PROJECT: Taxiway Rehabilitation Phase 2

AIRPORT: St. Pete-Clearwater International Airport (PIE)

1. Objective:

This project consists of the preparation of plans and specifications and construction of the second phase of a major taxiway rehabilitation program at PIE. Based upon the PCI study conducted in 2011 and updated in 2015, the PCI ratings for the taxiways to be rehabilitated are as follows: Taxiway A: PCI = 39; Taxiway B: PCI = 56; Taxiway M: PCI = 42; Taxiway T: PCI = 22; Taxiway F: PCI = 56; Taxiway J: PCI = 46; and Taxiway K: PCI = 73.

This project will also remove existing angled taxiways and reconfigure them to meet current FAA design standards.

2. Benefits Anticipated:

The reconstruction of the existing Terminal Apron pavement will improve safety, allow for increased load bearing capacity, and will preserve airport infrastructure by providing a long-life pavement.

The existing pavements are a combination of bituminous and Portland Cement Concrete (PCC) pavements that currently exhibit various types of pavement distresses, such as slippage, block, LTD, and alligator cracking.

3. Approach: (See approved Scope of Work in Final Application)

A public bid opening was held on May 10, 2016. The project consisted of a base bid with additive bids #1 and #2 as well as alternate bid #1. Jacobs reviewed the bid tabulation provided by Pinellas County Purchasing Department and inserted the Engineer's Estimate. No mathematical errors were found. The total base bid with additive bids #1 and #2 with Alternate Bid #1 is \$8,388,100.80.

We expect for the contractor to submit a schedule at the Pre-Construction conference. The schedule will be closely monitored by PIE staff and the Resident Project Representative to ensure that the 360-day schedule will be adhered to as closely as possible.

We expect to schedule the Pre-Construction conference as soon as we receive the grant; we expect to have that meeting in September, 2016. The project kick-off will begin in October, 2016 and will be complete approximately by November, 2017.

Project Description: Taxiway Rehab, Phase 2. This project consists of the preparation of plans and specifications and construction of the second phase of a major taxiway rehabilitation program at PIE. Specifically, this project includes the following:

BASE BID

- Taxiway "A" from the intersection of Runway 4-22 to the intersection of Runway 36. Work includes pavement rehabilitation (approximately 1750' x 75'); 30' wide paved shoulders; edge lights; signage; and pavement marking.
- Reconfiguration of Taxiway "F" and "M" at the intersection to Runway 18-36. Work includes demolition of existing Taxiway "F" and "M"; new construction of realigned Taxiway "F" (approximately 875' x 50'); new construction of realigned Taxiway "M" (approximately 675' x 50'); edge lights; signage; and pavement marking.

ADDITIVE ALTERNATE #1

- Taxiway "B" from Taxiway "T" to closed Runway 9-27. Work includes demolition of Taxiway "C"; pavement rehabilitation of Taxiway "B" (approximately 325' x 75'); 30' wide paved shoulders; edge lights; signage; and pavement marking.
- Taxiway "T" from Taxiway "A" to Taxiway "B". Work includes pavement rehabilitation of Taxiway "T" (approximately 1700' x 170'); and pavement marking.

ADDITIVE ALTERNATE #2

- Taxiway "M" from new intersection of reconfigured Taxiway "F" and "M" (from Base Bid above) to intersection of Runway 22. Work includes pavement rehabilitation (approximately 3650' x 50'); edge lights; signage; and pavement marking.
- Taxiway "J" from Taxiway "M" to Runway 4-22. Work includes pavement rehabilitation (approximately 250' x 50'); edge lights; signage; and pavement marking.
- Taxiway "U" from the intersection of closed Runway 9-27 to the entrance to "The Landings" t-hangar complex. Work includes pavement rehabilitation (approximately 290' x 25'); edge lights; signage; and pavement marking.

Project Justification: Based on the PCI Study conducted in 2011 and updated in 2015, the PCI ratings for these taxiway pavements are as follows:

- Taxiway "A" PCI = 39
- Taxiway "B" PCI = 56
- Taxiway "M" PCI = 42
- Taxiway "T" PCI = 22

- Taxiway "F" PCI = 56
- Taxiway "J" PCI = 46
- Taxiway "K" PCI = 73

These pavements are experiencing pavement distresses including bleeding, block cracking, and weathering. These pavements were originally constructed in 1944 with rehabilitation work performed in the early 1990's. This project will also remove the existing angled Taxiway "F" to remove direct access from the air carrier apron to Runway 18-36 to meet the requirements of Advisory Circular 150-5300-13A's FAA pavement design standards.

