<b>EXHIBIT B - SCOPE OF WORK</b>
----------------------------------

**Proposal Title: Traffic Engineering Consultant Services for Advanced Traffic Management System**

**Proposal Number: 22-0192-CN-VG**

**A. OBJECTIVE:**

The Pinellas County Board of County Commissioners is seeking qualified consultants to provide professional engineering services for the delivery of various projects programmed in the County's Capital Improvement Program (CIP). Projects selected for implementation under this design services contract may consist of, but not be limited to: traffic engineering studies, intersection, signalization, intelligent transportation system and advanced traffic management system (ITS/ATMS) type improvements. Design of these projects may also include permitting, coordination with utility agency owners, public outreach, and project support for right-of-way and easement acquisition. Work may also include design project management to supplement County Engineering staff, program management, construction engineering and inspection (CEI), engineering evaluations, and technical presentations.

**B. BACKGROUND:**

Pinellas County has a robust traffic engineering and ITS/ATMS program which has been in place since 2006. The ITS/ATMS program is still expanding throughout the arterial roadway system and existing system requires extensive management. Pinellas County has been fortunate to receive numerous state and federal grants for the design and construction of the ITS/ATMS system as well as intersection and signalization improvements. This program is expected to continue to grow and require additional maintenance and replacement efforts over the next 10 years. This contract will replace Contract No. 167-0005-CN. The County will be pursuing multiple awardees for this work.

**C. SCOPE OF WORK:**

Pinellas County requires the support of a continuing Engineering and Information and Communication Technology (ICT) consultant, for a wide range of engineering, technical, computer, communications, management and administrative services. The primary program is the design, construction, operation and maintenance of the Pinellas County ITS/ATMS as documented in Exhibit A the "Intelligent Transportation Systems / Advanced Traffic Management System (ITS) Implementation Plan".

The successful firms shall furnish all services, equipment, and manpower necessary for the work described in the Work Assignment Scope of Services and in accordance with the intent of the contract.

Design activities shall be supported by design calculations properly identified as to the subject and topic. Design references and any assumptions shall be noted. Calculations, if required by County Project Manager, shall be in conformance with standard engineering or ICT practices. Design notes and computations shall be in a suitable report format and provided electronically. The report shall be properly indexed as to content. All documents shall receive quality control checks and reviews as outlined/provided by the County. All quality control documents shall be provided with each submittal.

The firm shall provide computer files of the proposed design in AutoCAD, in the latest version supported by Pinellas County Public Works Department, and complete with all objects depicted according to software requirements and the Pinellas County CADD Standards.

The following are representative tasks that may be required as part of completion and management of the ITS/ATMS Program and as such may be required as part of this contract. The Firm shall provide the following, if requested.

- a. Assist County staff in development of scope of services, contracts, memorandums of understanding (MOU) or inter-local agreements.
- b. Reviews of plan submittals, engineering and other calculations, schedules, and other technical documents.
- c. Quality control and constructability reviews of plans.
- d. Review of project requirements and hardware configuration analysis, including system architecture, interfaces, communications, equipment, devices, and computers to assure consistency and compatibility with the Countywide ITS/ATMS project or the applicable phases of a major roadway construction project.
- e. Perform system engineering with integration at the local level and at system level.
- f. Perform and/or observe testing throughout all phases of an ITS project or the applicable phases of a major roadway construction project and perform an analysis of budget losses and comparison of optical time-domain reflectometer (OTDR) tests relative to design requirements and standards.

<b>EXHIBIT B – SCOPE OF WORK</b>
----------------------------------

- g. Perform Construction Engineering and Inspection services for ITS/ATMS construction Projects (Note: The firm will not be able to perform CEI services if they provided the initial design services).
- h. Technical support for Project Manager during project procurement and management phases.

This solicitation is either fully or partially funded with federal funds from the Coronavirus Local Fiscal Recovery Funds made available under the American Rescue Plan Act (ARPA). In addition to other terms and conditions required by Pinellas County and the applicable federal agency, all contracts awarded to the qualified bidder are subject to the following provisions, as applicable to the services provided.

**Equal Employment Opportunity:** Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of “federally assisted construction contract” in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, “Equal Employment Opportunity” (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, “Amending Executive Order 11246 Relating to Equal Employment Opportunity,” and implementing regulations at 41 CFR part 60, “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor.”

If this contract meets the definition of a “federally assisted construction contract”, during the performance of this contract, the Contractor agrees as follows:

- (1) The CONTRACTOR will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. - (3) The CONTRACTOR will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The CONTRACTOR will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
