All,

Good morning. Per the local applicant's request and by way of this email, the City of St. Petersburg formally withdraws its application for map amendment. I will notice our City team, as well as, the State Department of Economic Opportunity.

I will also send an information update to my email registry for this application. I will note that the local applicant has formally withdrawn their application and is considering other options under the existing zoning and future land use map categories.

Thank you everyone for your hard work on this complex application!

Respectfully,

Derek Kilborn, Manager

Urban Planning and Historic Preservation Division

Planning and Development Services Department

One 4th Street North
