Overview

Background

Pinellas County received grant funding from the Substance Abuse and Mental Health Services Administration (SAMHSA) to provide mental health and substance abuse treatment services to individuals who have experienced homelessness and have serious mental illness (SMI), substance abuse disorder (SUD), serious emotional disturbance (SED), and/or co-occurring disorder (COD). This program is focused on formerly chronically homeless individuals who have recently been housed in permanent housing or permanent supportive housing.

Funding from this grant opportunity will increase capacity to provide evidence based mental health and substance abuse treatment services for individuals who experience homelessness and have serious mental illness (SMI), substance use disorder (SUD), serious emotional disturbance (SED), and/or co-occurring disorder (COD).

Partners

The County has partnered and contracted with several local agencies providing services that work with homeless youth, families, and veterans. The contracted treatment providers include Operation PAR, WestCare Gulfcoast, and Directions for Living.

This funding opportunity also strongly encourages a commitment to permanently house eligible clients. While funding does not support housing, we are looking to work with housing placement specialists working with the population. Our housing partners include Homeless Empowerment Program, Catholic Charities/Pinellas Hope, Boley, and the Pinellas County Housing Authorities.

It will also allow the County to provide outreach and other engagement strategies for individuals served, including screening and assessment. Once fully implemented, the County's homeless population will be on a path to secure housing, coordinated behavioral health services and reduce their likelihood to use the emergency room for behavioral health and linkage services.

Membership is comprised of, at a minimum, local or regional representatives from SUD and mental health providers; health department; public housing authorities and/or housing providers; members of the population of focus who are currently experiencing homelessness or have experienced homelessness; and the SAMHSA GPO.

The organizational chart below briefly illustrates the reporting structure to Pinellas County as the grantee of the federal award from SAMHSA.

Program Criteria & Referral

Program Criteria:

Individual adult clients may be eligible to receive treatment services if:

- Client has a history of chronic homelessness
- Client is currently in permanent housing or permanent supportive housing
- Client scores 6 or above on the Vi-SPDAT housing assessment tool; or other identified intake assessment utilized by a housing provider that identifies a client's need related to chronic homelessness and behavioral health issues.
- Client self reports or is known to have a mental health or substance abuse diagnosis (*Detailed clinical assessment will be completed by program staff to determine clinical diagnosis and eligibility*)
- Client is not currently receiving treatment services; or is receiving inadequate treatment services by another licensed behavioral health treatment provider.
- Eligible individual clients include adults and veterans (*note: veteran clients need only have experienced homelessness and are not required to have been identified as chronically homeless*).

Family or youth clients may be eligible to receive treatment services if:

- Families or youth experience homelessness
- Families or youth are linked to the Pinellas County Continuum of Care Coordinated Entry system (*note: family and youth clients, while encouraged to be placed in permanent housing, need only be connected to Pinellas County Coordinated Entry to receive CABHI services*)
- Families are considered eligible if one or more family members self report or are known to have a mental health or substance abuse diagnosis (*Detailed clinical assessment will be completed by program staff to determine clinical diagnosis and eligibility*)
- Families or youth are not currently receiving treatment services; or are receiving inadequate treatment services by another licensed behavioral health treatment provider.

Referral Process

If an organization identifies a client who may be eligible for the program, the referring entity shall complete the program referral form (Appendix A) for the Pinellas County's Cooperative Agreement to Benefit Homeless Individuals (CABHI) Program. Individuals who participate in educational sessions or learn about the program may also self-refer themselves by completing the program referral form and ROI.

Completed referrals may be submitted by:

FAX: (727) 507-6310

EMAIL: CABHI@operpar.org

Upon receipt, a Program Coordinator from Operation PAR, will reach out to both the referring party and the client to schedule an intake screening. Once the client completes the intake screening, Operation PAR will present the client information to the Program Coordination Committee (meets weekly) to assess each client's eligibility for services and identify the appropriate treatment provider.

Outreach

Operation PAR is responsible for clinical program coordination, including referral coordination and outreach. Outreach to potential referring entities may include educational group sessions, community or staff presentations, or one-on-one meetings with organizations who are interested in enrolling clients into the program.

Release of Information

The Referral Form includes a Release of Information to be signed by the client at the time of referral. The Release of Information legally allows the participating treatment providers to share Personal Identifiable Information (PII) and protected health information (PHI). (See Appendix B).

Definitions

Behavioral Health: The term “behavioral health” refers to a state of mental/emotional health and/or choices and actions that affect wellness. Behavioral health problems include substance use or misuse, alcohol and drug addiction, serious psychological distress, suicidal ideation, and mental and substance use disorders. The term is also used to describe the service systems encompassing the promotion of emotional health, the prevention of mental and substance use disorders and related problems, treatments and services for mental and substance use disorders, and recovery support.

Permanent housing means community-based housing without a designated length of stay (e.g., no limit on the length of stay). Permanent housing shall be safe, affordable, and integrated in the community. It may include an apartment or single room occupancy in a building (congregate housing), rent-subsidized apartments, or houses in the open housing market (scattered housing), as well as designated units within privately owned buildings.

