<b>Brief Description of Organization and It's Mission (approx. 600 characters) (Required)</b>	<p>Florida Dream Center (FLDC) is a tax-exempt nonprofit organization, providing a broad array of human services in our community. Our services include feeding the hungry, helping the homeless, job skills training and placement, improving our community through Adopt-A-Block, and bringing other organizations and services in the community together for a common goal.</p> <p>All FLDC programs focus on services that improve health equity and promote self-sufficiency within Pinellas County.</p>
<b>Project Name (Required)</b>	Neighborhood Outreach Crew (N.O.C)
<b>Requested Program Budget (Required)</b>	\$20,000.00
<b>Community Need: Describe the problem or need to be addressed by this project. (Required)</b>	<p>Health Equity is defined as a fair opportunity to be healthy by removing obstacles to health such as poverty, discrimination, and their consequences: lack of access to good paying jobs with fair pay, food/nutrition or basic needs insecurities, and lack of social resources. Health Equity in Pinellas County is ranked 16 out of 67 counties for overall health factors and 26th in overall health outcomes. A score of 76% Health Equity should inform the community there are remaining barriers preventing individuals and community from reaching full potential. This is significant because fairness results in overall better health outcomes, increases upward mobility, and strengthens a more</p>

sustainable growth for everyone.

Our Resident Advocacy program addresses the social determinants and barriers contributing to Health Equity within Pinellas County. We specifically target the vulnerable population living in poverty of Pinellas County which includes 62% White, 19% Black, 11.4% Hispanic, 3% Asian, 3% Bi- or Multi-racial, and 2% other (Census Bureau 2018). Pinellas poverty rate is 13.7%, ranking it number 22 of the state and the Point in Time Estimate of Homelessness Report revealed it has the highest rate of homelessness in the State. The average household consists of 2.5 per family within Pinellas county, which according to the economic policy institute this family would need an income of \$48,153 to live just above the poverty line and our demographic makes less than \$30,000. These economic disadvantages in the county results in 12% of the population having to receive public/government assistance to survive and also families living in poverty would rather spend the money they do have on low-cost, processed foods instead of nutritional food, reducing their life expectancy measure. Furthermore, we can estimate the ramifications of COVID19 will worsen the health outcomes for both existing disadvantaged residents and newly vulnerable populations to come.

**Project Summary:**  
**Describe how the project will be fully implemented and how it will address the need or gap in the community. Identify and describe other funding sources, if any, for this project/program. (Required)**

The funding is sought to expand capacity or services in an already existing Resident Advocacy (case management) and Mobile Food Bank programs. We provide a network of direct services to people in need through our wrap-around services coordinated by our Resident Advocates (case managers) while also meeting their immediate hunger needs. This multi-purpose program provides the necessary tools to address the needs of disadvantaged residents; which include the homeless, ex offenders, elderly, disabled, socially challenged, poor working class, etc. Our primary focus is toward enhancing human well-being in the areas of health, economic, and social equalities regardless of race, religion, age, or sex to ultimately raise Health Equity in Pinellas County. The community has other human service organizations that focus on a broad range of disciplines, knowledge, and skills focused on improving the overall quality of an individual's well being. However currently, due to the COVID19 crisis most of these organizations, unlike FLDC, have been placed on hold, cannot perform their regular duties, or do not have the in-house ability to provide direct services to the residents.

**Program Outcomes:**  
**Describe the time-line by which the project will be implemented including short-term and long-term results.**

Goal: To increase Health Equity for disadvantaged residents through social services in the areas of life skills, mobility, food security, employment and income.

Objective 1: Provide socioeconomic opportunities to an additional 40% of disadvantaged population within Pinellas County in a 12 month period.  
(COVID19 impact has been considered in measurement)

Objective 2: Register an additional 20% of disadvantaged families and

**(Required)** individuals for government aid programs in a 12 months period. (SNAP benefits, Unemployment, SSI, etc)

Objective 3: Increase food and immediate needs (hygiene, clothing, cleaning supplies) availability for 750 households (2.5 person/family) in a 12 month period.

Performance measures will be recorded and evaluated in OASIS and the AZ Matrix will be used as a grading scale to measure the overall goal of Health Equity. The outcomes will be measured on a quarterly, weekly and monthly basis to obtain data information and adjust accordingly if changes need to be made.

FLDC is prepared to commence this expansion upon approval of grant funding. This funding will support supplies and equipment needed to increase immediate food needs and case management service accessibility.

**Describe how your project aligns with the County's Strategic Plan: (Required)**

Our program impacts equity for disadvantaged residents of Pinellas County by acting as a mechanism for successful economic opportunities and self-sufficiency. Success can be ambiguous, therefore we will have a different impact on some groups of people that we serve. However, we pride ourselves on meeting people where they are which means our case managers do their best to help anyone in the County. Although this program consists of adults (18+), unintended results of employment, food security, and transportation will also affect their dependents/children. However, the positive impacts of addressing immediate needs allows the individual to save, budget or maneuver income where it best fits until they become more stable. Consequently, the negative impact could be enabling an individual to rely on our short term services instead of eliminating the deficit for good. Case managers lessen this possibility through actively monitoring, adjusting, and planning the client's developmental plan.
