the amendment involves the conversion from the Employment (E), Industrial (I), or Target Employment Center (TEC) category, the extent to which the amendment area can continue to provide for target employment opportunities as evaluated and set forth in Section 6.5.4.5.**

*Staff Analysis:* The amendment does not involve the conversion of land from the Employment, Industrial, or Target Employment Center category.
