Subject: Re: Pet Dealer Permit Ordinance Changes

Doug,
I support the change. I think it provides a positive alternative to obtaining the permit.

Good Morning,

We are working on the final version of the proposed ordinance changes especially pertaining to Pet Dealer Permitting. There has been concern about reducing the number of animals sold down to 1 litter annually to require a permit. We have added a section to the ordinance which is highlighted on the second page of the attachment. This new paragraph gives the pet owner selling the animals the option of getting a permit or having the female animal that birthed the litter sterilized in order to avoid a permit and citation.

If you support this change please respond to both John Bennett and I. We would like to finalize the proposed language soon and your feedback is important as we move forward.

Respectfully,

Doug Brightwell
