PACE local governments shall establish an "eligible measures list" that identifies the types and specifications of qualifying improvements, using efficiency standards for materials and installation established by the U.S. Department of Energy, the U.S. Environmental Protection Agency, or Florida state agencies, or independent third-party expert rating entities, as applicable. Any solar photovoltaic system financed under a PACE program must have an online monitoring system for maintenance and production monitoring purposes unless the property owner declines the monitoring system in writing. The eligible measures list shall be regularly updated and made publicly available. The county shall have the right to review and approve that list annually.

- (4) *Data security and consumer privacy.* PACE local governments shall take security measures to protect the security and confidentiality of consumer records and information to the extent permitted or mandated by law. In addition, a privacy policy must be in place that complies with state and federal law and, in particular, shall provide a property owner the ability to opt-out of having the property owner's information shared with third parties, except where expressly permitted or required by state or federal law.
- (5) *Contractor pricing.* Within six months of entering into a PACE interlocal agreement, PACE local governments shall have in place pricing rules and enforcement mechanisms to ensure property owners are protected from excessive or unjustified prices and charges of PACE contractors.

 - b. Available rebates or incentives;
 - c. The benefits of installing energy efficiency improvements before renewable energy to reduce costs overall;

 - f. That any tax incentives, credits or rebates should be confirmed and discussed with an independent tax professional of the eligible participant's choosing if there are any tax questions; and
 - g. Costs of the energy audit are eligible for financing as part of the assessment. This estimated energy savings disclosure requirement shall be included in the "code of conduct" and in training for PACE contractors.

against the property, and that failure to pay may result in the loss of property subject to the PACE assessment, including homestead property, in the same manner as failure to pay property taxes;

- e. That the installation of qualifying improvements and PACE assessment may or may not affect the overall market value of the property or energy cost savings;
- f. That all applicable warranties or guarantees terms are set forth in writing, and what materials or labor are not warrantied or guaranteed for each qualifying improvement;
- g. That the PACE assessment may affect the sale or refinance of the property;

The notice shall be signed and dated by the property owner to acknowledge that they understand these conditions. The PACE local government shall record, or cause to be recorded, the notice in the public records as an attachment to the PACE financing agreement. The signature page must clearly designate that it relates to the PACE financing agreement and notice to property owner acknowledgement. In the alternative, the foregoing notice provisions may be incorporated into the recorded financing agreement or summary memorandum of financing agreement relating to the PACE assessment.

- (8) *PACE financing agreement.* After achieving compliance with all other mandated steps provided for by law, including but not limited to receiving a verified copy or other proof of such notice required by F.S. § 163.08(13), the PACE local government shall enter into a voluntary written agreement with each eligible participant. At or before the execution of a contract for the sale and purchase of any property for which a non-ad valorem assessment for the PACE program has been levied and has an unpaid balance due, the seller shall give the prospective purchaser a notice of the lien in accordance with F.S. § 163.08(14).
 - g. The risks associated with participating in the PACE program shall be clearly disclosed in plain language in the written agreement with the eligible participant, including risks related to the failure of the eligible participant to make payments, the risk that they may not be able to refinance the property or sell the property unless the PACE assessment is paid off in full first, and the risk of issuance of a tax certificate and loss of the property pursuant to F.S. ch. 197.
 - h. Description of the qualifying improvements, their cost, and estimated completion date.
 - i. Notice of the non-ad valorem assessment shall be recorded in the public records for the property.
 - j. The PACE financing agreement shall clearly disclose, in plain language, the interest rate to be charged, including points, as well as any and all fees or penalties that may be separately charged to the eligible participant, including potential late fees. The subsequent charging or collecting any additional fees that were not specifically disclosed in the written agreement with the property owner shall be prohibited.