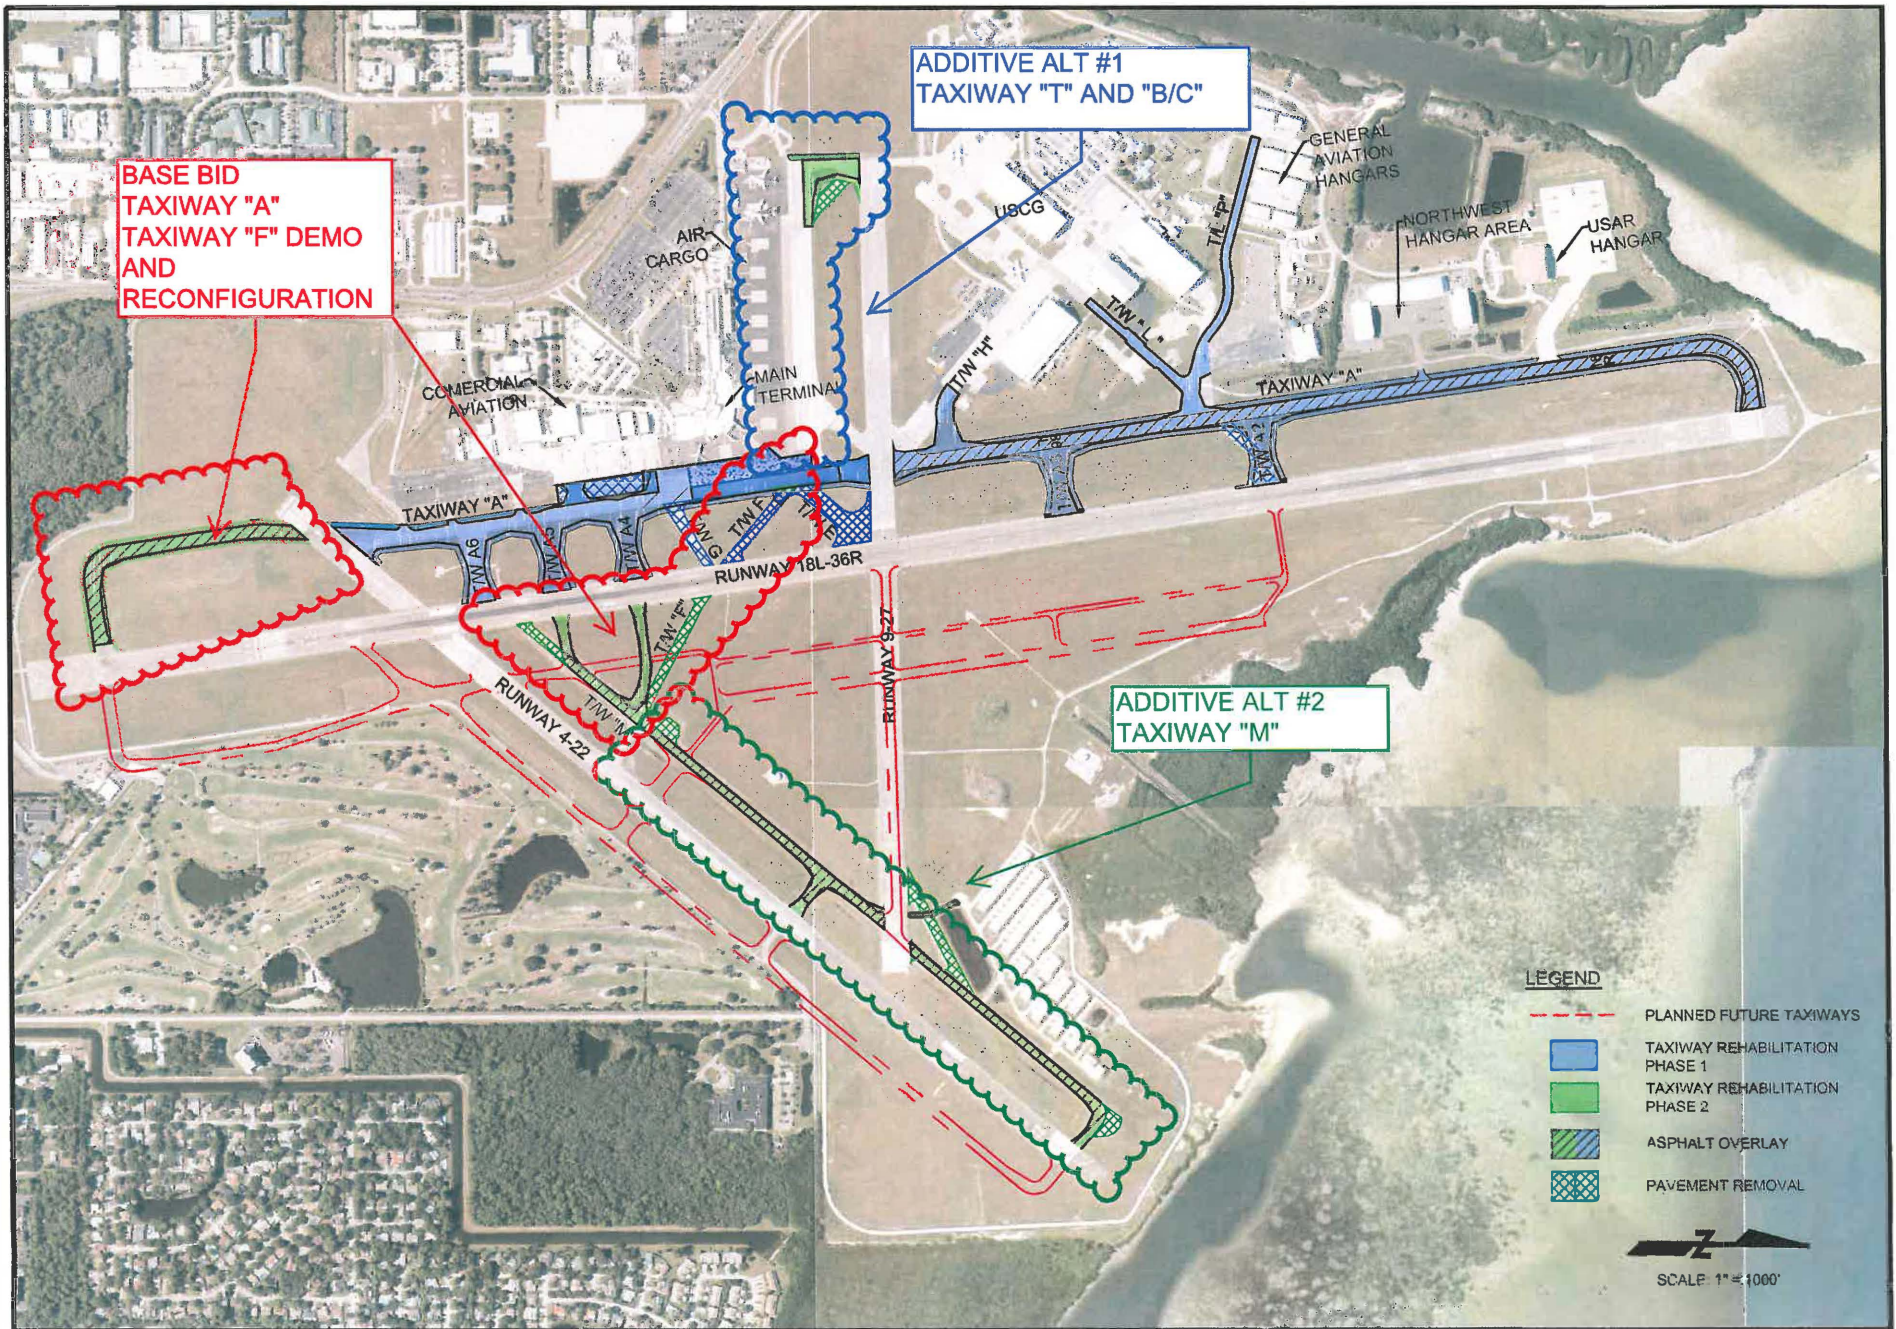

Special Circumstances: N/A

Re: St. Pete-Clearwater International Airport
Taxiway Rehabilitation Phase 2
Pinellas County Bid No. 156-0282-CP

Dear Mr. Yarley,

A public bid opening was held on May 10, 2016 for the above subject project. The project consisted of a Base Bid with Additive Bids #1 and #2 as well as Alternate Bid #1. Jacobs has reviewed the Bid Tabulation provided by Pinellas County Purchasing and inserted the Engineer's Estimate. In reviewing the bid tabulation, we did not find any mathematical errors in the bids received.

The apparent low bid submitted by Ajax Paving Industries of Florida, Inc. included a Base Bid of \$4,628,050.75, Additive Bid #1 of \$2,004,863.80, Additive Bid #2 of \$1,677,866.25 and Alternate Bid #1 of \$77,320.00. The total Base Bid plus Additive Bids #1 and #2 is \$8,310,780.80.

Based on our review of the bid prices and contingent upon Pinellas County's legal review of the proposer's bid documents and confirmation of funding availability, Jacobs recommends award to Ajax Paving Industries of Florida, Inc. for the Base Bid plus Additive Bids #1 and #2 for a total contract value of \$8,310,780.80. If you have any questions or require any additional information, please do not hesitate to contact us.

Sincerely,

Tom Schilling, P.E.