Permanent supportive housing refers to housing that is considered permanent (rather than temporary or short-term) and offers tenants a range of supportive services aimed at promoting recovery from mental and/or substance use disorders. There should not be any arbitrary limits for the length of stay for the tenant as long as the tenant complies with the lease requirements (consistent with local landlord-tenant law).

Homeless as characterized under the Homeless Emergency Assistance and Rapid Transition to Housing (HEARTH) Act of 2009, and defined by the December 5, 2011, Final Rule: Defining “Homeless” (76 FR 75994), establishes four categories of homelessness. These categories are: (1) Individuals and families who lack a fixed, regular, and adequate nighttime residence and includes a subset for an individual who is exiting an institution where he or she resided for 90 days or less and who resided in an emergency shelter or a place not meant for human habitation immediately before entering that institution; (2) Individuals and families who will imminently lose their primary nighttime residence; (3) Unaccompanied youth and families with children and youth who are defined as homeless under other federal statutes who do not otherwise qualify as homeless under this definition; or (4) Individuals and families who are fleeing, or are attempting to flee, domestic violence, dating violence, sexual assault, stalking, or other dangerous or life-threatening conditions that relate to violence against the individual or a family member.

Chronic homelessness means: (1) A homeless individual with SUD, SMI, SED, or COD issues, who:

(i) Lives in a place not meant for human habitation, a safe haven, or in an emergency shelter; and

(ii) Has been homeless and living as described in paragraph (1)(i) of this definition continuously for at least 12 months or on at least four separate occasions in the last three years, as long as the combined occasions equal at least 12 months and each break in homelessness separating the occasions included at least seven consecutive nights of not living as described in paragraph (1)(i). Stays in institutional care facilities for fewer than 90 days will not constitute a break in homelessness, but rather such stays are included in the 12-month total, as long as the individual was living or residing in a place not meant for human habitation, a safe haven, or an emergency shelter immediately before entering the institutional care facility;

(2) An individual who has been residing in an institutional care facility, including a jail, substance abuse or mental health treatment facility, hospital, or other similar facility, for fewer than 90 days and met all of the criteria in paragraph (1) of this definition, before entering that facility; or (3) A family with an adult head of household (or if there is no adult in the family, a minor head of household) who meets all of the criteria in paragraph (1) or (2) of this definition, including a family whose composition has fluctuated while the head of household has been homeless.

Doubled Up: In addition, for the purposes of this program, the terms “homeless” and “chronic homelessness” also may include individuals who are “doubled-up” – defined as sharing another person’s dwelling on a temporary basis where continued tenancy is contingent upon the hospitality of the primary leaseholder or owner and can be rescinded at any time without notice.

Referral Intake & Assessment

GPRA Evaluation

GPRA data will be collected at intake, discharge and 6-months post-intake and entered into the SPARS data collection system. This data will be readily available to evaluate demographics, drug and alcohol use, family and living conditions, education/employment, criminal justice status, mental/physical health and social connectedness. As adequate sample sizes are obtained, reports will be shared with the program coordination committee and the local government steering committee to assess program effectiveness.

Incentives

Incentives will be given to a client upon completion of the GPRA at intake, 6-months post intake and discharge for a maximum benefit of \$30 per client. PAR, as the Program Evaluator and administrator of the GPRA assessments, will issue the gift card to the client upon completion. Per the SAMHSA Funding Opportunity Announcement, "In no case may the value of an incentive paid for with SAMHSA discretionary grant funds exceed \$30."

Hard to Reach Clients

Every attempt to reach a client by phone or in-person will be made by the assigned Case Manager upon receipt of the referral. At times, there will be clients that program staff are having trouble connecting with, and at that time, staff will reach back out to the referring entity and individual for assistance in touching base with the client. Only after exhaustive attempts have been made by the program staff and referring entity will the client be listed as inactive from the list of active eligible clients.

Assignment of Clients

Within seven (7) days of completion of the GPRA, the client information will be presented to the program coordination committee for review and determination of the lead and/or secondary treatment provider. Once agreed upon by the committee, the full assessment and referral package will be securely delivered to the treatment organization(s) within 24 hours.

Coordination of Care

Treatment Services

While some clients may be assigned to multiple entities, there will only be one (1) lead provider responsible for the client and will coordinate the treatment plan with the secondary provider, where applicable. Each month, the Program Coordination Committee will meet in person to briefly review the active client list to identify any potential challenges or issues and discuss successes. Communication amongst providers is key to coordinating care and assisting with clients who are hard to reach.

- **Telehealth:** The contracted providers have been grant funded to set-up and administer services via telehealth. Each agency shall have its own policies and procedures for administration and use of telehealth services. Each agency is responsible for educating the clients and working with the designated locations on scheduling, software use, and administration.
- **Loss of Housing:** Clients who lose their permanent housing during their enrollment in the CABHI program will still be eligible for CABHI services, unless the individual becomes incarcerated. The treatment provider should work with the Homeless Leadership Board's Coordinated Entry Program to assist the client with new housing opportunities.

