Subject: 2271 keystone Rd. Request for change of zoning

Good afternoon Mr. Eggers, my name is Linda Van Dam, I live at 2343 keystone Rd. and I'm writing to you today to voice my opinion about the request to change the zoning at 2271 from agriculture residential to institutional. I know that what I'm about to tell you has no bearing on the decision but this is my life and my home and this affects me greatly. I am a 69 yo single girl still working at my two rentals I have left in St Pete. I've worked hard all my life to achieve this dream of owning my beautiful property, filled with deer and wildlife. I loved the one house per two-acre idea, I felt safe that the land couldn't be destroyed by something like this. My home sits next to 2271s driveway, his property looks over my house because he's up on the hill. I fear that cutting down all the trees to build a 40,000 square foot monstrosity and parking lot will cause run off onto my land. Everything is graded off to me. Run off will erode my property and soon my house will go with it. 2271 is different than the cases that came before, they were surrounded by woods not homes. This is totally different, one house is within his lot and mine is wedged up against the lot line which is his driveway. Secondly pulling out on keystone Rd is almost impossible already and we definitely don't want a light at the end of our driveway. I don't want to look out my living room window and watch buses and cars going up and down the driveway beside my home. I don't want floodlights lighting up the country nights only the stars please or hear screaming kids on the playground. I haven't slept since I found out about this, I'm very depressed and everyone says you have to speak up. I've delivered 225 flyers, I've spoken to numerous people and no one wants this. I will be attending the meeting on October 8th at 9:00 and I'm looking for someone to speak on my behalf. I don't think a girl crying at the podium is what they're looking for. Please feel free to come to my property, I don't think anyone is aware yet how much this will destroy my life. Thank you

Subject: Objection to Proposed Rezoning from Residential to Institutional – Inadequate Infrastructure & Environmental Concerns

Report Suspicious

In ref to: According to the official **Pinellas County LPA agenda** (Item #9 and #10):This in

1. **Case Z/LU-25-07:** Rezoning from **Residential Rural (R-R)** to **Institutional (I)**
2. **Case Z/LU-25-07 (Companion):** Land Use change from **Residential Agricultural (RA)** to **Institutional (I)**

Dear Pinellas County Planning & Zoning Board,

I am writing to formally oppose the proposed rezoning of the property located at **2271 Keystone Road, Tarpon Springs (approximately 5.23 acres near George Street North)** from residential to institutional use for the purpose of constructing a 6–12 grade school.

This proposal raises significant concerns regarding **infrastructure limitations, environmental impacts, and incompatibility with the surrounding residential and equestrian neighborhood.**

1. Inadequate Infrastructure and Traffic Concerns

The infrastructure along **Keystone Road and George Street North** is already under strain and not designed to accommodate the volume of traffic a school of this size would generate. The area consists mainly of **two-lane roads with no turn lanes, limited shoulders, and minimal sidewalks or lighting.**

A middle and high school would bring **hundreds of additional vehicles daily**, including buses, parents, staff, and student drivers. This would create **severe congestion**, impede access for residents, and pose a significant **safety risk for pedestrians, cyclists, and horse riders** from the adjacent stable. Emergency vehicle access would also be compromised during peak drop-off and pick-up times.

2. Environmental and Wildlife Impact

The property is **densely wooded** and home to a variety of **native wildlife**, including deer, turtles, and other protected species. Clearing this land would destroy these habitats, displace wildlife, and remove mature trees that serve as essential buffers for noise and runoff control.

Additionally, paving and construction on this scale would **increase stormwater runoff and flooding risks**, further straining the local drainage system and impacting nearby properties and natural areas.

3. Incompatibility with the Neighborhood

This section of Tarpon Springs is a **quiet, residential, and semi-rural area** that includes private homes and a horse stable immediately adjacent to the proposed site. The character of the community is incompatible with the **noise, lighting, traffic, and intensity of use** associated with a middle and high school.

The site size—**only 5.23 acres**—is far too small for a school serving grades 6–12, especially when accounting for required parking, athletic fields, stormwater retention, and buffer zones. Such density on this parcel would negatively affect neighboring properties and permanently alter the area’s character.

4. Utility and Infrastructure Deficiencies

This area has **limited public sewer and water access**, with much of the surrounding land still relying on private wells or septic systems. The site would require significant utility extensions and infrastructure upgrades to meet institutional standards—at great expense and disruption to the community.

5. Conclusion

For these reasons, I respectfully urge the Pinellas County Planning & Zoning Board to **deny the rezoning request** for 2271 Keystone Road. This development is **not compatible** with the existing infrastructure, surrounding land use, or environmental conditions.

Preserving the current residential zoning protects the safety, natural environment, and character of our community—values that make Tarpon Springs such a desirable place to live.

Thank you for your attention and consideration. Please include this letter as part of the public record for this rezoning request.

To Whom It May Concern,

Please accept this email as a formal Opposal to the rezoning from **Residential Rural (R-R)** to **Institutional (I)**.

In addition to the property being adjacent to numerous residential homes and presently Zoned accordingly, it is located on Tarpon Avenue (Keystone Road).

The intersection at Tarpon Avenue and US 19 North gets heavily congested in the morning during school and work traffic hours, creating traffic lines extending beyond the stop lights prior to the intersection on both sides of US 19 North, east and west bound. As well, this is the same scenario from 3:00 pm - 6:30 pm due to school and work traffic.

The intersection at Keystone Road and East Lake Road gets heavily congested in the morning during school and work traffic hours, creating traffic lines extending far beyond the turn lanes and stopping traffic approximately .25 mile from the stop light, east and west bound. As well as, this is the same scenario from 3:00 pm - 6:30 pm due to school and work traffic. *Please refer to Pinellas County Public Works Department for its knowledge of traffic flow problems at this location.*

Thank you for your consideration of this concern.

Best regards,
Karen Frohlich

I object to case Z/LU-25-07 but was unable to sign the petition. This private school relocation will cause safety and traffic burdens for our adjacent residential communities.

Good afternoon,

with regard to the request for rezoning at 2271 Keystone Road,

please log my objection to a change of zoning as this would continue to overload Keystone Rd during the busiest times of day, a road that struggles to handle the current traffic volume during those times.

It appears that Ignite Academy already has a facility with vacant land at their location further North on East Lake Road,
Perhaps further investigation on development of that site might be appropriate.

Pinellas county has limited open space and this would reduce still further the available habitat for local wildlife,
in addition to increasing road traffic pollution.

Sincerely

John and April Sykes

Report Suspicious

I am writing to register our objection to Case Z/LU-25-07.

We live at 2634 East Lake Trail, Tarpon Springs, FL 34688 and **oppose the proposed rezoning at 2271 Keystone Road**, where **Ignite Academy Inc.** has requested to change **5.23 acres from Residential to Institutional** to construct a **two-story, 40,000-square-foot private school facility**.

This large-scale project would bring middle and high school operations (grades 6–12) into the heart of a residential area — raising major concerns about:

- **Traffic & Safety:** Hundreds of additional daily car trips for drop-offs, pickups, and events.
- **Noise & Light Pollution:** Early morning and evening activity disrupting nearby homes.
- **Property Values:** Institutional buildings in residential zones often reduce surrounding home values.
- **Environmental Impact:** Loss of tree canopy and wildlife habitat on over five acres of land. We have wild deer, turkey, owls, hawks, coyotes, bobcats, eagles among many other wild birds and creatures. We cannot keep over developing every piece of land...they need places to reside as well.

We believe this development would irreversibly change the character of our neighborhood and set a precedent for future institutional expansion into residential zones.

Please contact me with any questions.
