Full Legal Organization Name (Required)	Palm Harbor Area Senior Council
Street Address (Required)	1445 Manatee Cir.
City (Required)	Tarpon Springs
State (Required)	FL
Zip Code (Required)	34689
Organization President / Executive Director (Required)	Stephen Putnam
Title (Required)	President
Phone Number (Required)	727-580-0979
Email Address (Required)	jstephenputnam@msn.com
Contact Person Name (if different than above)	Trish Harrison
Contact Person Title	Assistant Director, PPHP

Contact Person Phone Number	727-424-2769
Contact Person Email Address	tharrison@phparksandrec.org
501(c)(3)? (Required)	Yes
Registered in Florida? (Required)	Yes
Year Established (Required)	1977
Total Organization Annual Budget (Required)	\$2000.00
Taxpayer / Employer ID # (Required)	59-1954950
Brief Description of Organization and It's Mission (approx. 600 characters) (Required)	PHASC promotes the vital aging of the Greater Palm Harbor Senior Community.
Project Name (Required)	Sunderman Complex Restroom Renovations
Requested Program Budget (Required)	\$18,850.00
Community Need: Describe the problem or need to be addressed by this project. (Required)	The restrooms at the Sunderman Complex are used by a large number of individuals regularly. To ensure the health, safety, and comfort of all users, it is imperative to optimize these facilities. Upgrading toilets and fixtures will not only enhance performance and efficiency but also improve hygiene, durability, and maintenance. Our community facilities, particularly the green space and recreational fields within the complex, play a crucial role in enhancing the lives of residents. These spaces offer a wide range of health benefits by promoting physical activity, fostering a

connection to nature, and providing opportunities for community engagement. Unfortunately, the existing facilities are outdated and fail to meet the evolving needs of today's community. They were constructed before advancements in green initiatives related to equipment and fixtures. Additionally, the shortage of green space and park facilities in the Palm Harbor area magnifies the importance of keeping our existing facilities in top condition.

Project Summary:
Describe how the project will be fully implemented and how it will address the need or gap in the community. Identify and describe other funding sources, if any, for this project/program. (Required)

The Project will optimize the bathrooms for health, safety, and comfort, and incorporating the latest advancements in green initiatives for equipment and fixtures. Such upgrades will not only improve the overall experience for users but also contribute to the long-term sustainability of our community facilities

- Toilets and fixtures will be replaced with eco-friendly replacements.
- Walls and ceiling will be painted
- Floors re-surfaced and painted with epoxy sealant
- The ADA-accessible stall will be enhanced

Program Outcomes:
Describe the time-line by which the project will be implemented including short-term and long-term results. (Required)

The project will be managed and overseen by Palm Harbor Parks and Recreation. The project will be a 6-week project including lead time to order fixtures and equipment.
The Project will be completed during the low-use time of the facilities.
Porto-lets will be ordered during the installation.
The project will result in increased ADA access, water savings through more efficient fixtures, and health and safety improvements provided by new maintainable equipment resulting in increased consumer satisfaction.

Describe how your project aligns with the County's Strategic Plan: (Required)

Updated facilities will provide improved access to public facilities. Facilities will be equipped with enhanced ADA accessibility. Renovations and upgrades will provide energy savings and improve hygiene. Renovation of facilities is in line with providing first-class services to the public. Public restroom improvements communicate our commitment to being environmentally conscious while improving the public's quality of life.