SSI/SSDI, Access, Outreach & Recovery (SOAR) Services

Directions for Living is the contracted Provider for SOAR services of which one Benefit Specialist has been identified to serve CABHI clients. SOAR Program for Pinellas County provides increased access to SSI/SSDI, Access, Outreach and Recovery (SOAR) for residents who are identified by referral or community outreach as homeless who also have a severe mental health or substance abuse disorder or co-occurring medical impairment.

All clients referred into CABHI will complete the SOAR Screening Criteria Questionnaire (See Appendix E). If the client qualifies, the SOAR Benefit Specialist's for CABHI will provide active case management, navigation and supportive interventions to the applicants. The specialist will continue communication with the applicant to ensure that the specialist will be able to gather the longitudinal medical histories and assistance with benefit enrollment to SSA, develop independent medical evaluations, documenting an individual's functioning for the examiner, and creating summary reports to accompany the applications.

Peer Recovery Services

WestCare Gulf Coast is the contract provider for peer recovery services for clients with Substance Use or Co-Occurring Disorders. All clients referred into the program with the SUD or COD diagnosis will be eligible to receive peer recovery services.

Discharge

Clients may be discharged from the CABHI program for various reasons. Each treatment agency will classify the discharge of a client according to its own Agency policies and procedures. Examples of discharge reasons include clients who continuously do not attend scheduled appointments, those incarcerated, those successfully completing their treatment plan, those who leave the County service area to name a few.

- **Incarceration:** In the FY16 CABHI FOA Part II, Appendix D Funding Restrictions, bullet #2 states that funds may not be used to: Provide services to incarcerated populations (defined as those persons in jail,

prison, detention facilities, or in custody where they are not free to move about in the community). Clients in this situation must be discharged from the program until release and re-engaged.

All discharges from the program will be reported on the Discharge Form (See Appendix D) to the CABHI Program Evaluator within 10 days of discharge.

Grant/Performance Reporting

Bi-Annual Progress Report

The grantee is required to provide a bi-annual report in April and October. This progress report is designed to inform SAMHSA about the grant's progress during a specific reporting period. The baseline goals and objectives from the grant application will be used to identify progress, including specific achievements, barriers, events, changes to the project, and issues that arose during the reporting period. Additionally, responses from this progress report can also be used to identify opportunities for additional technical assistance (TA).

GPRA Evaluation

GPRA data will be collected at intake, discharge and 6-months post-intake and entered into the SPARS data collection system. This data will be readily available to evaluate demographics, drug and alcohol use, family and living conditions, education/employment, criminal justice status, mental/physical health and social connectedness. As adequate sample sizes are obtained, reports will be shared with the program coordination committee and the local government steering committee to assess program effectiveness.

SPARS (GPRA Entry)

SAMHSA's Performance Accountability and Reporting System (SPARS) is the new centralized data platform for GPRA performance measures for the Center for Substance Abuse Prevention (CSAP), the Center for Substance Abuse Treatment (CSAT), and the Center for Mental Health Services (CMHS). The SPARS training and technical assistance services support discretionary grantees and SAMHSA project officers in the data collection and management process, as well as in the use of data to enhance performance monitoring, reporting and continuous quality improvement.

Grantees will use SPARS to enter baseline, reassessment, and discharge data of clients receiving direct services, as well as other grantee level infrastructure, best practices, and performance measurement data.

Client Clinical Update Form

Each month, contracted providers will complete a client sessions update sheet for each active client served during the previous month (See Appendix C: Client Clinical Update). Staff should only include services rendered face-to-face (including telehealth and/or no-shows). This information will be utilized as performance data to provide an overall look at how the program is operating. Sheets should be turned in to Mark Vargo, Program Evaluator, at Operation PAR by the 10th of the following month.

Cross Site Evaluation/Supplemental Client Interview

SAMHSA is conducting a cross-site evaluation of CABHI grantees. One of the activities associated with the cross-site evaluation is a Supplemental Client Interview (SCI). The SCI will capture data not collected via the GPRA interview. Administration of the SCI will be via Operation PAR staff and will occur at the time of administration of the GPRA interview. Clients will provide voluntary informed consent for participation in this aspect of the project.

Program Evaluation

Evaluation Plan

INTRODUCTION

The local performance assessment is designed to determine whether the project is achieving its goals, objectives and outcomes the program intended to achieve and identify whether adjustments need to be made to the project. In the grant proposal, the project identified four areas for performance assessment:

- 1) Standard agency performance measures
- 2) Progress towards goals and objectives,
- 3) Outcomes and Process Questions and
- 4) Tracking disparities in sub-populations.

To track these four areas, an Evaluation Plan is provided and consists of the following components:

- Local Process Evaluation
- Local Outcome Evaluation
- GPRA Evaluation
- Cross-Site Evaluation

LOCAL PROCESS EVALUATION

The project will review the following process questions in the table below. The program will be analyzed using gender, race, ethnicity and other variables identified at the time of analysis as variables to assure that appropriate populations are being served and that disparities in services and outcomes are minimized.

