Problem Identification

According to a 2019 Tampa Bay Times article, state data shows the number of people injured by accidental gunfire in Florida is rising each year. What's more, with approximately 22 people a year killed in Florida, the state is bucking a nationwide trend. Florida Department of Health data shows that in 2007, 471 Floridians went to the hospital with nonfatal accidental gunshot injuries, by 2017, the most recent year available, the number had climbed to 857, an 82 percent increase. Tampa Bay Times reported in 2017 that during a six year span (2010-2015), more kids died in Florida by gunshot wounds than died of cardiovascular, respiratory, or infectious diseases. A New England Journal article indicated that firearm death is the second leading cause of death in children ages 5 -19. Most of those between 15 and 19 were shot in an intentional assault, according to research. This age group makes up the largest number of victims, more than 83%.

The importance of educating children about firearm safety is a necessary and valuable prevention strategy to reduce firearm injuries and deaths. MORE HEALTH hears of stories about children finding guns and knowing the steps to take to keep them safe. Without this knowledge, these children could have made a fatal mistake. There is also a need for adults to understand the risks to children when they own a firearm. The CDC reports violence and injuries can be prevented, and their consequences reduced; We know prevention works. School-based programs to prevent violence have been shown to cut violent behavior 29% among high school students and 15% across all grade levels.

The MORE HEALTH Firearm Safety and Violence Prevention lessons have been taught in Hillsborough and Pinellas Counties for 20 years. MORE HEALTH works with law enforcement, trauma doctors, and school districts looking at local and national trends to update both Firearm Safety lessons with the most current information. These lessons have been studied several times by outside evaluators, including University of South Florida, College of Public Health and Hillsborough County School District. Both the Firearm Safety 1 and Firearm Safety 2 Lessons have been found effective in knowledge gain and intent to change behavior.

This request is a continuation of project 2020-JAGC-PINE-4-Y5-015, which was awarded for the grant period of 10/1/2019 -9/30/2020 in the amount of \$25,000. During the 2019-20 school year, MORE HEALTH presented 379 classes of the Firearm Safety Lessons to school-aged children in third grade and middle school, before schools were closed due to COVID19. Partnering with the Pinellas County School District and law enforcement, MORE HEALTH reached approximately 9,000 students with the lifesaving education. Students learned the steps they should take if they see a gun. They were taught to treat all guns as if they are real and loaded. Students learned the consequences of bringing a gun or any weapon to school. Parents received information on the importance of properly storing firearms in their homes

If any insurance provided pursuant to the Agreement expires prior to the expiration of the Agreement, renewal Certificates of Insurance and endorsements shall be furnished by the

The **COUNTY** shall have the right, but not the obligation to determine that the **AGENCY** is only using employees named on such list to perform work for the **COUNTY**. Should employees not named be utilized by **AGENCY**, the **COUNTY**, at its option may stop work without penalty to the **COUNTY** until proof of coverage or removal of the employee by the **AGENCY** occurs, or alternatively find the **AGENCY** to be in default and take such other protective measures as necessary.
