Please rescind mask mandate! It was implemented when there was a surge in case numbers in June and it was supposed to be temporary measure. I feel you have lied to us, because it seems to be permanent move. There is enough hospital capacity for those who do need it (small percentage) and death rate is downward trending. If your intention is to make mask mandates permanent, then you should communicate that to the residents. If not, then now is an appropriate time to rescind the mandate, the surge is over.