Process Questions	
Question	Data Source
<ul style="list-style-type: none"> • What activities and actions taken by the Steering Committee helped improve the clinical and housing outcomes for individuals served? 	Identification of activities, their timeline and implementation and correlated outcomes
<ul style="list-style-type: none"> • How did the strategies and interventions used by the Steering Committee assist in the overall quality improvement of the system of care for individuals served? 	Provider input over time of the project to assess referral, access, retention and outcomes for participants and assess if the project improved the system of care.
<ul style="list-style-type: none"> • Who provided (program staff) what services (modality, type, intensity, duration), to whom (individual characteristics), in what context (system, community), and at what cost (facilities, personnel, dollars)? 	Data from the Case Manager/Outreach Specialist provided to the evaluator as well as project expenses to identify what services were provided and their effectiveness.
<ul style="list-style-type: none"> • Are the targets and indicators linked and used to inform quality improvement activities? 	Review of minutes from weekly staff meetings to address targets and indicators.

<ul style="list-style-type: none"> • What efforts have been taken to overcome administrative and clinical barriers in enrolling individuals in Medicaid and other benefit programs and how are these efforts informing the implementation and/or enhancing the long term sustainability of integrated community systems that provide permanent housing and supportive services? 	Review of minutes from weekly staff meetings to address barriers.
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------

Additional process questions include the monitoring of the following processes to track access and efficiency of client engagement:

- Monitoring referral rates from the different housing providers,
- Monitoring time from referral to screening
- Monitoring time from screening to assigning the client to a provider
- Monitoring the time from assignment to a provider till admission in the providers program.

LOCAL OUTCOME EVALUATION

Outcomes Questions: The project will review the following outcome and process questions in the table below. The program will be analyzed using gender, race, ethnicity and other variables identified at the time of analysis as variables to assure that appropriate populations are being served and that disparities in services and outcomes are minimized.

Outcome Questions	
Question	Data Source
<ul style="list-style-type: none"> • How many individuals were reached through the program and how many were enrolled in Medicaid and other benefit programs as a result of participation in this program? 	Data from GPRA and Case Manager/Outreach Specialist
<ul style="list-style-type: none"> • What effect did linkage to HUD’s Coordinated Entry system have on housing goals? 	Data from Housing Providers on how they accessed HUD’s Coordinated Entry System.
<ul style="list-style-type: none"> • What program/contextual factors were associated with increased access to and enrollment in Medicaid and other benefit programs? 	Case Manager/Outreach Specialist to identify factors addressing enrollment in Medicaid and other benefit programs.
<ul style="list-style-type: none"> • What was the effect of the permanent housing, recovery support, or treatment on key outcome goals? 	Review of identified variables and correlation with patient results and project outcomes and goals.

<ul style="list-style-type: none"> Was the permanent housing and recovery support effective in maintaining the project outcomes at client follow-up interviews? 	Review of identified variables and correlation with patient results and project outcomes and goals.
<ul style="list-style-type: none"> What program and contextual factors were associated with positive clinical and housing outcomes? 	Focus group/questionnaires of participants are correlation with project outcomes.

Project Goals and Objectives: The following table outlines the project’s goals, expected outcome and Performance Measure to assess local performance. These will be reviewed at the weekly staff meetings and acted upon accordingly.

Local Project Goals, Objectives and Performance Measures	
Goal 1: Reduce chronic homelessness	
Objective	Performance Measure
Objective A: House individuals and families who experience chronic homelessness and have SUDs, SMI, SED or CODs.	Performance Measure: Enroll 125 project-eligible chronically homeless individuals per year.
Objective B: Reduce the rate of return to homelessness for individuals experiencing chronic homelessness and have SUDs, SMI, SED or CODs.	Performance Measure: At 6 months post-intake, 60% of all clients enrolled will have remained in permanent housing as measured by the GPRA tool.
Goal 2: Strengthen behavioral health care for individuals experiencing chronic homelessness	
Objective	Performance Measure
Objective A: Improve integration of behavioral healthcare system with homeless system	Performance Measure: Increase the percentage of homeless referrals to the project by 10% from year 1 to 2 and 20% from year 2 to 3.
Objective B: Improve the accessibility of substance abuse and mental healthcare services for individuals experiencing chronic homelessness.	Performance Measure: Increase the percentage of homeless receiving tele-health/mobile MH services by 10% from year 1 to 2 and 20% from year 2 to 3.
Objective C: Determine best practice for serving individuals experiencing chronic homelessness who have SUDs, SMI, SED or CODs.	Performance Measure: 5. Increase the percentage of participants who reduce the number of times they utilize emergency room services, are arrested or are Baker Acted in the 6 months after admission to the project compared to the 6 months preceding admission to the project.

	<p>6. Increase the percentage of participants from Year 1 to Year 2 and from Year 2 to Year 3 who upon discharge from the project, complete at least 50% of their treatment plan objectives.</p> <p>7. Increase the percentage of participants who are successfully discharged from the project from Year 1 to Year 2 and from Year 2 to Year 3.</p> <p>8. For those clients subject to drug screens, increase the percentage of clients from Year 1 to Year 2 and from Year 2 to Year 3 who test negative in 75% of their drug screens.</p>
Goal 3: Reduce behavioral health disparities among racial and ethnic minorities	
Objective	Original Performance Measure
Objective A: Reduce differences in Access to Service.	Performance Measure: Increase the yearly percentage of racial and ethnic minorities admitted to the program using, year 1 as the base rate.
Objective B: Reduce the differences in Service Use.	Performance Measure: Increase the yearly percentage of racial and ethnic minorities who remain in treatment for at least 30 days, using year 1 as the base rate.
Objective C: Decrease the differences in Outcomes.	Performance Measure: Increase the yearly percentage of racial and ethnic minorities who are successfully discharged from the project, using year 1 as the base rate.

