Testimonials

I was able to get an internship with the county through my involvement with YAC.

One of my favorite experiences from YAC would be our tour of the St. Pete Clearwater Airport and learning all about the different aspects besides keeping up with the departures and arrivals. I also am very grateful because before YAC I did not consider going into the government and now that is what I'm going to school for.

This year was really cool especially when we got to tour the different parts of government and learn about the opportunities in our own community
