Topic Human Rights COVID 19
BCC Agenda Date 4-21-2020
Your Stand on the Issue Oppose

Dear Commissioners, I am a registered republican. I am also owner of a small business. This abuse of power by our government is offensive to me. The CDC estimates that approx 56,000 die every year from the common flu. In Pinellas County there are fewer than 500 cases of COVID 19, in Hillsborough County there is less than 1,000. My business may not make it through this pandemic. There are many small businesses that may not return. It is true that some people suffer with the COVID 19 in ways worse than the common flu and that is too bad for sure. But the statistics just don't justify this overreach of our government. Let people who feel vulnerable stay at home and wear masks. We can not kill our economy, kill the tax base and drive our economy into recession or depression. H1N1 affected 61 MM and killed 575,000. We did nothing. I don't understand. It just doesn't make sense. It is blown out of proportion by the media and government. Please be as brave as you have been in the past and do something to open Florida's economy. I don't want government subsidies (although now I will be forced to take advantage of them), I WANT TO GET BACK TO WORK!! Please speak out against this insanity!! Sincerely, Scott F Boebel