Treatment Outcome Analysis Collected from each Behavioral Health Provider: Due to the collaborative nature of the project that involves three treatment providers, a form has been created that will capture the necessary outcomes for each client treated by each provider. Since the project evaluator will not have access to each providers electronic health record, the use of a paper form will be the most efficient method to capture the data elements needed to assess the client clinical outcomes in the project. Appendix C contains the data form.

Tracking disparities in sub-populations: Performance assessments will be used to determine whether the project is having/will have the intended impact on behavioral health disparities as demonstrated by increased admission rates for the populations of focus. This performance measure will be reviewed monthly as adequate sample sizes are obtained for evaluation. Periodic reports will contain information regarding progress achieved, barriers encountered, and remedies to overcome the barriers. This information will be compiled and reported to program staff and the Federal Project Officer in the performance assessment report to be submitted at least semi-annually.

Many of the methods to track and assess changes in sub-population disparities are based on the fact that EHR and GPRA data is readily available that allows the program to identify subpopulations (i.e., racial, ethnic, sexual/gender minority groups) vulnerable to disparities quickly and implement strategies to address the differences in access, services use, and outcomes by implementing the enhanced National Standards on Culturally and Linguistically Appropriate Services (CLAS). Additionally, demographic profiles of the housing providers will also be reviewed and compared to the clients treated. These standards comprise mandates, guidelines, and recommendations that are intended to inform, guide, and facilitate required and recommended practices related to culturally and linguistically appropriate health services. Strategies for implementing CLAS standards include upholding the following principles to address subpopulation disparities: 1) ensuring services are patient-centered so that they are active participants in planning and managing their treatment; 2) maintaining respect for diverse cultural and linguistic backgrounds; and 3) recognizing personal, social, and institutional barriers and how to overcome these barriers. To track and assess deviations from these principles, the program data on access, utilization, and outcomes will be tracked and assessed.

GPRA EVALUATION

GPRA data will be collected at intake, discharge and 6-months post-intake and entered into the SPARS data collection system. This data will be readily available to evaluate demographics, drug and alcohol use, family and living conditions, education/employment, criminal justice status, mental/physical health and social connectedness. As adequate sample sizes are obtained, reports will be shared with the treatment team and the steering committee to assess program effectiveness.

CROSS-SITE EVALUATION

The cross-site analysis will be conducted in conjunction with RTI and SAMHSA and will follow their protocol. RTI provided a copy of the Cross –Site Evaluation Fact Sheet (Appendix G). The RTI staff conducted an initial site visit in November 2017 (Appendix H – Agenda).

Grant Budget Management

The Human Services Grants Management staff works with each contracted agency to develop the annual budget; prepares a comprehensive budget for submission to SAMHSA; ensures that any budget modifications are within the scope of the grant program; reviews and approves invoices according to federal requirements for allowable expenses and supporting documentation; reviews and approves federal drawdowns; processes carryover requests; and provides technical assistance related to federal requirements.

Annual Budget

The grant was awarded for a three-year project period from 2016-2019. The Year One budget period is from 9/30/2016 – 9/29/2017; the Year Two budget period is from 9/30/2017 – 9/29/2018; the Year Three budget period is from 9/30/2018 – 9/29/2019. Each year, the grantee must submit a non-competing continuation application to be awarded funds for each budget period.

The annual budget is divided between two federal centers within SAMHSA: The Centers for Mental Health Services (CMHS) and The Center for Substance Abuse Treatment (CSAT). The County will work with each contracted agency to ensure that the budget is appropriately divided according to the Notice of Funding Availability.

The budget must also identify the related infrastructure expenditures which shall not exceed 15% of the total budget and evaluation expenditures which may not exceed 20% of total expenditures.

Grant funding for direct services are to be funding of last resort.

Program Income

Program Income: gross income – earned by a recipient, subrecipient, or a contractor under a grant - directly generated by a grant supported activity, or earned as a result of the grant. Program Income must be used to further the objectives and shall only be used for allowable costs as set forth in the applicable OMB Circulars and CFR as described in the terms and conditions of the award. Program Income is to be reported in the Federal Financial Report (FFR), thus Pinellas County requests submissions with each invoice.

Examples of Program Income:

- Medicare/Medicaid reimbursement, or private insurance reimbursement.
- Co-pays paid by clients for substance disorder or mental health treatment services.
- Services billed and received for clients entered into the CABHI Program (via the GPRA) creates program income.

Reporting Program Income:

- Program Income will be included as a line item on the Budget and Expenditure Report for inclusion in the invoice submission to Pinellas County.
- Program Income is to be deducted from the reported expenses to provide a resultant total reimbursement request.
- Program Income must be supported within the invoice through the inclusion of a spreadsheet format to include the client ID, date of service, service type, payor, and cash receipts. Additional supporting documentation must be maintained and provided upon request by the County.

Use of Program Income, costs may be used for any of the following categories for which the contractor has identified in their approved budget:

- Personnel
- Fringe Benefits
- Travel
- Equipment and Supplies
- Contractual
- Other
- Indirect Costs

The CABHI Grant requires the treatment of Program Income as Additional Costs per the Notice of Award. With prior approval of the HHS awarding agency, program income may be added to the Federal award by the Federal agency and the non-Federal entity. The program income must be used for the purposes and under the conditions of the Federal award.

Record Retention: The contractor must maintain records that adequately identify the sources of funds for federally assisted activities and the purposes for which the award was used, including any program income. Accounting records must be supported by source documentation such as cancelled checks, paid bills, payrolls, and time and attendance records. Documents must be maintained for three (3) years after the final disposition of the grant closeout.

Carryover

A carryover is when an unobligated balance from a previous budget period is carried forward into the current budget period to support incomplete activities from prior budget periods.

There are two types of carryover actions. Recipients may only submit one type of carryover per budget period.

- Expanded Authority (10 percent or less of the total approved current year budget. See below for full information.)
- Formal Carryover requiring prior approval (formal requests that do not fall under the expanded authority. See below for full information.)

Carryover is not intended to solely spend down unobligated funds. Carryover funds must be used to support the approved goals and objectives of the grant program based on the funding opportunity announcement.

All carryover requests must be submitted within 90 days after the end of the prior budget period.

Expanded Authority for Carryover

SAMHSA authorizes expanded authority for automatic carryover of unobligated funds from the previous budget periods to the current budget period for recipients who meet the following specific criteria:

- The recipient must not be on Restricted Status.
- The proposed carryover amount is 10 percent or less of the total federal share of the current budget period (the year in which the funds are needed).
- The funds cannot be identified as restricted in the notice of award's terms and conditions.

Notification to SAMHSA

The intent to carryover and the carryover amount (in dollars only) must be stated in FFR Remarks, section 12. Subsequent FFRs must reflect the actual carryover amount.

Formal Carryover requiring prior approval

A prior approval request must be submitted if the carryover request does not meet the expanded authority criteria.

Based on the nature, extent, and timing of the request, the SAMHSA GMO may approve, deny, or request additional material to further document and evaluate your request. Only responses provided by the GMO are considered valid. If SAMHSA approves the request, an amended Notice of Award will be issued. Verbal authorization is not approval and is not binding on SAMHSA. Recipients that proceed on the basis of actions by unauthorized officials do so at their own risk, and SAMHSA is not bound by such responses.

Formal carryover requests must be submitted no later than 90 days after the end of the previous budget period. Requests submitted in an untimely manner may not be granted.

What to Include in The Request: The prior approval request must contain the following:

- Cover Letter/Narrative
 - Explain why an unobligated balance (UOB) exists.
 - Explain and support the need for carryover funds.
 - Describe how the unobligated funds will be used in the current budget period (the proposed work must be allowable under the grant).
 - Describe the impact on the project if the carryover is not approved.
 - Justify how increased matching or cost sharing will be met if the carryover is approved (as applicable).
- An SF-424A for the carryover request amount
- Line-item budget and budget narrative for the unobligated balance requested for carryover. As applicable, the budget must include matching or cost sharing. To ensure a timely review, the budget should follow the formatting requirements outlined in the Funding Opportunity Announcement.

Appendix A - CABHI Program Criteria & Referral Form

Cooperative Agreement to Benefit Homeless Individuals

Program Criteria

Background:

Pinellas County received grant funding from the Substance Abuse and Mental Health Services Administration (SAMHSA) to provide mental health and substance abuse treatment services to individuals who have experienced homelessness and have serious mental illness (SMI), substance abuse disorder (SUD), serious emotional disturbance (SED), and/or co-occurring disorder (COD). This program is focused on formerly chronically homeless individuals who have recently been housed in permanent housing or permanent supportive housing.

Program Criteria:

Clients may be eligible to receive treatment services if:

- Client has a history of chronic homelessness
- Client is currently in permanent housing or permanent supportive housing
- Client scores 6 or above on the Vi-SPDAT housing assessment tool; or other identified intake assessment utilized by a housing provider that identifies a client's need related to chronic homelessness and behavioral health issues.
- Client self reports or is known to have a mental health or substance abuse diagnosis (*Detailed clinical assessment will be completed by program staff to determine clinical diagnosis and eligibility*)
- Client is not currently receiving treatment services; or is receiving inadequate treatment services by another licensed behavioral health treatment provider.
- Eligible clients include adults, families, veterans, and youth.

Referral Process

If your organization identifies a client who may be eligible for the program, please complete the attached referral form for the Pinellas County's Cooperative Agreement to Benefit Homeless Individuals (CABHI) Program.

Completed referrals may be submitted by:

FAX: (727) 507-6310

EMAIL: CABHI@operpar.org

Upon receipt, a Program Coordinator from Operation PAR, will reach out to both the referring party and the client to schedule an intake assessment. Once the client completes the intake assessment, a clinical review team will assess each client to determine eligibility for services and identify the appropriate treatment provider.

Please call Marvin Coleman at (727)422-9907 or mcoleman@operpar.org for more information.

Cooperative Agreement to Benefit Homeless Individuals

Program Criteria - Definitions

Behavioral Health: The term “behavioral health” refers to a state of mental/emotional health and/or choices and actions that affect wellness. Behavioral health problems include substance use or misuse, alcohol and drug addiction, serious psychological distress, suicidal ideation, and mental and substance use disorders. The term is also used to describe the service systems encompassing the promotion of emotional health, the prevention of mental and substance use disorders and related problems, treatments and services for mental and substance use disorders, and recovery support.

Permanent housing means community-based housing without a designated length of stay (e.g., no limit on the length of stay). Permanent housing shall be safe, affordable, and integrated in the community. It may include an apartment or single room occupancy in a building (congregate housing), rent-subsidized apartments, or houses in the open housing market (scattered housing), as well as designated units within privately owned buildings.

Permanent supportive housing refers to housing that is considered permanent (rather than temporary or short-term) and offers tenants a range of supportive services aimed at promoting recovery from mental and/or substance use disorders. There should not be any arbitrary limits for the length of stay for the tenant as long as the tenant complies with the lease requirements (consistent with local landlord-tenant law).

Homeless as characterized under the Homeless Emergency Assistance and Rapid Transition to Housing (HEARTH) Act of 2009, and defined by the December 5, 2011, Final Rule: Defining “Homeless” (76 FR 75994), establishes four categories of homelessness. These categories are: (1) Individuals and families who lack a fixed, regular, and adequate nighttime residence and includes a subset for an individual who is exiting an institution where he or she resided for 90 days or less and who resided in an emergency shelter or a place not meant for human habitation immediately before entering that institution; (2) Individuals and families who will imminently lose their primary nighttime residence; (3) Unaccompanied youth and families with children and youth who are defined as homeless under other federal statutes who do not otherwise qualify as homeless under this definition; or (4) Individuals and families who are fleeing, or are attempting to flee, domestic violence, dating violence, sexual assault, stalking, or other dangerous or life-threatening conditions that relate to violence against the individual or a family member.

Chronic homelessness means: (1) A homeless individual with SUD, SMI, SED, or COD issues, who:

- (i) Lives in a place not meant for human habitation, a safe haven, or in an emergency shelter; and
- (ii) Has been homeless and living as described in paragraph (1)(i) of this definition continuously for at least 12 months or on at least four separate occasions in the last three years, as long as the combined occasions equal at least 12 months and each break in homelessness separating the occasions included at least seven consecutive nights of not living as described in paragraph (1)(i). Stays in institutional care facilities for fewer than 90 days will not constitute a break in homelessness, but rather such stays are included in the 12-month total, as long as the individual was living or residing in a place not meant for human habitation, a safe haven, or an emergency shelter immediately before entering the institutional care facility;

(2) An individual who has been residing in an institutional care facility, including a jail, substance abuse or mental health treatment facility, hospital, or other similar facility, for fewer than 90 days and met all of the criteria in paragraph (1) of this definition, before entering that facility; or (3) A family with an adult head of household (or if there is no adult in the family, a minor head of household) who meets all of the criteria in paragraph (1) or (2) of this definition, including a family whose composition has fluctuated while the head of household has been homeless.

Doubled Up: In addition, for the purposes of this program, the terms “homeless” and “chronic homelessness” also may include individuals who are “doubled-up” – defined as sharing another person’s dwelling on a temporary basis where continued tenancy is contingent upon the hospitality of the primary leaseholder or owner and can be rescinded at any time without notice.

Appendix G – Cross-Site Evaluation Fact Sheet

CABHI Evaluation Site Visit Fact Sheet

July 2017

Purpose of the Site Visit

We look forward to visiting your CABHI grant project and learning more about your community and project. The site visit will help us to understand your grant project and its impact from multiple stakeholder perspectives, as well as how it fits into the larger community service and housing systems. We will tailor each visit to each site, but will use a common approach across sites to later “compare and contrast” grant projects. As with the larger cross-site evaluation, the site visits are not for us to check up on whether you are complying with grant requirements or adhering to your grant proposal – this is not a “grant monitoring” visit. Also, by leveraging information and understanding gained through the monthly site team calls and other information and materials you have already shared with us, we will come prepared to dive deep into the details of your CABHI project.

What will the site visit entail?

We plan to spend approximately 2 days meeting with your CABHI program staff and stakeholders including the project director, project manager, local evaluator, treatment/clinical staff, case managers, peer support specialists, housing providers and support staff, external and internal stakeholders (e.g., partner agencies, steering committee members, etc.), and program clients (18 years or older). Other than the project director, we expect that we will ask for at most 2 hours of time from each participant; we will likely ask for more time from the project director but it will be a few hours, not the entire 2 days. For the client focus group, RTI will pay for food (up to \$100) to thank clients for their participation.

What are the topics and content of the meetings?

The topics and discussion of the meetings will vary by respondents and the specific service approaches of your CABHI program. In general, the types of information we will ask about on the site visit include:

- ◆ The organization of the CABHI project and partners - roles, experience, coordinating bodies, and collaborative activities
- ◆ The community context and resources as they relate to your CABHI program
- ◆ A detailed discussion on how a typical client participates in the program, including outreach/engagement, enrollment, service delivery, and housing and housing supports
- ◆ A discussion of your CABHI program’s evidence-based practices, including any modifications, training activities, fidelity measurement, etc.
- ◆ Client experiences, perceptions, and satisfaction with services (client focus groups)
- ◆ Local evaluation activities, early findings, and future plans
- ◆ Implementation barriers and facilitators, and early “lessons learned”

What help do we need from you?

Your assistance is essential to a successful site visit. We will ask for your help with the following:

- ◆ Identifying the best dates for the site visit (in October, November or December)
- ◆ Identifying the right individuals for the meetings, inviting them, and confirming participation
- ◆ Identifying and securing space for meetings, ideally at one location for most meetings
- ◆ Coordinating the client focus group – identifying and inviting clients, providing or facilitating transportation, and assisting in arranging for food
- ◆ Providing recommendations for a hotel, whether we will need a rental car, etc.

Your evaluation site team will work with you to plan the details of the site visit and address any questions.

Thank you in advance for your support and participation!

Appendix I – Pinellas County CABHI Program Income Guide

PINELLAS COUNTY CABHI PROGRAM INCOME GUIDE

Program Income: gross income – earned by a *recipient*, *subrecipient*, or a *contractor* under a grant - directly generated by a grant supported activity, or earned as a result of the grant. Program Income must be used to further the objectives and shall only be used for allowable costs as set forth in the applicable OMB Circulars and CFR as described in the terms and conditions of the award. Program Income is to be reported in the Federal Financial Report (FFR), thus **Pinellas County requests submissions with each invoice**. For the CABHI program, the grant is to be the payor of last resort. Other opportunities for the payment of services rendered under the award must be explored.

Examples of Program Income:

- Medicare/Medicaid reimbursement, or private insurance reimbursement.
- Co-pays paid by clients for substance disorder or mental health treatment services.
- Services billed and received for clients entered into the CABHI Program (via the [GPRA](#)) creates program income.

Reporting Program Income:

- Program Income will be included as a line item on the Budget and Expenditure Report for inclusion in the invoice submission to Pinellas County.
- Program Income is to be deducted from the reported expenses to provide a resultant total reimbursement request.
- Program Income must be supported within the invoice through the inclusion of a spreadsheet format to include the client ID, date of service, service type, payor, and cash receipts. Additional supporting documentation must be maintained and provided upon request by the County.

Use of Program Income, costs may be used for any of the following categories for which the contractor has identified in their approved budget:

- Personnel
- Fringe Benefits
- Travel
- Equipment and Supplies
- Contractual
- Other
- Indirect Costs

Record Retention: The contractor must maintain records that adequately identify the sources of funds for federally assisted activities and the purposes for which the award was used, including any program income. Accounting records must be supported by source documentation such as cancelled checks, paid bills, payrolls, and time and attendance records. Documents must be maintained for three (3) years after the final disposition of the grant closeout.

The CABHI Grant requires the treatment of Program Income as Additional Costs per the Notice of Award. **With prior approval** of the HHS awarding agency, program income may be added to the Federal award by the Federal agency and the non-Federal entity. The program income must be used for the purposes and under the conditions of the Federal award.

FY 17-18 Budget and Expenditure Report

Please note: This form is to accompany all requests for reimbursement.

Please be sure that Program Reports are current; Fiscal Request will not be processed without current program reports on file.

Proof of insurance coverage (liability) must also be on file.

Should the **AGENCY**, at any time, not maintain the insurance coverages required herein, the **COUNTY** may terminate the Agreement, or at its sole discretion may purchase such coverages necessary for the protection of the **COUNTY** and charge the **AGENCY** for such purchase. The **COUNTY** shall be under no obligation to purchase such insurance, nor shall it be responsible for the coverages purchased or the insurance company or companies used. The decision of the **COUNTY** to purchase such insurance shall in no way be construed to be a waiver of any of its rights under the Agreement.

The **COUNTY** reserves the right, but not the duty, to review and request a copy of the **AGENCY**'s most recent annual report or audited financial statement when a self-insured retention (SIR) or deductible exceeds \$50,000.

Each insurance policy shall include the following terms and/or conditions in the policy:

- (1) The Named Insured on the Certificate of Insurance must match the entity's name that is signing the Agreement.

- (6) Any certificate of insurance evidencing coverage provided by a leasing company for either Workers Compensation or Commercial General Liability shall have a list of covered employees certified by the leasing company attached to the Certificate of Insurance. The **COUNTY** shall have the right, but not the obligation to determine that the **AGENCY** is only using employees named on such list to perform work for the **COUNTY**. Should employees not named be utilized by **AGENCY**, the **COUNTY**, at its option may stop work without penalty to the **COUNTY** until proof of coverage or removal of the employee by the **AGENCY** occurs, or alternatively find the **AGENCY** to be in default and take such other protective measures as necessary.
